

# Attachment 1

## Draft Contents

INTRODUCTION .....	
ENERGY – NEEDS, INFLUENCES AND IMPACTS .....	
Fragile and susceptible .....	
Climate change and all that.....	
The Difference between Weather and Climate .....	
Is climate change real? .....	
The “defining challenge” .....	
Greenhouse gas emissions.....	
More about Fossil Fuels.....	
Carbon footprints .....	
Carbon credits .....	
NEW ZEALAND’S ENERGY STRATEGY .....	
REGIONALISING - AND PERSONALISING - THE ENERGY STRATEGY .....	
Existing Energy Sources and Resources.....	
Electricity .....	
Solar energy .....	
Oil .....	
Gas.....	
Bioenergy .....	
Wood.....	
Landfill gas.....	
Hydro .....	
INCREASING REGIONAL ENERGY PRODUCTION.....	
Wind.....	
Solar.....	
Marine .....	
Hydro .....	
Biogas .....	
Landfill gas.....	
Wood.....	
Biofuels .....	
REDUCING REGIONAL ENERGY DEMAND AND INCREASING EFFICIENCY .....	
Transport.....	
Public transport .....	
Cold homes.....	
Water cylinder insulation.....	
Conserving energy.....	
Electric vehicles (private).....	
Hybrid vehicles .....	
Freight transport options .....	
APPENDIX ONE – A Potted History of New Zealand’s and Greater Wellington’s Energy .....	
APPENDIX TWO - GLOSSARY .....	

APPENDIX THREE – WELLINGTON ENERGY USE .....  
APPENDIX FOUR – USEFUL LINKS, RESOURCES, ETC.....  
*(more to come...)*ACKNOWLEDGEMENTS.....  
ACKNOWLEDGEMENTS.....
