**Matter for Recommendation to Council****RSW 165 Bovine Tb Funding Options**

**Report 00.199**

**File: Y/4/1**

Members were informed that further information had become available since the report had been prepared. Time constraints were an issue as any change to a differential rate required use of the Special Order process. This meant advertising between 60-70 days prior to the Council commencing the actual rate making process.

Discussion largely focused on the question of maintaining the Bovine Tb rate in non-operational areas versus rating operational areas only.

**Resolved to Recommend** (Cr Buchanan/Cr Turver)

- (1) **That the Council proceed with a change in the current 80:20 differential in the Bovine Tb rate to a 90:10 ratio to apply from the commencement of the 2000/01 financial year.**
- (2) **That implementation of the Special Order be considered at the Special Council Meeting on 26 April 2000.**
