

7a Coastal permit application

Please answer all questions fully. Officers from Greater Wellington's Environmental Regulation department are available to assist with filling out this form or to clarify information to include with your application.

This form is required to be filled out in conjunction with Form 1 Resource Consent Application.

Separate application forms should be used for any take, use, damming or diversion of any seawater (Forms 1a and 1b) or discharge of contaminants or water into coastal marine area (Form 3a).

Further information is provided at the end of this form on whether your activity falls within the coastal marine area.

Part A: General information on nature and scale of activity

1. What activity will you be undertaking?

2. Are you:

- | | | |
|--|------------------------------|-----------------------------|
| (1) Reclaiming or draining? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (2) Erecting, reconstructing, placing, altering, extending, removing or demolishing any structure? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (3) Disturbing the foreshore or seabed by excavating, drilling or tunnelling? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (4) Depositing any substance? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (5) Destroying, damaging or disturbing the foreshore or seabed? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (6) Introducing or planting any exotic or introduced plant? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (7) Occupying an area of the foreshore or seabed? (including temporary activities which restricts public use and access) | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (8) Removing sand, shingle or other material? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| (9) Undertaking any activity that will generate noise? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

3. Why do you need to undertake this activity?

4. Are there any alternative locations or methods for activity? If yes, where or how and why have you chosen this over others?

5. What is the area of foreshore and seabed affected by your proposal? Including width, depth, height

6. **Locality map**

Please show the location of you proposed activity. Alternatively you may wish to attach a plan/aerial photograph showing the above information.

3. If you have answered yes to any of the above, describe what impact your proposal will have:

4. What steps do you propose to take to avoid, remedy, or mitigate these effects?

Part C: Monitoring and management of your activity

1. Who is responsible for the maintenance or management of your activity after it has been implemented?

2. Do you propose to monitor during and/or after completion of your activity? If yes, describe the monitoring (include details of what will be monitored, responsible persons, frequency of monitoring)

3. How will maintenance be undertaken if required? (include any contingency or management plans prepared or details of potential ways in which maintenance would be undertaken)

Do you need to make a coastal permit application?

You may need a coastal permit if your proposed activity will occur within the coastal marine area. The coastal marine Area (CMA) includes the foreshore, the seabed, the sea surface and the air above the sea from the mean high water springs (MHWS) mark to the 12 mile limit as illustrated below:

MHWS means the average of each pair of successive high waters during that period of about 24 hours in each semi-lunation (approximately every 14 days, when the range of tides is the greatest). Visually this level is generally close to being the "high water mark" where debris accumulates on the shore annually.

The CMA can also include river mouths and estuaries. Where the MHWS mark crosses a river, the landward boundary at that point shall be whichever is lesser of 1 kilometer upstream from the mouth of the river or the point upstream that is calculated by multiplying the width of the river mouth by 5.

Such activities in the CMA which require a coastal permit include the following:

- Building or altering any structure on the foreshore or seabed (eg, seawall, jetty, culvert, stormwater outfall, swing or pile mooring)
- Undertaking works which will alter the foreshore or seabed or adversely affect marine plants or animals or their habitat (eg, extracting sand, reclamation, dredging, disturbance, deposition of material)
- Occupying land of the Crown in the coastal marine area (with for example structures, moorings, special activities)
- Introducing or planting any exotic or introduced plant in, on, or under the foreshore or seabed
- Noisy activities (eg, fireworks displays, power boat competitions)
- Any other activity which is not permitted by the Regional Coastal Plan
