# A B O U T T H E C O N F E R E N C E

Re Hktstry :'o: the Entironzer,t and its partner organisations extend an invitation to you to participate in one of the country's most significant environmental events - New Zeal and's first state of the environment conference.

Our challenge is to come up with effective ways to use environmental information to raise awareness and motivate change. This is what Information to Motivation 2001 is all about.

#### THE AIMS OF THE CONFERENCE ARE TO:

- Understand how to communicate environmental information to change behaviour
- > Showcase outstanding examples and share ideas
- Bring together the public and those working for the environment
- Raise awareness about the environment

#### CONFERENCE FORMAT:

There will be five main sessions to the conference. The sessions will focus on the following topics:

- Understanding how to create change what are our information needs
- 2. Motivating people to take action how to communicate to change behaviour
- 3. Making informed decisions information for decision making and policy review
- The future of information I.T. tools and solutions for managing and communicating environmental information
- State of the Environment Reporting a new era of reporting products

A:: international keynote speaker will address each session, introducing issues and topics for discussion, providing an international perspective and possible future direction.

A pane: of presenters will follow each keynote address, presenting New Zealand examples of best practice. A discussion will be held at the end of each session where panellists are invited to lead disc&on on appropriate ways forward for New Zeaiand.

# See the conference website www.soeconference.govt.nz - for up-todate information on the conference

# EXHLBITS & POSTERS

A significant component of the conference will be the exhibits and posters. Time has been allocated for exhibit tours giving organisations some time to speak to their exhibit or poster. City/District and Regional Councils are encouraged to provide an exhibit or poster.

Exhibit and poster space wilt be provided FREE of charge to councils, community groups and NGOs.

Commercial exhibit spaces are also **available for** industry groups and businesses to exhibit services and products.

All exhibit and poster space **must** be booked in advance.

#### POSTERS

Poster space of 1.2m wide x 2m high is available for each poster.

#### To submit a poster:

- 1. Please send us the **title** and short description of poster, project or programme.
- 2. Provide a contact for the poster, including phone, mail and email
- Email all this information as a Word document to: soe@confer.co.nz

#### EXHIBITION

Exhibition space of 3m wide x 1.2 deep is available for each exhibition. We are open to innovative and different types of displays. Velcro receptive boards can be arranged for a small fee (applies to free exhibit space only)

To submit **an** exhibition:

- 1. Please send us a short description of the type of exhibition and what **you** intend to **display.**
- 2. Provide a contact including phone, mail and emait
- 3. Email all this information as a Word document to: soe@confer.co.nz
- 4. If you would like additional information on exhibitions please contact us at soe@confer.co.nz or phone 03 546 6022 or fax 03 546 6020

# Share information and your

experiences - FREE poster and exhibit space are available to councils and non-government organisations

No. 191

### PROF IAN LOWE (AUSTRALIA)

Ian Lowe is Honorary Professor of Science, Technology and Society at Griffith University and an adjunct professor at two other universities. His principal

research interests are in the broad area of policy decisions influencing use of science and technology. He was Director of the Commission for the Future in 1988, arid that yea: was named Australian Humanist of the Year. Professor Lowe chaired the Australian government's advisory council which produced the first independent national report on the state of the environment in 1995. He is a recipient of the Prime Minister's Award for Outstanding Individual Achievement in the Environment. A regular columnist for Kew Scientist and various other publications, Professor Lowe hasrecentlycompleted a term of office as President of Australian Science Communicators.

# BARBARA PYLE'(SSA)

Barbara Pyie is Vice President, Corporate Environmental Policy, a: Turner 'Broadcasting System.

Since joining Turner Broadcasting in 1980 Barbara Pyle has pioneered environmental television programming. He: mission is ta make critical global issues understandable and accessible to the widest audience. She has produced more than 35 films, winning ove: 75 awards. She al so serves as CNN's EnvironmentEditor and created Earth Matters, CNN's weekly environmental news programme. She is Executive Producer of People Count, a documentary series about people helping to create a better future, and Chairman of the Board of the Captain Planet Foundation, which provides grants fo: hands-on eco projects involving children. En 1997 she was awarded the United Nations Environment Programme's Sasakawa Environment Prize, and in 1998 was named one of the first United Nations Global 500 Laureates for outstanding environmental achievement.

## DRRFFR HARVI (CHNADA)

Dr Peter Hardi is Senior Fellow and Director, Measurement and Indicators, a: the International Institute for Sustainable Development in Winnipeg. Over the past

decade, the main focus of his interest has been sustainable development assessment and decisionmaking, and management of international environmental conflict. The Founding Director of the Regional Environmental Centre fo: Central and Eastern Europe, he was principal author of 'The Hardi Report', which helped stop construction of a highly controversial dam on the Danube in Hungary. Dr Hardi combines *a* comprehensive knowledge of the theoretical and methodological issues of sustainable development with practical field experience in designing and working with decision making tools, such as sustainable development indicators.

#### GRAME BARTY (AUSTRALIA)

A graduate of the Royal Military College of Australia, Grame Barty specialised in communications intelligence and electronic warfare in his 10 years as a

commissioned officer in the Australian Regular Army . He is now Managing Director of HarvestRoad, a highly innovative company publishing web software.

HarvestRoad is a leading provider of software solutions and e-publishing applications for enterprise, education, health and 'smart communities'. Prior to this he held positions with Fujitsu Australia, Nortel Australia and Pacific Star, helping to start up their

telecommunications sales, research and manufacturing operations in Australia.

In October 2000 Grame Barty was elected to the Board a5 the Australian Information Industry Association.

# STEVE ALEXANDER (USA)

A former regional director of the world's largest public relations company, Burson-Marsteller, Steve Alexander has extensive experience in communications strategy,

public affairs and facilitation. His degrees are in the behavioural sciences. He now heads the Steve Alexander Group, a communications consultancy that counts many public sector and environmental agencies among its clients. Steve Alexander has a long history of community and political involvement, including counselling. As a commissioner for San Diego's Park and Recreation Board, he led the development of an awardwinning public outreach effort which built wide-ranging community support fo: a plan to guide future development in the world's largest aquatic park. He has won awards from the American Association of Political Consultants for work on The Naturelands Project and a national highway system

Wear your dancing shoes and come prepared to enjoy the Te Papa 'Our Place' experience. Dress: smart/casual. Cost: \$53.50 +gst "Understanding what is happening in our environment is essential if we are to make good decisions about managing it. People in the community also need to know about the health of our environment, so that they can take or support action to solve problems. This is where good use of information about the environment comes in.

Our challenge is to come up with effective ways to use environmental information to raise awareness and motivate change. This is what Information to Motivation 2001 is all about."

Hon. Marian Hobbs

Minister for the Environment
