Report to the Passenger Transport Committee
By Tony Brennand, Manager Transport Policy

Hutt Corridor Study - Revised Programme

1. Purpose

To report to the Committee a revised programme for the study.

2. Background

The Hutt Corridor Study is the second of a series of corridor studies. A report was presented at the April 2001 meeting indicating that the release of results would be delayed. This was largely due to some technical difficulties and a request that public releases would be delayed until newly elected Councils are established.

The April 2001 report indicated that a revised report would be presented at this meeting.

3. Comment

Members of the technical group have met and revised the study programme. This is shown in the **Attachment**. The key feature is that public release of the findings will occur in November 2001. This will be followed by consultations and submissions.

4. Recommendation

That the report be received.
