

Catchment Specific Options

UPPER WAIWHETU

N11 VEGETATION PROTECTION ✓

Education programmes, new Bylaws or changes to Fire Management Plan to mitigate risk of fire and vegetation removal in the upper catchment.

C1 REMOVE CONCRETE CHANNEL

In the upper reaches, near Waddington Drive, remove concrete channel sections (approximately over 1.5km) and reintroduce natural stream channel.

C3 CHANNEL MANAGEMENT

Remove weirs at Cleary Street and upstream of Tilbury Street to improve fish passage and restore natural sediment transport to the stream.

Cleary Street weir

C4 WEED MANAGEMENT

Use Glyphosate on managing cape Pond Weed.

Upstream of White Lines East (particularly stretch immediately upstream of White Lines East to Cleary Street).

C6 WEED MANAGEMENT

Investigate other weed management options

C7 WEED MANAGEMENT ✓

Continue use of existing methods (status quo) (i.e. manual and mechanical clearing, use of diquat).
