

Temporary farm closure for lambing & calving

Waitangirua Farm
20 August to 19 October 2018

Plan your trip into the park to avoid the farm during this period

- Stay away from fenced pasture
- Do not use farm roads

The temporary closure is to keep the farm as settled and quiet as possible during this period. This will help ewes and cows bond with their new born lambs and calves.

Both sides of Hill (farm) Road and Belmont Road are now fenced to enable public access along these two farm roads during the farm closure
