Summary of Decisions Requested: 5.5 Rules – Wetlands and Beds of Lakes and Rivers

Plan Provision	Submitter Name	Submission point number	Support /oppose	Summary of decision requested
5.5.3 Activities in wetlands	NZ Transport Agency	S146/163	Not stated	Add a new rule for existing structures in all wetlands. <u>Existing permitted or otherwise lawfully established structures in any wetland existing at the date of notification of the Proposed Natural Resources Plan, and the use of those structures, is a permitted activity.</u>
5.5.3 Activities in wetlands	Vector Gas Ltd	S145/062	Amend	Add a new rule for existing structures in all wetlands <u>Existing permitted or otherwise lawfully established structures in any wetland existing at the date of notification of the Proposed Natural Resources Plan, and the use of those structures, is a permitted activity.</u>
5.5.3 Activities in wetlands	Michael Cohr	S60/006	Amend	[Decision unclear; refer to original submission for details].
5.5.3 Activities in wetlands	Alan Jefferies	S97/007	Amend	Add a rule (or definition) that explains how one establishes the extent of a 'river bed'.
5.5.3 Activities in wetlands	Alan Jefferies	S97/004	Oppose in part	Re-write the individual rules in a coherent manner.
5.5.3 Activities in wetlands	Porirua Harbour and Catchment Community Trust	S33/038	Support	[Retain section 5.5.3 rules].
5.5.3 Activities in wetlands	Mahaki Holdings LTD	S370/096	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]

5.5.3 Activities in wetlands	Carter Families	S295/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
5.5.3 Activities in wetlands	Kennott Family Trust	S297/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
5.5.3 Activities in wetlands	Julian and Ruth Blackett	S299/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
5.5.3 Activities in wetlands	Bell Camp Trust	S294/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
5.5.3 Activities in wetlands	Land Matters LTD	S285/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
5.5.3 Activities in wetlands	Joan Allin and Rob Crozier	S175/058	Oppose in part	Revise the rules or the definitions to ensure that cutting of river (including) stream mouths is a permitted activity and not restricted by [Rules R104-R111]. Revise the rules to ensure that appropriate hazard mitigation measures are not captured by the rules and ensure that hazard mitigation measures are not non-complying or prohibited activities. Reconsider the wording of the rules to address apparent inconsistencies.
5.5.3 Activities in wetlands	Holcim (New Zealand) Ltd	S276/021	Amend	Allow a restricted discretionary activity for works within rivers/streams associated with regionally significant mineral extraction activities.
5.5.3 Activities in wetlands	Tim Mansell and Family	S351/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
5.5.3 Activities in wetlands	USNZ	S349/076	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]

5.5.3 Activities in wetlands	Coastal Ratepayers United Incorporated	S93/086	Oppose in part	Revise the rules or the definitions to ensure that cutting of river and stream mouths is a permitted activity and not restricted by any of these rules. Revise the rules to ensure that appropriate hazard mitigation measures are not captured by the rules and ensure that hazard mitigation measures are not non-complying or prohibited activities. Reconsider the wording of the rules to address apparent inconsistencies between or within the general conditions and rules.
5.5.2 Wetlands general conditions	NZ Transport Agency	S146/162	Support in part	Amend general conditions:... (d) <u>once operational, new structures are designed and</u> , installed and maintained, and activities are carried out in a manner to ensure that fish passage is maintained at all times, and (<u>e) during construction or maintenance works, fish passage shall not be restricted for a duration longer than necessary to undertake the activity and must not be restricted for a period longer than 12 hours in any 72 hour period; and...</u>
5.5.2 Wetlands general conditions	Minister of Conservation	S75/143	Amend	[Section 5.5.2] Wetland general conditions for activities in natural wetlands, (<u>including significant natural wetlands and outstanding natural wetlands</u>) are that: ... (e) in any part of the natural wetland <u>identified as</u> inanga spawning habitat identified in Schedule F4 (coastal sites) and Schedule F5 (coastal habitats), no bed disturbance, diversions of water or sediment discharge shall occur between <u>1 January 1 March</u> and 31 May, and

5.5.2 Wetlands general conditions	Beef and Lamb NZ	S311/028	Amend	<p>Clarify and amend accordingly if reference to 'natural wetland' is a generic reference to all categories of natural wetland or is specific only to natural wetlands and not to significant natural wetlands and outstanding natural wetlands.</p> <p>(a) there shall be no discharge of contaminants (including but not limited to oil, petrol, diesel, paint, solvents, <u>heavy metals or other toxicants</u>) to water or the bed, other than sediment and other materials inherent to the water or bed, but excluding any discharge of heavy metals or other toxicants, and (b) no cleaning or refuelling ...where fuel can enter a water body <u>natural wetland</u>, and (c) all machinery, equipment and materials used for the <u>any</u> activity shall be removed ..., and any <u>demolition or other material removed or demolished from any structure, and (x) All activities in any natural wetland are undertaken in a manner which prevent pests (both aquatic and terrestrial) being spread to or from a natural wetland, including the inspection of all machinery or equipment used in an natural wetland before and after use to remove any pests, including pest plant fragments.</u></p>
5.5.2 Wetlands general conditions	Fish and Game	S308/112	Amend	<p>5.5.2 Activities in wetlands general conditions Wetlands general conditions Wetland general conditions for activities</p> <p>(a) ... (c) ... removed from the natural wetland every night <u>where practicable</u> and on completion of ... (e) ... between 1 March and 31 May <u>31 April - 31 May</u>, and ...</p> <p>General conditions and standards terms and conditions of activities should be included in the rules to ensure that these provisions are achieved. Consents for activities which breach these provisions should be declined.</p>
5.5.2 Wetlands general conditions	Dairy NZ and Fonterra Co-operative Group Ltd	S316/111	Amend	<p>Amend 5.5.2 (d) as follows: "structures are designed, installed and maintained, and activities are carried out in a manner to ensure that fish passage is maintained at all times. This shall include avoiding any aggradation or scouring of the bed of the river or lake that may inhibit fish passage, and"</p>

5.5.2 Wetlands general conditions	Leo Vollebregt	S372/076	Amend	Amend to ensure activities in constructed wetlands and the construction of wetlands are free from restriction.
5.5.2 Wetlands general conditions	Rangitane o Wairarapa Inc	S279/184	Amend	Provide clarity that the provisions (a) - (g) are intended to apply to natural, significant natural and outstanding natural wetlands and include an additional condition (h) which requires that livestock be prevented from entering any natural, significant natural or outstanding natural wetland.
5.5.2 Wetlands general conditions	Joan Allin and Rob Crozier	S175/057	Amend	Revise (a) so that it does not effectively turn permitted activities into something else by the restrictions on the discharge of contaminants. Reconsider the wording of all of the rules relating to wetlands so there are not inconsistencies between the rules and the general conditions, or with other sections of the PNRP. [See also decision requested in submission point S175/055].
5.5.2 Wetlands general conditions	Porirua City Council	S163/114	Amend	Clarify the wording of condition (a) to specify what contaminants can and cannot be discharged. Or define "contaminants" for the purposes of this Plan. Amend condition (b) to either specifically define locations where fuel storage can occur or provide standards for fuel storage that would enable it to generally occur in most location. Amend condition (d) to provide an exemption for short term cleaning of stormwater intakes. Amend condition (e) to specify Schedule F1b instead of Schedules F4 and F5, and to provide an exemption for essential maintenance and emergency works such as clearing damage and debris after a storm. Review condition (g) in terms of how much disturbance is acceptable, regardless of the activity.
5.5.2 Wetlands general conditions	Federated Farmers of New Zealand	S352/211	Amend	Wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands are that:... [c] all machinery, equipment and materials used for the activity shall be removed from the natural wetland every night and on completion of the activity. This includes any excess material from the construction operation, any materials used during construction of any structure but not part of that structure, and any material removed or demolished from any structure, and [d] structures are designed, installed and maintained, and activities are carried out in a manner to ensure that fish passage is maintained at all times, and

5.5.2 Wetlands general conditions	Tim Mansell and Family	S351/096	Oppose	None stated.
5.5.2 Wetlands general conditions	Royal Forest and Bird Protection Society	S353/140	Support	Retain
5.5.2 Wetlands general conditions	Coastal Ratepayers United Incorporated	S93/086	Amend	Revise (a) so that it does not effectively turn permitted activities into something else by the restrictions on the discharge of contaminants and so that its wording is consistent with the wording of the actual rules or vice versa and consistent with wording to be adopted across the PNRP. Reconsider the wording of all of the rules relating to wetlands to ensure the above and to ensure that there are not inconsistencies between or within the rules and general conditions.
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	James Falloon	S376/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Kapiti Coast District Council	S117/065	Amend	Retain provision, and insert footnote "**see also provisions in the relevant district plan"
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Michael John Slater	S113/025	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	NZ Transport Agency	S146/164	Support in part	Amend Rule 104: is a permitted activity, provided the following conditions are met: (f) only hand-held machinery is used in any area of the natural wetland <u>unless water has been temporarily diverted from the working area</u> , and

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Warren Bryant	S151/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Wellington Electricity Lines Limited	S126/027	Support in part	Add a new rule to account for maintenance, repair, addition or replacement of existing regionally significant infrastructure structures within natural and significant natural wetlands as a Controlled Activity. The new rule should be worded as follows: <u>Rule RXX: Activities in natural wetlands and significant natural wetlands - Controlled activity.</u> <u>Activities for the purpose of maintenance, repair, addition, alteration, or replacement (like for like) of an existing structure, that are not permitted by rules R104 and R105, are controlled activities provided the following condition is met:</u> <u>(a) The activities relate to existing structures that are components of regionally significant infrastructure;</u> <u>(b) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2</u>
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Maypole Environmental Limited	S143/019	Amend	Amend Rule 104 to include structures in Schedule A listed wetlands. Alternatively, Maypole requests that Rule 109 is amended to clarify that it includes bed disturbance and associated sediment discharge [see submission point S143/018].
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Michael Cohr	S60/003	Oppose	[Decision requested unclear; refer to original submission for details].
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Kairoa Farms Limited	S74/004	Oppose	Amend Rule 104(f) to allow the use of machines rather than just hand held machinery.

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Bernie George	S396/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Mike McCreary	S397/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Daniel George	S395/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Sandy Bidwell	S399/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Blair Roberts	S393/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Jeremy Bennill	S389/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Hayden Thurston	S390/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Guy Didsbury	S391/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Pip Wilkinson	S387/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Shane and Geoff Wilkinson	S386/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Gerard Vollebregt	S388/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Alan Westbury	S334/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Andrew Thomson	S336/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Rex McKay	S322/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Pip Tocker	S331/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	DW and PC McKay	S323/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Bob Tosswill	S337/062	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Hiwi Trust	S332/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Charlie Matthews	S320/019	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Tim Williams	S324/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Edward Handyside	S321/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Chris and Steven Price	S339/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	John Carred	S314/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Tony Dowman	S312/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/112	Amend	Amend Rule R104 as follows: "The maintenance, repair, addition... or significant natural wetland, <u>and the erection of fencing to prevent stock access</u> including any associated:..."
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Susannah and Mark Guscott	S317/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Beef and Lamb NZ	S311/029	Not stated	The use of natural wetland as a coverall for other types of wetland needs to be rationalised and made clearer as the introduction to the rule includes two classes of natural wetland.
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Jamie Falloon	S373/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Mahaki Holdings LTD	S370/093	Amend	Amend R104 as follows: "...is a permitted activity, provided the following conditions are met: (e) only hand held machinery is used in any area of the natural wetland, and (f) the activity shall comply...
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Leo Vollebregt	S372/046	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	George Ritchie	S371/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Craig and Janet Morrison	S303/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	A T McKay	S298/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Kennott Family Trust	S297/093	Amend	<p>...(e) discharge of sediment to water is a permitted activity, provided the following conditions are met:</p> <p>(f) only hand-held machinery is used in any area of the natural wetland, and</p> <p>(g) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2...</p>
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Richard Tosswill	S368/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Richard Wilkie	S369/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Margaret Niven	S293/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Andrew Patrick	S292/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Charlotte and Toby McDonald	S289/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Jim, Pascoe and Henry Reynolds	S281/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Robert Kyle	S290/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Rangitane o Wairarapa Inc	S279/185	Amend	Amend the rule to include an exclusion for additions and new structures in sites of significance to tangata whenua and to provide a new rule for these activities to ensure that a resource consent application is required.
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Terawhiti Farming Co.	S288/008	Oppose	Rule 104: allow use of machines rather than just hand held.
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Jan and Jock Richmond	S280/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Alexander Haddon Webster	S274/046	Amend	Allow machinery
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Chris Engel	S170/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	David and Michael Keeling	S169/013	Not stated	All machines should be allowed not just hand held machines.

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Stuart Woodman	S171/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Sustainable Wairarapa Inc	S167/022	Amend	Make provision for machinery to be utilised where there are existing access tracks within both large and small sized wetlands. Can a stop bank be removed under this permitted rule?
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Gary James and Anne Marie Daysh	S342/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	David Hume	S341/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Porirua City Council	S163/115	Amend	Amend subclause (f) to allow some exemptions for local authorities to use some larger machinery for maintenance and repair where necessary. This can be subject to conditions regarding such matters as refuelling, specified timeframes, etc.
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Stewart Weatherstone	S392/046	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Owen Butcher	S394/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Clayton Hartnell	S379/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Willy and Sally Bosch	S380/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Royal Forest and Bird Protection Society	S353/141	Support	Retain
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Graeme Hugh Tulloch	S375/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Michael Taylor	S374/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Max Lutz	S348/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Donald McCreary	S377/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Lewis Herrick	S378/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	A J Barton	S365/075	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Gavin Bruce	S363/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Sandra Shivas	S361/046	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Kyle Wells	S360/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Mike Butterick	S356/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Tim Mansell and Family	S351/097	Oppose	Amend R104: ...is a permitted activity, provided the following conditions are met: (e) only hand held machinery is used in any area of the natural wetland, and (f) the activity...
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Federated Farmers of New Zealand	S352/212	Amend	(f) only hand held machinery is used in any area of the natural wetland, and (g) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2.
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Michael Hewison	S355/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Sam Orsborn	S354/013	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Joe Hintz	S401/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Mike Moran	S400/046	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Transpower NZ Ltd	S165/053	Amend	Amend Rule R104, as follows (or similar): Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity <u>The following activities within a natural wetland or significant natural wetland (including those listed on Schedule F3):</u> <u>(a) maintenance, repair, addition, alteration, or replacement (like for like) of an existing structure, and or</u> <u>(b) the placement of a new structure with a footprint of of an area less than 10m2 for :</u> <u>the purpose of hunting and recreation (including maimai and jetties); or for the purpose of the development, operation, maintenance or upgrade of</u> <u>the National Grid, and or</u> <u>(c) the removal of an existing structure in a natural wetland or significant natural wetland, including any associated..</u> <u>(g) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2. are permitted activities.</u>
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Brian Bosch	S347/046	Oppose	Allow use of machines rather than just hand held

Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Alex Kyle	S345/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Andy Phillips	S343/013	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Dan Riddiford	S350/025	Oppose	Allow use of machines rather than just hand held
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Land Matters LTD	S285/093	Amend	<p>The maintenance, repair, addition, alteration, or replacement (like for like) of an existing structure, and the placement of a new structure of an area less than 10m2 for the purpose of hunting and recreation (including maimai and jetties), and the removal of an existing structure in a natural wetland or significant natural wetland, including any associated:</p> <p>...(e) discharge of sediment to water is a permitted activity, provided the following conditions are met:</p> <p>... (f) only hand held machinery is used in any area of the natural wetland, and ...</p>
Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Bell Camp Trust	S294/093	Amend	(f) only hand held machinery is used in any area of the natural wetland, and

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	James Falloon	S376/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Michael John Slater	S113/021	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Kapiti Coast District Council	S117/066	Amend	Retain provision, and insert footnote ""see also provisions in the relevant district plan"
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Environmental Defence Society Incorporated	S110/013	Support	Retain

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	NZ Transport Agency	S146/165	Support	Retain
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Warren Bryant	S151/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Waa Rata Estate	S152/079	Amend	Amend the subclause (j) to read 'only hand-held machinery is used in any area of significant natural wetland, or outstanding natural wetland'. Or alternatively delete the subclause (j) 'only hand-held machinery is used in any area of the wetland...'
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Java Trust Limited	S120/017	Oppose	Delete Rule R105. Amend all related provisions accordingly. All incidental and consequential amendments.

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Michael Cohr	S60/004	Oppose	[Allow] duck ponds [to be] planted with some agreed trees species that support good hunting.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Kairoa Farms Limited	S74/005	Oppose	Amend Rule R105 to allow for planting introduced species for bees or ducks.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Minister of Conservation	S75/144	Amend	Amend as follows or similar wording; ...is a permitted activity provided the following conditions are met: (f) only appropriate indigenous wetland species <u>appropriate to the ecology of the wetland</u> are deliberately introduced or planted, and (g) only appropriate pest plant species are deliberately removed or controlled, and (h) <u>agricultural use is in accordance with the requirements of Rule R36 or R37, only</u> only <u>agricultural</u> approved by the Environmental Protection Authority are used, and (i) agricultural are not applied by aerial spraying, and
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Mike McCreary	S397/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Daniel George	S395/041	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Bernie George	S396/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Sandy Bidwell	S399/041	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Jeremy Bennill	S389/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Guy Didsbury	S391/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Hayden Thurston	S390/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Gerard Vollebregt	S388/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Pip Wilkinson	S387/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Shane and Geoff Wilkinson	S386/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Alan Westbury	S334/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Andrew Thomson	S336/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Rex McKay	S322/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Pip Tocker	S331/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	DW and PC McKay	S323/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Chris and Steven Price	S339/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Charlie Matthews	S320/015	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Hiwi Trust	S332/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Tim Williams	S324/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Edward Handyside	S321/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Bob Tosswill	S337/058	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	John Carred	S314/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Horticulture NZ	S307/073	Amend	Amend Rule R 105 by adding after 'pest plants' 'or unwanted organisms'. Amend Condition g) only appropriate pest plants as identified in the Regional Pest Management Strategy or unwanted organisms as declared by MPI Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993 are deliberately removed or controlled.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Tony Dowman	S312/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Susannah and Mark Guscott	S317/041	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Beef and Lamb NZ	S311/030	Amend	Amend Rules R105 - R110 to include provision for the control of aquatic pest plants and aquatic pest animals by GWRC, including provision for the use of boats or other vessels in all categories of natural wetlands. Enable, through amendment of an appropriate rule, the introduction of non-native species for the purposes of bio-control of pest plants or pest animals in all categories of natural wetland, by GWRC or its agents. <u>(x) All activities in any wetland are undertaken so as to prevent prevent pests either aquatic or terrestrial from being spread to or from a wetland.</u>
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Leo Vollebregt	S372/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Jamie Falloon	S373/044	Amend	Promote use of wetlands for nutrient management. Allow enhancement of water area for other biodiversity benefits.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	George Ritchie	S371/041	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Mahaki Holdings LTD	S370/094	Amend	Amend R105 as follows: "(h) only agrichemicals approved by the Environmental Protection Authority are used, and (i) agrichemicals are not applied by aerial spraying, and (j) only hand held machinery is used in any area of the wetland, and (k) the activity shall comply..."
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Jamie Falloon	S373/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Craig and Janet Morrison	S303/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	A T McKay	S298/009	Oppose	Allow for planting introduced species for bees or ducks

<p>Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity</p>	<p>Kennott Family Trust</p>	<p>S297/094</p>	<p>Amend</p>	<p>...(f) only appropriate indigenous wetland species are deliberately introduced or planted, and</p> <p>(g) only appropriate pest plant species are deliberately removed or controlled, and</p> <p>(h) only agrichemicals approved by the Environmental Protection Authority are used, and</p> <p>(i) agrichemicals are not applied by aerial spraying, and</p> <p>(j) only hand held machinery is used in any area of the wetland, and</p> <p>(k) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2...</p>
<p>Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity</p>	<p>Richard Tosswill</p>	<p>S368/009</p>	<p>Oppose</p>	<p>Allow for planting introduced species for bees or ducks</p>
<p>Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity</p>	<p>Richard Wilkie</p>	<p>S369/009</p>	<p>Oppose</p>	<p>Allow for planting introduced species for bees or ducks</p>

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Bell Camp Trust	S294/094	Amend	(i) agrichemicals are not applied by aerial spraying, and (j) only hand-held machinery is used in any area of the wetland, and
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Andrew Patrick	S292/041	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Margaret Niven	S293/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Charlotte and Toby McDonald	S289/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Jim, Pascoe and Henry Reynolds	S281/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Land Matters LTD	S285/094	Amend	<p>The deliberate introduction or planting of a plant, and the removal or control of pest plants in the bed of a natural wetland, significant natural wetland, or outstanding natural wetland including any associated:...</p> <p>(h) only agrichemicals approved by the Environmental Protection Authority are used, and</p> <p>(i) agrichemicals are not applied by aerial spraying, and</p> <p>(j) only hand-held machinery is used in any area of the wetland, and</p> <p>(k) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2....</p>
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Robert Kyle	S290/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Terawhiti Farming Co.	S288/009	Oppose	Rule 105: allow for planting introduced species for bees and ducks.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Jan and Jock Richmond	S280/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Rangitane o Wairarapa Inc	S279/186	Support	Retain as notified
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Stuart Woodman	S171/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Sustainable Wairarapa Inc	S167/023	Amend	Allow the use of machinery on large scale planting jobs.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Chris Engel	S170/041	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	David and Michael Keeling	S169/014	Not stated	Fencing of wetlands needs to be permitted activity standard. Further, we are unsure why there is a limitation on the use of indigenous wetland species. At times, introduced species can be useful for the creation of an environment that attracts ducks and bees.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Gary James and Anne Marie Daysh	S342/042	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	David Hume	S341/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Porirua City Council	S163/116	Amend	Review the rule against the tests for permitted activities and amend to provide more certainty regarding the types of appropriate plant species to be introduced, removed or controlled.
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Stewart Weatherstone	S392/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Owen Butcher	S394/041	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Tim Mansell and Family	S351/098	Oppose	Amend R105: (h) only agrichemicals approved by the Environmental Protection Authority are used, and (i) agrichemicals are not applied by aerial spraying, and (j) only hand held machinery is used in any area of the wetland and (k) the activity shall comply...

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Michael Hewison	S355/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Sam Orsborn	S354/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Mike Moran	S400/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Joe Hintz	S401/009	Oppose	Allow for planting introduced species for bees or ducks

Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Brian Bosch	S347/042	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Alex Kyle	S345/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Andy Phillips	S343/009	Oppose	Allow for planting introduced species for bees or ducks
Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Dan Riddiford	S350/021	Oppose	Allow for planting introduced species for bees or ducks

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	James Falloon	S376/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Kapiti Coast District Council	S117/067	Amend	Retain provision, and insert footnote "***see also provisions in the relevant district plan"
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Michael John Slater	S113/022	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Environmental Defence Society Incorporated	S110/014	Support in part	Amend Rule R106: Delete matter of control 7. Stock should not be allowed in wetland areas.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Waa Rata Estate	S152/080	Amend	Remove requirement for the restoration management plan to be approved by Council and allow other parties to endorse the plans such as Queen Elizabeth II Trust, Department of Conservation, Iwi authorities of the rohe (if they wish), suitably qualified Ecologists, relevant district councils, or other relevant parties.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Warren Bryant	S151/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	NZ Transport Agency	S146/166	Support in part	Clarify the meaning of Rule 106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity Activities for the purpose of restoring the indigenous biodiversity of a natural wetland, significant natural wetland or outstanding natural wetland identified in Schedule A3 (outstanding wetlands), that are not permitted by rules R104 and R105, are controlled activities provided the following condition is met: (a) the activities are stipulated in and carried out in accordance with an approved restoration management plan. <u>Note: for the purposes of this rule, restoration means the maintenance, repair or removal existing structures, the introduction of appropriate indigenous plants, the removal of pest plants and / or the re-introduction of water.</u>
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Maypole Environmental Limited	S143/017	Amend	Amend the Plan to clarify that a range of activities could be included in a Wetland Restoration Management Plan and particularly structures associated with education and public access (e.g. board-walks).
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Minister of Conservation	S75/145	Support	Retain as notified.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Kairoa Farms Limited	S74/006	Oppose	Amend Rule R106 to provide for restoration or enhancement of wetlands as a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Bernie George	S396/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Daniel George	S395/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Sandy Bidwell	S399/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Mike McCreary	S397/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Kapiti Coast Airport Holdings Limited	S99/012	Amend	New Rule R106a with appropriate matters of control in Section 5.5 as follows: <u>' Rule R106a: Activities of regionally significant infrastructure outside sites of significance - controlled</u> <u>Activities of regionally significant infrastructure located outside any outstanding natural wetland identified in Schedule A3 ('Wetlands with outstanding indigenous biodiversity values') or any significant natural wetland identified by Schedule F3 ('Identified significant wetlands') is a controlled activity.'</u>
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Kapiti Coast Airport Holdings Limited	S99/014	Amend	Amend the activity table at the start of Section 5.5 'Wetlands and beds of lakes and rivers' by inserting a new row as follows [see also S99/012]: Rules - Wetlands and beds of lakes and rivers <u>Rule R106a: Activities of regionally significant infrastructure outside sites of significance - Controlled activity</u>
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Jeremy Bennill	S389/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Blair Roberts	S393/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Hayden Thurston	S390/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Guy Didsbury	S391/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Gerard Vollebregt	S388/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Pip Wilkinson	S387/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Shane and Geoff Wilkinson	S386/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	DW and PC McKay	S323/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Pip Tocker	S331/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Charlie Matthews	S320/016	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Alan Westbury	S334/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Edward Handyside	S321/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Andrew Thomson	S336/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Hiwi Trust	S332/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Rex McKay	S322/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Bob Tosswill	S337/059	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Chris and Steven Price	S339/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Tim Williams	S324/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	John Carred	S314/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Tony Dowman	S312/010	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Beef and Lamb NZ	S311/031	Amend	[See submission point 311/030]
Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Susannah and Mark Guscott	S317/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Leo Vollebregt	S372/043	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Alex Kyle	S345/012	Oppose	Allow diversion of water as part of a restoration plan.
Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Andy Phillips	S343/012	Oppose	Allow diversion of water as part of a restoration plan.

Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Tim Mansell and Family	S351/101	Oppose	[Not stated]
Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Dan Riddiford	S350/024	Oppose	Allow diversion of water as part of a restoration plan.
Rule R109: Activities in outstanding natural wetlands - discretionary activity	NZ Transport Agency	S146/169	Support in part	Amend Rule 109 The following activities in an outstanding natural wetland identified in Schedule A3 (outstanding wetlands), except those stipulated in and carried out in accordance with a restoration management plan under Rule R106: (a) the maintenance, repair or replacement (like for like) of existing structures, (b) the placement of new structures of an area less than 10m2 for the purpose of hunting and recreation (including maimai and jetties) <u>(c) activities associated with the operation, maintenance, upgrade or development of regionally significant infrastructure, including reclamation and the discharge of stormwater,</u> (d) the removal of existing structures, (e) removal of pest plants that are not permitted by Rule R105 are discretionary activities.
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Vector Gas Ltd	S145/064	Support	Retain Rule 109
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Maypole Environmental Limited	S143/018	Amend	Amend plan so that Rule 109 is deleted and Rule 104 is amended to include structures in Schedule A listed wetlands. Alternatively, Maypole requests that Rule 109 is amended to clarify that it includes bed disturbance and associated sediment discharge.

Rule R109: Activities in outstanding natural wetlands - discretionary activity	Kapiti Coast District Council	S117/070	Amend	Retain provision, and insert footnote "**see also provisions in the relevant district plan"
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Linda Katherine Dale and Melis Leonard van de Werken	S92/003	Amend	Either 1/ Amend the area included in Schedule A3 under the title of Pauatahanui Tidal Flats [See submission point S92/001] OR 2/ Remove the words 'Maintenance, Repair' from Rule 109 (a)
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Minister of Conservation	S75/148	Support	Retain as notified
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Beef and Lamb NZ	S311/034	Amend	[See submission point S311/03]
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Kennott Family Trust	S297/098	Oppose	[Not stated]
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Land Matters LTD	S285/099	Oppose	[Not stated]

Rule R109: Activities in outstanding natural wetlands - discretionary activity	Bell Camp Trust	S294/098	Oppose	[Not stated]
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Rangitane o Wairarapa Inc	S279/190	Support	Retain as notified
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Ian Jensen	S176/013	Not stated	Change 'Discretionary' to 'Restricted Discretionary' status.
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Sustainable Wairarapa Inc	S167/027	Amend	Transitional arrangement plus the use of waiving resource consent fees to encourage restoration of wetlands.
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Porirua City Council	S163/118	Amend	Clarify whether structures like erosion protection for walkways are included within the scope of "a structure for the purpose of recreation". Review this and related rules to prove interpretation and practical application regarding multiple rules for the same activity. Define "maintenance", particularly in terms of whether this extends to including any form of upgrade in relation to this rule
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Federated Farmers of New Zealand	S352/217	Oppose	Delete

Rule R109: Activities in outstanding natural wetlands - discretionary activity	Tim Mansell and Family	S351/102	Oppose	[Not stated]
Rule R109: Activities in outstanding natural wetlands - discretionary activity	Transpower NZ Ltd	S165/055	Amend	(b) the placement of new structures <u>with a footprint of an area less than 10m2 for the purpose of hunting and recreation (including maimai and jetties), or for the purpose of the development, operation, maintenance or upgrade of the National Grid.</u>
Rule R110: Activities in outstanding natural wetlands - non-complying activity	Kapiti Coast District Council	S117/071	Amend	Retain provision, and insert footnote "***see also provisions in the relevant district plan"
Rule R110: Activities in outstanding natural wetlands - non-complying activity	NZ Transport Agency	S146/170	Oppose	The following activities, in an outstanding natural wetland identified in Schedule A3 (outstanding wetlands), except for those stipulated in and carried out in accordance with a restoration management plan under Rule R106 <u>or enabled as a discretionary activity under Rule 109:</u> (a) the discharge of water or contaminants <u>other than stormwater...</u> (c) the placement of new structures with an area 10m2 or greater for the purpose of hunting and recreation (including maimai and jetties), and all other structures, ...
Rule R110: Activities in outstanding natural wetlands - non-complying activity	Maypole Environmental Limited	S143/030	Amend	No amendment sought for R110, but associated amendment sought for Rule 99 to clarify that it takes precedence over other rules for earthworks activities, making stormwater discharges to Te Harakeke Wetland associated with earthworks a permitted activity where the water quality standards in Rule 99(d) are met. Where these standards aren't met, discharges would rather be assessed under Rule 101 as a discretionary activity.

Rule R110: Activities in outstanding natural wetlands - non-complying activity	Maypole Environmental Limited	S143/020	Amend	Maypole requests: - the requirement for non-complying resource consents for structures larger than 10m2 be down-graded to discretionary, restricted discretionary or controlled for structures associated with education and public access (e.g. board-walks), if not associated with wetland restoration; and - an amendment clarifying that Rule 110 does not cover stormwater discharges that are provided for under Rules 48-53 and that stormwater water discharges to Schedule A wetlands will therefore be assessed as discretionary activities under these rules.
Rule R110: Activities in outstanding natural wetlands - non-complying activity	Environmental Defence Society Incorporated	S110/016	Amend	Retain
Rule R110: Activities in outstanding natural wetlands - non-complying activity	Minister of Conservation	S75/149	Support	Retain as notified

Rule R111: Reclamation of outstanding natural wetlands - prohibited activity	Sustainable Wairarapa Inc	S167/029	Amend	Transitional arrangement plus the use of waiving resource consent fees to encourage restoration of wetlands.

Rule R111: Reclamation of outstanding natural wetlands - prohibited activity	Sustainable Wairarapa Inc	S167/021	Amend	Make provision for machinery to be parked on elevated ground within the wetland overnight. Accepted that this could be worked into a restoration and management plan.
Rule R111: Reclamation of outstanding natural wetlands - prohibited activity	Porirua City Council	S163/119	Amend	Delete this rule and include reclamation as a non-complying activity under rule R110.
Rule R111: Reclamation of outstanding natural wetlands - prohibited activity	Federated Farmers of New Zealand	S352/219	Oppose	Delete
Rule R111: Reclamation of outstanding natural wetlands - prohibited activity	Tim Mansell and Family	S351/104	Oppose	[Not stated]
Rule R111: Reclamation of outstanding natural wetlands - prohibited activity	Royal Forest and Bird Protection Society	S353/147	Support in part	Amend Rule 111 as follows: Rule 111 - Diversion of outstanding natural wetlands Reclamation, which involves activities which change the characteristics of the wetland or part of it within an outstanding natural wetland in Schedule 3 is a prohibited activity unless stipulated and carried out in accordance with a restoration management plan under Rule 106 is a prohibited activity.
5.5.4 Beds of lakes and rivers general conditions	PF Olsen Limited	S131/010	Amend	Recommend that extracting logs via cable hauling across streams/rivers including associated stream bed disturbance is a permitted activity on the provision all conditions under Rule 102 are met.
5.5.4 Beds of lakes and rivers general conditions	Carrus Limited	S122/004	Support	Retain general conditions for beds of lakes and rivers 5.5.4.

5.5.4 Beds of lakes and rivers general conditions	NZ Transport Agency	S146/172	Support in part	Amend the 5.5.4 general conditions Beds of lakes and rivers general conditions for activities in the beds of lakes and rivers that apply as specified in Rules R112 to R125: ... (d) <u>Once constructed, structures are designed and, installed and maintained, and activities are carried out</u> in a manner to ensure that fish passage is maintained at all times.... and <u>(x) during construction or maintenance works, fish passage shall not be restricted for a duration longer than necessary to undertake the activity and must not be restricted for a period longer than 12 hours in any 72hour period; and . . .</u> (i) all reasonable steps shall be taken to minimise the duration of the diversion of water, and any diversion of water required to undertake the activity shall: ... (ii) must be contained within the bed of the river, and ...
5.5.4 Beds of lakes and rivers general conditions	NZ Transport Agency	S146/173	Not stated	Add a new rule for existing structures in all rivers and lakes <u>Existing permitted or otherwise lawfully established structures in any river or lake existing at the date of notification of the Proposed Natural Resources Plan, and the use of those structures, is a permitted activity.</u>
5.5.4 Beds of lakes and rivers general conditions	Egon Guttke	S14/036	Amend	Amend section 5.5.4, beds of lakes and rivers general conditions (e) and (f) to allow for emergency maintenance and repair work as permitted activities at all times of year.
5.5.4 Beds of lakes and rivers general conditions	Wellington Water Limited	S135/226	Amend	The majority of network-related maintenance activities in the beds of streams and rivers be permitted activities with conditions appropriate to the temporary nature of works and scale of environmental effects.
5.5.4 Beds of lakes and rivers general conditions	Wellington Water Limited	S135/160	Amend	No change to general conditions a, b, c, l, j. (d) Change to allow for short term stormwater networks maintenance activities to be permitted. (e) & (f) Specify exclusion for storm debris clearance work in the stormwater network. Condition (k) - extend the condition to include removal of flood debris against the stormwater intake structure and immediately upstream of it.

5.5.4 Beds of lakes and rivers general conditions	Kiwi Rail Holdings Limited	S140/060	Support in part	(d) structures are designed, installed and maintained, and activities are carried out in a manner to ensure that fish passage is maintained <u>where available at the time of the works at all times</u> . This shall include avoiding any aggradation or scouring of the bed of the river or lake that may inhibit fish passage, and <u>(n) fish passage, where available at the time of construction, shall only be restricted for construction related reasons for a maximum of 4hrs, per day and</u> ... (i) all reasonable steps shall be taken to minimise the duration of the diversion of water, and any diversion of water required to undertake the activity shall: (i) only be temporary and for a period no longer than that required to complete the activity, and (ii) must be contained within the bed of the river, and
5.5.4 Beds of lakes and rivers general conditions	Southern North Island Wood Council	S100/007	Amend	In Section 5.5.4 we recommended that extracting logs via cable hauling across streams/rivers including associated stream bed disturbance is a permitted activity on the provision all conditions under Rule 102 are met.
5.5.4 Beds of lakes and rivers general conditions	Cuttriss Consultants Limited	S104/007	Support	Retain Section 5.5.4.
5.5.4 Beds of lakes and rivers general conditions	Minister of Conservation	S75/151	Amend	(e) in any part of the river bed <u>identified as</u> inanga spawning habitat identified in Schedule F4 (coastal sites) and Schedule F5 (coastal habitats), no bed disturbance, diversions of water or sediment discharge shall occur between <u>1 January 1 March</u> and 31 May, and
5.5.4 Beds of lakes and rivers general conditions	Porirua Harbour and Catchment Community Trust	S33/039	Support	[Retain section 5.5.4 rules]
5.5.4 Beds of lakes and rivers general conditions	Fish and Game	S308/117	Support	Retain clauses (e) and (f) as notified

5.5.4 Beds of lakes and rivers general conditions	Dairy NZ and Fonterra Co-operative Group Ltd	S316/115	Amend	Amend 5.5.4 (d) as follows: "structures are designed, installed and maintained, and ...
5.5.4 Beds of lakes and rivers general conditions	Rangitane o Wairarapa Inc	S279/193	Support	Retain conditions as notified
5.5.4 Beds of lakes and rivers general conditions	Joan Allin and Rob Crozier	S175/059	Amend	Revise general conditions and relevant rules to address the concerns expressed [See original submission S175 p42-44 for details].
5.5.4 Beds of lakes and rivers general conditions	Forest Enterprises Growth Ltd	S275/010	Not stated	We recommended that extracting logs via cable hauling across streams/rivers including associated stream bed disturbance is a permitted activity on the provision all conditions under Rule 102 are met.
5.5.4 Beds of lakes and rivers general conditions	Porirua City Council	S163/120	Amend	Clarify the wording of condition (a) to specify what contaminants can and cannot be discharged. Or define "contaminant" for the purposes of this Plan. Amend condition (b) to either specifically define locations where fuel storage can occur or provide standards for fuel storage that would enable it to generally occur in most location. Amend condition (d) to provide an exemption for short term cleaning of stormwater pipes. Amend condition (e) to specify that it is Schedule Fib that applies, and to provide an exemption for essential maintenance and emergency works such as clearing damage and debris after a storm. Clarify what, if any, minor disturbance is acceptable, such as tractor crossing a stream to gain access for mowing. Review condition (m) in terms of how much disturbance is acceptable, regardless of the activity.
5.5.4 Beds of lakes and rivers general conditions	Federated Farmers of New Zealand	S352/220	Support in part	General conditions for activities in the beds of lakes and rivers that apply as specified in Rules R112 to R125 <u>except in the case of emergency maintenance and repairs:</u>
5.5.4 Beds of lakes and rivers general conditions	Royal Forest and Bird Protection Society	S353/148	Support	Retain [general conditions 5.5.4 - NB submission refers to 5.5.2, page 32]

5.5.4 Beds of lakes and rivers general conditions	Transpower NZ Ltd	S165/057	Amend	Amend condition 5.5.4(e) as follows (or similar): (e) <u>Except for emergency works in streams/rivers that are necessary for the ongoing use, operation or maintenance of the National Grid, in any part of the river bed identified as inanga spawning habitat...</u>
5.5.5 Activities in beds of lakes and rivers	Vector Gas Ltd	S145/065	Not stated	Add a new rule for existing structures in all rivers and lakes: <u>Existing permitted or otherwise lawfully established structures in any river or lake existing at the date of notification of the Proposed Natural Resources Plan, and the use of those structures, is a permitted activity.</u>
5.5.5 Activities in beds of lakes and rivers	Egon Guttke	S14/035	Amend	Amend Rules R112-R124 to allow for emergency maintenance and repair work as permitted activities.
5.5.5 Activities in beds of lakes and rivers	Egon Guttke	S14/004	Amend	Enable works in beds of rivers and streams for emergency and health and safety purposes as a permitted activities.
5.5.5 Activities in beds of lakes and rivers	GBC Winstone	S66/024	Amend	Add a new rule in Section 5.5 for riverbed gravel extraction for flood protection purposes which is similar to rule R201.
5.5.5 Activities in beds of lakes and rivers	Juken New Zealand Limited	S77/003	Amend	Include a rule in section 5.5.5 allowing slash deposition in water bodies with parameters around the effects at which a resource consent would be required
5.5.5 Activities in beds of lakes and rivers	Beef and Lamb NZ	S311/036	Amend	Amend appropriate rules in section 5.5.4 - Activities in beds of lakes and rivers in the same way as requested for natural wetlands, for the control of pest plants e.g. hornwort or Manchurian wild rice and pest animals by GWRC or their agents, without the need for a resource consent.

5.5.5 Activities in beds of lakes and rivers	Fish and Game	S308/116	Amend	Insert a new rule for flood and river management activities undertaken by the Regional Council which includes requirements to operate under a code of practice for river management which establishes best management practices and which requires that activities maintain or improve natural character and recognise and provide for trout habitat, recreational values, and indigenous fish values.
5.5.5 Activities in beds of lakes and rivers	Coastal Ratepayers United Incorporated	S93/086	Amend	Where an activity may be occurring in the bed of a river (including a stream) and in the coastal marine area for example, river (including stream) mouth cutting or beach recontouring or any other such activity, make the rules governing such activities, including any relevant definitions, appropriate and consistent both in the coastal marine area and in the bed of the river.
5.5.5 Activities in beds of lakes and rivers	Coastal Ratepayers United Incorporated	S93/086	Amend	[See decision requested for submission point S93/070]. Revise general condition (a) in section 5.5.4 and relevant rules to address the problems discussed.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Greater Wellington Regional Council	S133/014	Amend	Amend condition (g) so that (i) and (ii) are both as at the date of public notification of the proposed plan.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Wellington Electricity Lines Limited	S126/028	Support	Support Rule R112 and seek it is retained, unaltered.

Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Woodridge Homes Limited	S105/007	Amend	Reconsider and clarify the wording of R 112 to make the extension of cables ducts and pipes a permitted activity. This could include deleting the words "excluding any cable, pipe or duct" from permitted activity condition (g). Alternatively the wording could be amended to read "excluding any <u>overhead</u> cable, pipe or duct" to better align it with R28 of the RFP.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Best Farm Limited, Hunters Hill Limited and Stebbings Farmlands Limited	S149/008	Amend	Clarify meaning of 'cable, pipe and duct' in R112(g).
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	NZ Transport Agency	S146/174	Support	Retain
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Vector Gas Ltd	S145/066	Amend	Amend Rule 112: The maintenance, repair, ... (a) ... (f) the resulting structure is contained within the form of the existing structure, <u>excluding any cable, pipe or duct</u> , or (g) ...

Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Chorus New Zealand Limited	S144/026	Amend	Amend Rule R112 as follows: The maintenance, repair, replacement, upgrade or use of a structure or a part of a structure (excluding the Barrage Gates and Telecommunications Lines) that is fixed in, on, under, or over the bed of a river or lake, including any associated: <u>Note, while Telecommunication Lines are expressly excluded from the provisions of Rule R112, their maintenance, repair, replacement, upgrade or use are subject to compliance with the general conditions in section 5.5.4.</u>
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Kiwi Rail Holdings Limited	S140/061	Support	Retain
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Kiwi Rail Holdings Limited	S140/062	Support	Retain
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Cuttriss Consultants Limited	S104/008	Support in part	Amend Rule R112: Insert a rule allowing for activities that cannot meet one or two of the PA standards to be considered C or RD activity with control or discretion being retained over the standard(s) not met.

Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Wellington Water Limited	S135/161	Amend	Do not use % descriptor or clarify its use. Increase the projection dimensions to allow for reasonable protection by rip-rap. Allow for preventative maintenance procedures such as the use of gabion baskets. Include 'damming of water' in the list of associated activities that are permitted. Allow for temporary damming for conducting maintenance and operational work on infrastructure.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/038	Amend	Include 'damming of water' in the list of associated activities that are authorised by the rule. Simplify permitted activity condition (g) of Rule R112 to make it easier to assess proposals against
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/040	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	The Oil Companies	S55/056	Support	Retain Rule 112 without further modification.

Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Spark New Zealand Trading Limited	S98/025	Oppose in part	Amend R112: The maintenance, repair, replacement, upgrade or use of a structure or a part of a structure (excluding the Barrage Gates <u>and Telecommunications Lines</u>) that is fixed in...associated: (a).. ... <u>(ii)...</u> <u>Note, while Telecommunication Lines are expressly excluded from the provisions of Rule R112, their maintenance, repair, replacement, upgrade or use are subject to compliance with the general conditions in sections 5.5.4.</u>
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/116	Support	Retain Rule R112.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Fish and Game	S308/118	Support	Retain as notified
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Rangitane o Wairarapa Inc	S279/194	Support	Retain the rule as notified

Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Wellington City Council	S286/050	Amend	Clarify whether temporary stream damming and diversion required for instream structure works (Rules 112- 118) are covered by the rules (i.e. included in 'associated' works); If the temporary damming or diversion of water is not included, make it a permitted activity subject to appropriate conditions.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Powerco	S29/045	Support	Retain Rule R112 without further modification.
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Spencer Holmes Limited	S273/006	Amend	Clarify rule application to overhead structures. Retain (g)(i) and (g) (ii)
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Porirua City Council	S163/121	Amend	Amend to read as follows: "...(excluding the Barrage Gates located at ...)..."
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Federated Farmers of New Zealand	S352/221	Support in part	The maintenance, ... is a permitted activity, provided the following conditions are met <u>except in the case of emergency maintenance and repairs</u>

Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Royal Forest and Bird Protection Society	S353/149	Support	Retain
Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Transpower NZ Ltd	S165/058	Amend	(e) the activity shall comply with the beds of lakes and rivers general conditions specified above in Section 5.5.4 <u>except condition (l) (not altering the natural course of the river)</u> , and
Rule R113: Diversion of flood water by existing structures - permitted activity	Wellington Water Limited	S135/162	Amend	Do not use % descriptor or clarify its use. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R113: Diversion of flood water by existing structures - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/041	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R113: Diversion of flood water by existing structures - permitted activity	Fish and Game	S308/119	Support	Retain as notified

Rule R113: Diversion of flood water by existing structures - permitted activity	Masterton District Council	S367/118	Oppose	Confirm that the permitted activity applies to diversion of flood waters by a road structure; and include a new permitted activity standard following R113(a), which reads as follows: <u>or</u> <u>(b) where the structure is Regionally Significant Infrastructure or a local authority road, the structure may be increased in size or realigned and/or relocated where that increase shall not exacerbate the risk or potential effects of flooding on any neighbouring property</u>
Rule R113: Diversion of flood water by existing structures - permitted activity	Rangitane o Wairarapa Inc	S279/195	Support	[Not stated]
Rule R113: Diversion of flood water by existing structures - permitted activity	Federated Farmers of New Zealand	S352/222	Support	Retain
Rule R113: Diversion of flood water by existing structures - permitted activity	South Wairarapa District Council	S366/118	Oppose	Confirm that the permitted activity applies to diversion of flood waters by a road structure; and include a new permitted activity standard following R113(a), which reads as follows: <u>" or</u> <u>(b) where the structure is Regionally Significant Infrastructure or a local authority road, the structure may be increased in size or realigned and/or relocated where that increase shall not exacerbate the risk or potential effects of flooding on any neighbouring property"</u>
Rule R113: Diversion of flood water by existing structures - permitted activity	Royal Forest and Bird Protection Society	S353/150	Support	Retain

Rule R114: River crossing structures - permitted activity	James Falloon	S376/046	Amend	[Make the] definition of replacing or repair and maintenance on an existing bridge easy and suitable to help waterways.
Rule R114: River crossing structures - permitted activity	Graeme Hugh Tulloch	S375/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Wellington Water Limited	S135/163	Amend	Allow for "The damming and diversion of water by a structure that was existing and lawful on the date of notification of this Plan as a Permitted Activity" or similar. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R114: River crossing structures - permitted activity	NZ Transport Agency	S146/175	Support in part	Amend Rule 114 The placement <u>or construction</u> or use of a river crossing structure, including, but not limited to, weirs, fords and small bridges, excluding culverts and a river crossing that dams a river, that is fixed in, on, under, or over the bed of a river including any associated:
Rule R114: River crossing structures - permitted activity	Warren Bryant	S151/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Egon Guttke	S14/038	Amend	Delete R114(f) or, as a minimum, have a uniform 200ha catchment limit. Alternatively, enable landowners to establish small river crossings with a minimum of regulation.

Rule R114: River crossing structures - permitted activity	Egon Guttke	S14/037	Amend	Remove the words "or use" from Rule R114.
Rule R114: River crossing structures - permitted activity	Michael John Slater	S113/046	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/042	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R114: River crossing structures - permitted activity	The Oil Companies	S55/057	Support	Retain Rule 114 without further modification.
Rule R114: River crossing structures - permitted activity	Kairoa Farms Limited	S74/035	Oppose	Amend R114 to change the 50ha catchment restriction to 200ha, or clarify rationale for the difference.
Rule R114: River crossing structures - permitted activity	Kairoa Farms Limited	S74/036	Oppose	Increase the size for fords and bridges permitted by R114.
Rule R114: River crossing structures - permitted activity	New Zealand Defence Force	S81/033	Amend	Amend R114 to clarify how a "small bridge" is defined. Provide for temporary structures in river beds, for consistency with other regional plans across the country.

Rule R114: River crossing structures - permitted activity	Sandy Bidwell	S399/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Bernie George	S396/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Mike McCreary	S397/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Stewart Weatherstone	S392/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Guy Didsbury	S391/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Hayden Thurston	S390/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Jeremy Bennill	S389/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Pip Wilkinson	S387/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Shane and Geoff Wilkinson	S386/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Gerard Vollebregt	S388/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Susannah and Mark Guscott	S317/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Chris and Steven Price	S339/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Hiwi Trust	S332/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	DW and PC McKay	S323/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Pip Tocker	S331/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Alan Westbury	S334/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Edward Handyside	S321/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Charlie Matthews	S320/040	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Andrew Thomson	S336/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Rex McKay	S322/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Bob Tosswill	S337/083	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Tim Williams	S324/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Fish and Game	S308/113	Oppose	Amend the rules so that the natural character of rivers, lakes, and wetlands and their beds is protected [according to list of principles in original submission p66].
Rule R114: River crossing structures - permitted activity	Beef and Lamb NZ	S311/037	Amend	Amend as: (f) (ii) 50ha <u>200ha</u> in any catchment in the region on the western side of the Ruamahanga river, and g) the formed crossing shall be no wider than what is required for the purpose of the crossing and the total area of the structure in or on the bed of the river shall not exceed 20m2 <u>100m2</u> , and ...

Rule R114: River crossing structures - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/117	Amend	Delete subclause (f) of Rule R114. Amend subclause (h) to read: "the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on new structures.</u> "
Rule R114: River crossing structures - permitted activity	Tony Dowman	S312/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	John Carred	S314/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Jamie Falloon	S373/050	Amend	Increase size for bridges to 50m2. Permit 100m2 fords where a bridge would be cost prohibitive.
Rule R114: River crossing structures - permitted activity	Leo Vollebregt	S372/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	George Ritchie	S371/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Jamie Falloon	S373/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Richard Wilkie	S369/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	A T McKay	S298/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Carter Families	S295/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Rule R114: River crossing structures - permitted activity	Craig and Janet Morrison	S303/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Julian and Ruth Blackett	S299/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Rule R114: River crossing structures - permitted activity	Kennott Family Trust	S297/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast.
Rule R114: River crossing structures - permitted activity	Richard Tosswill	S368/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Margaret Niven	S293/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Robert Kyle	S290/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Powerco	S29/046	Support	Retain Rule R114 without further modification.
Rule R114: River crossing structures - permitted activity	Land Matters LTD	S285/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Rule R114: River crossing structures - permitted activity	Andrew Patrick	S292/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Jim, Pascoe and Henry Reynolds	S281/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Jan and Jock Richmond	S280/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Bell Camp Trust	S294/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Rule R114: River crossing structures - permitted activity	Charlotte and Toby McDonald	S289/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Derek Neal	S278/021	Amend	Amend clause g) from 20 metres squared to 40 metres squared
Rule R114: River crossing structures - permitted activity	Rangitane o Wairarapa Inc	S279/196	Support in part	Retain the exclusion of sites with significant mana whenua values contained in Schedule C as stated in (h).
Rule R114: River crossing structures - permitted activity	Stuart Woodman	S171/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Chris Engel	S170/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	David Hume	S341/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Owen Butcher	S394/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Blair Roberts	S393/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Daniel George	S395/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Willy and Sally Bosch	S380/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Leo Vollebregt	S372/079	Amend	Consider using land management officer for advising on sizing and design. Avoid rules and costs.
Rule R114: River crossing structures - permitted activity	Mahaki Holdings LTD	S370/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast.
Rule R114: River crossing structures - permitted activity	Royal Forest and Bird Protection Society	S353/151	Support	Retain

Rule R114: River crossing structures - permitted activity	A J Barton	S365/096	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Lewis Herrick	S378/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	James Falloon	S376/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Mike Moran	S400/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Michael Taylor	S374/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Max Lutz	S348/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Max Lutz	S348/132	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. Amend 114(g) to limit the width of the ford not the length of the ford or the overall size of the ford.
Rule R114: River crossing structures - permitted activity	Clayton Hartnell	S379/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Donald McCreary	S377/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Sandra Shivas	S361/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Kyle Wells	S360/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Gavin Bruce	S363/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Mike Butterick	S356/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Michael Hewison	S355/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost. Make rule more permissive.
Rule R114: River crossing structures - permitted activity	Federated Farmers of New Zealand	S352/223	Amend	The placement or use of a river crossing structure,... is a permitted activity, provided the following conditions are met:... f) — the river crossing that has any part of the structure fixed in or on the bed has a catchment area above the crossing of not more than: i) — 200ha in any catchment in the region on the eastern side of the Ruamāhanga River, or ii) — 50ha in any catchment in the region on the western side of the Ruamāhanga River, andg) the formed crossing shall be no wider than what is required for the purpose of the crossing and the total area of the structure in or on the bed of the river shall not exceed 20m2 50m2 for bridges and 100m2 for fords andh) the activity does not occur within a site identified in Schedule C (mana whenua) which specifies site specific restrictions on river crossing structures
Rule R114: River crossing structures - permitted activity	Tim Mansell and Family	S351/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Rule R114: River crossing structures - permitted activity	Sam Orsborn	S354/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	Joe Hintz	S401/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Transpower NZ Ltd	S165/059	Amend	(e) the activity shall comply with the beds of lakes and rivers general conditions specified above in section 5.5.4 <u>except condition (l) (not altering the natural course of the river),,</u> and (h) <u>Except for river crossing structures associated with the operation, maintenance or upgrade of the National Grid,</u> the activity does not occur within a site identified in Schedule C (mana whenua).
Rule R114: River crossing structures - permitted activity	Brian Bosch	S347/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Gary James and Anne Marie Daysh	S342/067	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Alex Kyle	S345/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R114: River crossing structures - permitted activity	Andy Phillips	S343/034	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Rule R114: River crossing structures - permitted activity	USNZ	S349/090	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Rule R114: River crossing structures - permitted activity	Dan Riddiford	S350/046	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	James Falloon	S376/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Kaiwairai Dairies Limited	S119/030	Amend	Delete R115 (h) (iv)
Rule R115: Culverts - permitted activity	Neville Fisher	S12/022	Amend	Delete R115 (h) (iv).
Rule R115: Culverts - permitted activity	Michael John Slater	S113/004	Oppose	Delete Rule R115.
Rule R115: Culverts - permitted activity	Michael John Slater	S113/047	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Best Farm Limited, Hunters Hill Limited and Stebbings Farmlands Limited	S149/009	Amend	Amend R115(h) to increase maximum culvert length to 30m.

Rule R115: Culverts - permitted activity	Warren Bryant	S151/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	NZ Transport Agency	S146/176	Support in part	Amend Rule 115: The placement <u>or construction and subsequent use</u> of a culvert <u>an d associated protective structures</u> , that is fixed in, or on, <u>or under</u> the bed of a river including any associated:... (j) the culvert shall be positioned so that its alignment and gradient are <u>generally</u> the same as the river, and
Rule R115: Culverts - permitted activity	Egon Guttke	S14/039	Support	[Retain]
Rule R115: Culverts - permitted activity	Woodridge Homes Limited	S105/005	Oppose	Define culvert. In Rule R115 delete 20m length and replace with the wording ' <u>the formed culvert crossing shall be no wider/longer than necessary for the crossing</u> '
Rule R115: Culverts - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/043	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R115: Culverts - permitted activity	Kairoa Farms Limited	S74/037	Oppose	Delete the condition in R115 restricting culvert diameter, and retain the condition that the culvert be constructed to allow for 20 year flood event.
Rule R115: Culverts - permitted activity	Kairoa Farms Limited	S74/038	Oppose	Provide advice to landowners regarding appropriate culvert sizes to achieve the condition that the culvert be constructed to allow for a 20 year flood event.

Rule R115: Culverts - permitted activity	Minister of Conservation	S75/152	Amend	Amend Rule R115(a) and (b)(iv) as per p30 of original submission.
Rule R115: Culverts - permitted activity	Sandy Bidwell	S399/068	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Mike McCreary	S397/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Bernie George	S396/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Daniel George	S395/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Guy Didsbury	S391/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Owen Butcher	S394/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Hayden Thurston	S390/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Jeremy Bennill	S389/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Pip Wilkinson	S387/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Shane and Geoff Wilkinson	S386/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Gerard Vollebregt	S388/068	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Andrew Thomson	S336/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Rex McKay	S322/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Pip Tocker	S331/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Bob Tosswill	S337/084	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Tim Williams	S324/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Edward Handyside	S321/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Charlie Matthews	S320/041	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Chris and Steven Price	S339/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Alan Westbury	S334/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Hiwi Trust	S332/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	DW and PC McKay	S323/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Fish and Game	S308/120	Support	Retain as notified
Rule R115: Culverts - permitted activity	Tony Dowman	S312/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Beef and Lamb NZ	S311/038	Amend	Delete (h)(i) and (h)(ii) and replace with a clause requiring a culvert size that will meet or exceed the 20 year return period flows.

Rule R115: Culverts - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/118	Amend	Amend Rule R115(f) as follows: "the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on new structures.</u> "
Rule R115: Culverts - permitted activity	John Carred	S314/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Susannah and Mark Guscott	S317/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Jamie Falloon	S373/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	George Ritchie	S371/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	George Ritchie	S371/077	Amend	Permit culverts for small waterways so stock can pass without going through the waterrace.
Rule R115: Culverts - permitted activity	Craig and Janet Morrison	S303/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. Retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost. Allow construction to specifications greater than a one-in-20-year event.

Rule R115: Culverts - permitted activity	Julian and Ruth Blackett	S299/066	Amend	Amend R115 to provide for culverts of a larger dimension than proposed for water bodies located on the Kapiti Coast. Refer only to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Kennott Family Trust	S297/101	Amend	Amend R115(h)(ii) and (iii) to just refer to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Carter Families	S295/066	Amend	Amend R115 to provide for culverts of a larger dimension than proposed for water bodies located on the Kapiti Coast. Refer only to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Carterton District Council	S301/063	Amend	Amend R115(h)(i) to increase the maximum culvert length from 20m to 30m.
Rule R115: Culverts - permitted activity	A T McKay	S298/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Richard Wilkie	S369/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Richard Tosswill	S368/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Jim, Pascoe and Henry Reynolds	S281/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Jan and Jock Richmond	S280/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Charlotte and Toby McDonald	S289/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Powerco	S29/047	Support	Retain Rule R115 without further modification.
Rule R115: Culverts - permitted activity	Land Matters LTD	S285/095	Amend	Amend R115(h)(ii) and (iii) to just refer to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Bell Camp Trust	S294/101	Amend	Amend R115(h)(ii) and (iii) and seek that it be amended to just refer to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Margaret Niven	S293/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Andrew Patrick	S292/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Robert Kyle	S290/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Derek Neal	S278/022	Oppose	Delete clauses h) i) j)
Rule R115: Culverts - permitted activity	Rangitane o Wairarapa Inc	S279/197	Amend	Exclude the permitted activity for culverts from applying in sites in Schedule F1, F2a and F2b
Rule R115: Culverts - permitted activity	Stuart Woodman	S171/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Chris Engel	S170/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	David Hume	S341/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Stewart Weatherstone	S392/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Blair Roberts	S393/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Willy and Sally Bosch	S380/068	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Leo Vollebregt	S372/080	Amend	Consider using land management officer for advising on sizing and design. Avoid rules and costs.
Rule R115: Culverts - permitted activity	Leo Vollebregt	S372/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Mahaki Holdings LTD	S370/066	Amend	Amend R115 to refer only to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Royal Forest and Bird Protection Society	S353/152	Support	Retain

Rule R115: Culverts - permitted activity	Masterton District Council	S367/119	Oppose	Amend Rule R115(h)(i) to provide for a culvert of up to 30m in length, where the culvert is associated with a public road.
Rule R115: Culverts - permitted activity	South Wairarapa District Council	S366/119	Oppose	Amend Rule R115(h)(i) to provide for a culvert of up to 30m in length, where the culvert is associated with a public road.
Rule R115: Culverts - permitted activity	Donald McCreary	S377/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Graeme Hugh Tulloch	S375/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Michael Taylor	S374/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Max Lutz	S348/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Max Lutz	S348/158	Amend	Amend R115(h)(ii) and (iii) and seek that it be amended to just refer to the minimum size limit of 0.3m diameter but remove any maximum size.

Rule R115: Culverts - permitted activity	Clayton Hartnell	S379/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Lewis Herrick	S378/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Kyle Wells	S360/035	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Michael Hewison	S355/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost. Make rule more permissive.
Rule R115: Culverts - permitted activity	A J Barton	S365/013	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Gavin Bruce	S363/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Sandra Shivas	S361/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Mike Butterick	S356/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Tim Mansell and Family	S351/066	Amend	Amend R115 to provide for culverts of a larger dimension than proposed for water bodies located on the Kapiti Coast. Refer only to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Federated Farmers of New Zealand	S352/224	Amend	The placement or use of a culvert ... f) the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on culverts and</u> g) where multiple culverts are placed side by side, the total cross-sectional area of the multiple culverts shall not be less than that of a single culvert which complies with this rule, andh) the culvert, associated fill and culvert placement shall comply with the following dimensions: i) a maximum culvert length of 20m, and ii) for circular culverts a culvert diameter of 0.3m to 1.2m (inclusive), and iii) for non-circular culverts a width and height of 0.3m to 1.2m each (inclusive), and iv) a culvert diameter, or width that is at least as wide as the river bed at the point at which the culvert is installed (and which complies with (h)(ii) and (h)(iii) above) v) a maximum fill height of 2m above the top of the culvert unless a spillway is constructed to enable the passage of a 5% annual exceedence probability (20 year return period) flood event without the fill being overtopped, and l)...k) the culvert shall be constructed to allow:a. the flow from a 5% annual exceedence probability (20 year return period) flood event without overtopping, unless the overtopping flows to a specifically designed spillway, <u>or floodway and...</u>

Rule R115: Culverts - permitted activity	Sam Orsborn	S354/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Mike Moran	S400/068	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Joe Hintz	S401/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Transpower NZ Ltd	S165/060	Amend	(f) <u>Except for culverts associated with the operation, maintenance or upgrade of the National Grid</u> the activity does not occur within a site identified in Schedule C (mana whenua), and
Rule R115: Culverts - permitted activity	Brian Bosch	S347/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Alex Kyle	S345/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Rule R115: Culverts - permitted activity	Andy Phillips	S343/035	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Gary James and Anne Marie Daysh	S342/068	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	Dan Riddiford	S350/047	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Rule R115: Culverts - permitted activity	USNZ	S349/092	Oppose	Delete Rule R115(f) and the resulting restricted discretionary rule R125.
Rule R115: Culverts - permitted activity	USNZ	S349/066	Amend	Amend R115 to provide for culverts of a larger dimension than proposed for water bodies located on the Kapiti Coast. Refer only to the minimum size limit of 0.3m diameter but remove any maximum size.
Rule R115: Culverts - permitted activity	Allan A Smith	S35/018	Amend	Amend Rule 115 condition (h)(ii) to increase the maximum diameter to 1.65m; and amend condition (h)(iii) by an equivalent amount.
Rule R116: Establishing a small dam and existing dams - permitted activity	Egon Guttke	S14/040	Amend	Amend R116(m) from a 20ha catchment limit to a 200ha catchment limit, and consider amending R116(k) by restricting the volume of the retained water to significantly below 20000m3 and use a limit of, say, 5000m3.

Rule R116: Establishing a small dam and existing dams - permitted activity	Wellington Water Limited	S135/164	Amend	Allow for "The damming and diversion of water by a structure that was existing and lawful on the date of notification of this Plan as a Permitted Activity" or similar. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R116: Establishing a small dam and existing dams - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/044	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R116: Establishing a small dam and existing dams - permitted activity	Fish and Game	S308/126	Oppose	Amend rule so that it only applies to existing small dams. New small dams should be discretionary activity.
Rule R116: Establishing a small dam and existing dams - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/119	Amend	Amend Rule R116(i) as follows: "the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on new structures.</u> "
Rule R116: Establishing a small dam and existing dams - permitted activity	Rangitane o Wairarapa Inc	S279/198	Amend	Retain conditions (i) and (j) and include exclusions for rivers and lakes with significant indigenous ecosystems as identified in Schedule F1.

Rule R116: Establishing a small dam and existing dams - permitted activity	Federated Farmers of New Zealand	S352/225	Amend	<p>The placement of a new small dam...</p> <p>i. the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on dams</u> and</p> <p>j. the small dam is not located in and does not cause water to pond in, a significant natural wetland identified in Schedule F3 (significant wetlands) or an outstanding water body identified in Schedule A (outstanding water bodies), and</p> <p>k. the small dam shall not impound more than 20,000m³ of water, <u>above natural ground level</u> and</p> <p>...</p> <p>m. any new small dam does not have a catchment area above the dam of more than 20ha and...</p>
Rule R116: Establishing a small dam and existing dams - permitted activity	Royal Forest and Bird Protection Society	S353/153	Support	Retain
Rule R117: New structures - permitted activity	Wellington Electricity Lines Limited	S126/029	Support	Support Rule R117 and seek it is retained, unaltered.
Rule R117: New structures - permitted activity	NZ Transport Agency	S146/177	Support in part	<p>The placement or use of a new structure, including but not limited to sediment retention weirs, pipes, ducts, cables, hydrological and water quality monitoring equipment, fences, <u>rip-rap, gabion baskets</u> and structures associated with vegetative bank edge protection except a structure permitted by Rules R114, R115, and R116 that is fixed in, on, under, or over the bed of any river or lake, including any associated: .</p> <p>...(h) the structure does not occupy a bed area any greater than 10m², except for where the structure is associated with vegetative bank edge <u>or structure</u> protection, or a pipe, duct, fence or cable which is located over or under the bed where no bed occupancy limits apply, and</p>

Rule R117: New structures - permitted activity	Wellington Water Limited	S135/165	Amend	Change to specifically provide for in-stream erosion protection structures and debris arrestors. In condition (f), add an exclusion for maintenance, operation and upgrade of three waters regionally significant infrastructure. For (h) and (j), refine and justify the threshold measures. Reconsider how the dimensions are described and if they are necessary. Reconsider and refine the wording of condition (K) to indicate how the water quality could be better or ascertained.
Rule R117: New structures - permitted activity	Chorus New Zealand Limited	S144/027	Amend	Retain Rule R117 in its current form.
Rule R117: New structures - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/045	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R117: New structures - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/039	Amend	Make the necessary amendments to policies and rules to specifically provide for in-stream erosion protection structures,
Rule R117: New structures - permitted activity	Minister of Conservation	S75/153	Amend	h) the structure does not occupy <u>any bed area within inanga spawning habitat identified in Schedule F1b, and elsewhere does not occupy a bed area any greater than 10m²...</u>
Rule R117: New structures - permitted activity	New Zealand Defence Force	S81/034	Amend	Make the necessary amendments to R117 to specifically provide for stormwater outlets and in-stream erosion protection structures.

Rule R117: New structures - permitted activity	Spark New Zealand Trading Limited	S98/026	Support	Retain rule
Rule R117: New structures - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/120	Amend	Amend Rule R117(f) as follows: "the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on new structures</u> , and excludes adding pipes or cables to an existing structure."
Rule R117: New structures - permitted activity	Fish and Game	S308/114	Oppose	Amend the rules so that the natural character of rivers, lakes, and wetlands and their beds is protected [according to list of principles in original submission p66].
Rule R117: New structures - permitted activity	Carterton District Council	S301/064	Amend	Amend Rule R117 to provide for maintenance of stream alignment to protect essential infrastructure. Delete condition R117(i)
Rule R117: New structures - permitted activity	Wellington City Council	S286/049	Amend	Include erosion protection structures in Rule 117. Make any necessary subsequent amendments to the policies to recognise and provide for these structures
Rule R117: New structures - permitted activity	Rangitane o Wairarapa Inc	S279/199	Amend	Exclude the permitted activity from sites in Schedules A1, A2 and A3 and F1.
Rule R117: New structures - permitted activity	Spencer Holmes Limited	S273/007	Support	Retain R117 and general condition 5.5.4

Rule R117: New structures - permitted activity	Federated Farmers of New Zealand	S352/226	Amend	The placement or use of a new structure... is a permitted activity, provided the following conditions are met <u>except in the case of emergency works</u> :...f. the activity does not occur within a site identified in Schedule C (mana whenua), <u>which specifies site specific restrictions on new structures excluding adding pipes or cables to an existing structure and...</u> i. the catchment upstream of any sediment retention weir is not greater than 200ha, and...
Rule R117: New structures - permitted activity	Transpower NZ Ltd	S165/061	Amend	(e) the activity shall comply with the beds of lakes and rivers general conditions specified above in section 5.5.4 <u>except condition (l) (not altering the natural course of the river),,</u> and (f) <u>Except for river crossing structures associated with the operation, maintenance or upgrade of the National Grid,</u> the activity does not occur within a site identified in Schedule C (mana whenua), excluding adding pipes or cables to an existing structure and.
Rule R117: New structures - permitted activity	USNZ	S349/093	Oppose	Delete Rule 117(f) and the resulting restricted discretionary Rule R125.
Rule R118: Removing or demolishing structures - permitted activity	NZ Transport Agency	S146/178	Support in part	(f) the removal or demolition of the structure disturbs <u>the least volume and area of the bed practicable; and</u> less than 10m³ of the bed of the river or lake, and (i) the removal or deposition shall not result in the diversion of water from a natural wetland.
Rule R118: Removing or demolishing structures - permitted activity	Wellington Electricity Lines Limited	S126/030	Support	Support Rule R118 and seek it is retained, unaltered.

Rule R118: Removing or demolishing structures - permitted activity	Kiwi Rail Holdings Limited	S140/063	Not stated	Amend (f) and (i): (f) the removal or demolition of the structure disturbs <u>the least volume and area of the bed as possible; and less than 10m³ of the bed of the river or lake,</u> and (i) the removal or deposition shall not result in the diversion of water from a natural wetland.
Rule R118: Removing or demolishing structures - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/046	Not stated	Amend the plan to clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Rule R118: Removing or demolishing structures - permitted activity	Fish and Game	S308/121	Support	Retain as notified.
Rule R118: Removing or demolishing structures - permitted activity	Rangitane o Wairarapa Inc	S279/200	Amend	Exclude all sites identified in Schedule E from the permitted activity for the removal of structures.
Rule R118: Removing or demolishing structures - permitted activity	Powerco	S29/048	Support	Retain Rule R118 without further modification.
Rule R118: Removing or demolishing structures - permitted activity	Transpower NZ Ltd	S165/062	Support	Retain
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Woodridge Homes Limited	S105/006	Oppose	In Rule R119 either delete or amend to allow removal of this material down to the natural bed level.

Rule R119: Clearing flood debris and beach recontouring - permitted activity	NZ Transport Agency	S146/179	Support in part	The clearing of flood debris <u>in or on</u> the bed of a river or lake, and beach recontouring of the bed of a river (including, but not limited to, beach ripping), including any associated:... (e) the removal of flood debris shall be for the purposes of flood or erosion control or to maintain the integrity <u>or functioning</u> of a structure, and
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Wellington Water Limited	S135/166	Amend	"Change (d) to include preserving the flood protection function of the stormwater structure to enable pro-active maintenance. Include a definition for "flood debris" that covers the wide range of materials that can build up and cause blockage during a flood. Include a definition for "river beach" that includes material build up around culverts and bridge piers. Amend the definition for "beach recontouring" to include all river bed materials. Amend condition (f) to permit a reasonable amount of recontouring in the flowing channel. Clarify condition (g) that it relates to the depth of excavation, if this is the intention, and increase this cutoff to 1.5 metres. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions). "
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/047	Not stated	Include a definition for "flood debris" that covers the wide range of materials that can build up and cause blockage during a flood. Include a definition for "river beach" that includes material build up around bridge piers. Amend condition (f) to permit a reasonable amount of recontouring in the flowing channel. Amend condition (g) to clarify it relates to the depth of excavation, if this is the intention.
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Fish and Game	S308/127	Oppose	Delete Amend so that the activity is discretionary activity

Rule R119: Clearing flood debris and beach recontouring - permitted activity	Masterton District Council	S367/120	Oppose	Amend Rule R119 for a Permitted Activity, which provides as follows: <u>The excavation or disturbance of the bed of a river, including the removal of excavated material, in accordance with an approved GWRC Flood Management Plan is a permitted activity.</u>
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Masterton District Council	S367/124	Not stated	If Rule R119 is not amended as [submission point s367/120], insert a new rule enabling flood management practices as a permitted activity similar to the framework adopted in the Hawkes Bay Regional Council, including relevant and reasonable standards and guidelines,
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Wellington City Council	S286/045	Amend	Amend Rule 119 condition (f) to permit a reasonable amount of recontouring in the flow channel. Amend Rule 119 (g) to clarify it relates to the depth of excavation, if this is the intention.
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Rangitane o Wairarapa Inc	S279/201	Amend	Include exclusions for sites listed in: Schedule A, B, C, E and F. Bed recontouring within those sites should be managed through as a minimum, a restricted discretionary resource consent process with matters of discretion providing for the management of adverse effects on the characteristics and values associated with the sites listed in the schedules.
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Joan Allin and Rob Crozier	S175/060	Amend	Reconsider Rules R119 and R192 and make them appropriately consistent. Reconsider why Rule R119 is a permitted activity but Rule R192 is a controlled activity and make them consistent. Consider whether a reference to diverting water should be included. [See also decisions requested under submission point S175/055]
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Federated Farmers of New Zealand	S352/227	Amend	...is a permitted activity, provided the following conditions are met <u>except in the case of emergency works:</u>

Rule R119: Clearing flood debris and beach recontouring - permitted activity	South Wairarapa District Council	S366/120	Oppose	Amend Rule R119 for a Permitted Activity, which provides as follows: <u>The excavation or disturbance of the bed of a river, including the removal of excavated material, in accordance with an approved GWRC Flood Management Plan is a permitted activity.</u>
Rule R119: Clearing flood debris and beach recontouring - permitted activity	South Wairarapa District Council	S366/124	Not stated	If Rule R119 is not amended as[per submission point s366/120], insert a new rule enabling flood management practices as a permitted activity similar to the framework adopted in the Hawkes Bay Regional Council, including relevant and reasonable standards and guidelines,
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Wainuiomata Rural Community Association	S164/007	Amend	We suggest that this be reworded "to a depth no greater than it was prior to the flood event" to allow for situations when the build-up of debris as result of a flood event is greater than metre.
Rule R119: Clearing flood debris and beach recontouring - permitted activity	Coastal Ratepayers United Incorporated	S93/086	Amend	[See decision requested for submission point S93/070].
Rule R120: Minor sand and gravel extraction - permitted activity	Wellington Water Limited	S135/167	Amend	Retain.
Rule R120: Minor sand and gravel extraction - permitted activity	Charlie Matthews	S320/003	Oppose	This should be on a case by case system.
Rule R120: Minor sand and gravel extraction - permitted activity	Fish and Game	S308/122	Support	Retain as notified

Rule R120: Minor sand and gravel extraction - permitted activity	Masterton District Council	S367/123	Oppose	[Not stated]
Rule R120: Minor sand and gravel extraction - permitted activity	Rangitane o Wairarapa Inc	S279/202	Amend	Exclude minor sand mining and gravel extraction in sites in Schedule C and F
Rule R120: Minor sand and gravel extraction - permitted activity	Alexander Haddon Webster	S274/040	Amend	(i) 50m ³ for an individuals needs or (ii)150m ³ for use on the property on which the river bed occurs or up to 300m ³ with the permission of the river operations manager
Rule R120: Minor sand and gravel extraction - permitted activity	Federated Farmers of New Zealand	S352/228	Amend	c. extraction in any 12 month period shall be limited to whichever is the lesser of:i. 15m³ 50m³ for an individual's needs, orii. 50m³ 150m³ for use on the property on which the river bed occurs or is adjacent to, <u>or up to 300m³ with the agreement of the WRC river operations manager</u>
Rule R120: Minor sand and gravel extraction - permitted activity	South Wairarapa District Council	S366/123	Oppose	Make provision for the extraction of gravel from Wairarapa's aggrading rivers in accordance with an approved flood management to be undertaken as a permitted activity.
Rule R120: Minor sand and gravel extraction - permitted activity	Transpower NZ Ltd	S165/063	Amend	(h) the extraction site shall be set back more than 150m upstream from any established water level recorder, more than 50m upstream <u>or downstream</u> from any established weir, ford, culvert, bridge, dam, surface water intake structure or <u>National Grid support structure, network utility pole or...</u>
Rule R120: Minor sand and gravel extraction - permitted activity	Allan A Smith	S35/019	Amend	Amend Rule R120 conditions (c)(i) and (c)(ii) volume limits to 30m ³ and 100m ³ respectively.

Rule R121: Maintenance of drains - permitted activity	Kaiwaiwai Dairies Limited	S119/034	Amend	Delete R121 (k) and refer to reworded M14 [submission point s119/043]
Rule R121: Maintenance of drains - permitted activity	Kaiwaiwai Dairies Limited	S119/032	Amend	Change R121 (h) <u>All reasonable steps shall be taken to return any stranded native fish back into the drain</u>
Rule R121: Maintenance of drains - permitted activity	Kaiwaiwai Dairies Limited	S119/036	Amend	[Should R121 be replaced by rule 17-20 from One Plan?]
Rule R121: Maintenance of drains - permitted activity	Kaiwaiwai Dairies Limited	S119/031	Amend	Delete R121 (g) as (h) covers the required outcome.
Rule R121: Maintenance of drains - permitted activity	Neville Fisher	S12/025	Oppose in part	Delete R121 (j) and refer to reworded M14 [Method relating to education on drain maintenance]
Rule R121: Maintenance of drains - permitted activity	Neville Fisher	S12/023	Oppose in part	Delete R121 (g) as (h) covers the required outcome to return native species to the drain.
Rule R121: Maintenance of drains - permitted activity	Michael John Slater	S113/005	Oppose	Delete Rule R121 [condition f, j and l].

Rule R121: Maintenance of drains - permitted activity	Waa Rata Estate	S152/081	Amend	Delete the provisions or amend them to be practical in application.
Rule R121: Maintenance of drains - permitted activity	Warren Bryant	S151/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Wellington Water Limited	S135/168	Amend	Amend the definition of "highly modified river or stream" to be applicable to urban stormwater networks that include large numbers of watercourses and open drains, including intake structures. As the rule is specifically about drains, it is best to use terminology that drain maintenance contractors are familiar with. (f) Clarify the intention and meaning of "original grade or cross section" and re-word to make it reflect practical work operations. (g) Specify where use of fish friendly digger buckets are necessary. (j) Remove condition. (k) Remove condition.
Rule R121: Maintenance of drains - permitted activity	Java Trust Limited	S120/002	Amend	Amend so cleaning and clearing of artificial farm drainage canals and drains is a permitted activity without restrictions at all times; amend all related provisions accordingly; all incidental and consequential amendments.
Rule R121: Maintenance of drains - permitted activity	Neville Fisher	S12/024	Oppose in part	Change R121 (h) to: All reasonable steps shall be taken to return any stranded fish back into the drain.
Rule R121: Maintenance of drains - permitted activity	Neville Fisher	S12/026	Oppose in part	Delete R121 (k) and refer to reworded M14 [Method relating to education on drain maintenance].
Rule R121: Maintenance of drains - permitted activity	Kaiwairai Dairies Limited	S119/033	Amend	Delete R121 (j) and refer to reworded M14 [submission point s119/043]

Rule R121: Maintenance of drains - permitted activity	Michael John Slater	S113/036	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Friends of the Paekakariki Streams	S112/099	Amend	Change to discretionary
Rule R121: Maintenance of drains - permitted activity	Roading, Parks and Gardens and Solid Waste departments of Hutt City Council and Upper Hutt City Council	S85/049	Amend	Reconsider the constraints imposed for permitted activity Rule R121
Rule R121: Maintenance of drains - permitted activity	Kairoa Farms Limited	S74/025	Oppose	Provide high resolution maps in the plan, clearly showing drains and highly modified streams that are covered by Rule R121, and provide these before the hearing to see the scale of the issue.
Rule R121: Maintenance of drains - permitted activity	Kairoa Farms Limited	S74/028	Oppose	Amend R121 to extend the time frames for the implementation of the new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Michael Cohr	S60/005	Oppose	Review drain clearing restriction with farm working group for a practical outcome.
Rule R121: Maintenance of drains - permitted activity	Stewart Alexander Barton	S6/003	Oppose in part	Amend Rule R121: Delete (e) Insert at beginning of paragraph (h) "Every effort to replace..." Insert instead in (i) "An effort to leave vegetation one side of drain is desirable" Insert in (k) "if water is present and flowing".

Rule R121: Maintenance of drains - permitted activity	New Zealand Defence Force	S81/035	Amend	Amend the permitted activity conditions for R121 to allow for appropriate maintenance of drains and highly modified rivers or streams.
Rule R121: Maintenance of drains - permitted activity	Minister of Conservation	S75/154	Amend	(h) any fish (except identified pest species), and koura <u>and kakahi (freshwater mussels)</u> removed from the drain during maintenance works shall be returned to the drain as soon as practicable, and no later than one hour after removal from the drain, and <u>(X) the activity shall not be undertaken during the migration times listed in Schedule F1a for species present in the catchment.</u>
Rule R121: Maintenance of drains - permitted activity	Bernie George	S396/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Mike McCreary	S397/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Sandy Bidwell	S399/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Hayden Thurston	S390/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Guy Didsbury	S391/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Pip Wilkinson	S387/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Shane and Geoff Wilkinson	S386/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Gerard Vollebregt	S388/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Jeremy Bennill	S389/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	DW and PC McKay	S323/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Susannah and Mark Guscott	S317/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Pip Tocker	S331/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Friends of the Otaki River Inc	S319/001	Not stated	Rule R121 conditions are impractical and time consuming.

Rule R121: Maintenance of drains - permitted activity	Edward Handyside	S321/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Charlie Matthews	S320/030	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Charlie Matthews	S320/004	Oppose	[Oppose rule]
Rule R121: Maintenance of drains - permitted activity	Chris and Steven Price	S339/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Rex McKay	S322/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Bob Tosswill	S337/073	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Alan Westbury	S334/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Hiwi Trust	S332/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Andrew Thomson	S336/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Tim Williams	S324/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Dairy NZ and Fonterra Co-operative Group Ltd	S316/121	Amend	Retain Rule R121 with amendments subclause (g) to delete the words "with a curved flat base". Reword subclause (j)(i) as follows: "only one side of the drain shall be cleared at any one time, and the other side of the drain may only be cleared <u>at least</u> three months following completion of the initial works, or..."
Rule R121: Maintenance of drains - permitted activity	Fish and Game	S308/125	Support	Retain as notified
Rule R121: Maintenance of drains - permitted activity	Tony Dowman	S312/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Beef and Lamb NZ	S311/039	Amend	High resolution maps are needed for inclusion on the plan, insert new condition: <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and if necessary cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> Amend: (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base , and a slatted back that permits the easy drainage of water and fish back into the drain <u>which reduces the likelihood of pest plant material being spread through the drain,</u> and (h) any fish (except identified <u>except all pest animal species</u>) and koura ... (i) any sediment or bed material, <u>or plant material especially any pest plant material,</u> removed from the drain
Rule R121: Maintenance of drains - permitted activity	John Carred	S314/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Leo Vollebregt	S372/078	Amend	GW needs to contact each landowner individually and inform them of what they can and cannot do with their waterways.
Rule R121: Maintenance of drains - permitted activity	Leo Vollebregt	S372/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Mahaki Holdings LTD	S370/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.

Rule R121: Maintenance of drains - permitted activity	Mahaki Holdings LTD	S370/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Michael Taylor	S374/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Jamie Falloon	S373/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Julian and Ruth Blackett	S299/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.
Rule R121: Maintenance of drains - permitted activity	Kennott Family Trust	S297/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.
Rule R121: Maintenance of drains - permitted activity	Kennott Family Trust	S297/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Kennott Family Trust	S297/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Rule R121: Maintenance of drains - permitted activity	Craig and Janet Morrison	S303/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Julian and Ruth Blackett	S299/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Julian and Ruth Blackett	S299/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Rule R121: Maintenance of drains - permitted activity	A T McKay	S298/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Carter Families	S295/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.
Rule R121: Maintenance of drains - permitted activity	Carter Families	S295/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Carter Families	S295/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Rule R121: Maintenance of drains - permitted activity	Carterton District Council	S301/065	Oppose in part	Delete the prescriptive list of conditions from Rules R121 and R122.
Rule R121: Maintenance of drains - permitted activity	Margaret Niven	S293/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Bell Camp Trust	S294/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.
Rule R121: Maintenance of drains - permitted activity	Bell Camp Trust	S294/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Bell Camp Trust	S294/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Rule R121: Maintenance of drains - permitted activity	Andrew Patrick	S292/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Robert Kyle	S290/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Land Matters LTD	S285/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.
Rule R121: Maintenance of drains - permitted activity	Land Matters LTD	S285/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Land Matters LTD	S285/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.

Rule R121: Maintenance of drains - permitted activity	Jim, Pascoe and Henry Reynolds	S281/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Jan and Jock Richmond	S280/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Charlotte and Toby McDonald	S289/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Rangitane o Wairarapa Inc	S279/203	Support	Support as notified
Rule R121: Maintenance of drains - permitted activity	Ian Jensen	S176/017	Not stated	Remove (j), (k) and (l)
Rule R121: Maintenance of drains - permitted activity	Alexander Haddon Webster	S274/043	Oppose	Delete R121(j)(i) - unworkable rule for small drains.
Rule R121: Maintenance of drains - permitted activity	Alexander Haddon Webster	S274/041	Amend	(g) if mechanically clearing aquatic vegetation the machinery must use a bucket which has adequate apertures for easy drainage of water and fish back into the drain
Rule R121: Maintenance of drains - permitted activity	Alexander Haddon Webster	S274/044	Oppose	Delete (k) as this rule as it does not make sense

Rule R121: Maintenance of drains - permitted activity	Derek Neal	S278/024	Oppose	Delete clause j)
Rule R121: Maintenance of drains - permitted activity	Derek Neal	S278/023	Oppose	Delete clause g)
Rule R121: Maintenance of drains - permitted activity	Alexander Haddon Webster	S274/042	Amend	Sediment should be placed where possible in a position that allows for fish to reenter the water of their own accord
Rule R121: Maintenance of drains - permitted activity	Stuart Woodman	S171/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Chris Engel	S170/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	N & S Terry	S173/012	Amend	<p>Insert a new condition; <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> and amend the following conditions; (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base, and a slatted back that permits the easy drainage of water and fish back into the drain which reduces the likelihood of pest plant material being spread through the drain, and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>)... Or any other equivalent change</p>
Rule R121: Maintenance of drains - permitted activity	David and Michael Keeling	S169/016	Not stated	<p>The definition of a highly modified river or stream include all streams that have been modified by human activity, whether by straightening, deepening, channeling. We ask that high resolution maps are provided in the plan, clearly showing drains and highly modified streams that are covered by Rule 121.</p>
Rule R121: Maintenance of drains - permitted activity	Sustainable Wairarapa Inc	S167/030	Amend	<ol style="list-style-type: none"> 1. Amend section f to allow drains to be changed from the classic U shape to a V 2. Amend section g. The following is a comment from a farmer "A slotted bucket will let some of the eels get back in to the water but also a percentage of the material that you are trying to get out. 3. Amend section h attached comment from a farmer "If I see a FISH in a bucket full I lift out, I stop and put it back in the water straight away if I wait an hour it will be dead. 4. Amend section j again a comment from a farmer "Many drains are only as wide as a bucket on a digger so how do you clean only one third of it. 5. Amend section k about starting work from upstream working down, water downstream will be cloudy. 6. Allow the placement of sediment traps, rocks (to increase diversity in fish habitat), and drums for the same purpose. 7. Consider carefully the guidelines/code of practise developed by Environment Canterbury which allows flexibility dependant on the conditions on site.

Rule R121: Maintenance of drains - permitted activity	Gary James and Anne Marie Daysh	S342/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Gary James and Anne Marie Daysh	S342/87	Amend	Insert a new condition; <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> and amend the following conditions; (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base, and a slatted back that permits the easy drainage of water and fish back into the drain which reduces the likelihood of pest plant material being spread through the drain, and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>)... Or any other equivalent change
Rule R121: Maintenance of drains - permitted activity	David Hume	S341/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Jim Hedley	S340/007	Oppose	Council should name all unmodified water courses. Any streams that have been modified should not be named. R121:Delete; (e) the words "artificial farm drainage canal" Delete (J) Delete (K) Delete (I)

Rule R121: Maintenance of drains - permitted activity	Blair Roberts	S393/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Owen Butcher	S394/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Daniel George	S395/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Stewart Weatherstone	S392/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Willy and Sally Bosch	S380/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	George Ritchie	S371/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Mahaki Holdings LTD	S370/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Rule R121: Maintenance of drains - permitted activity	Richard Wilkie	S369/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Richard Tosswill	S368/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	South Wairarapa District Council	S366/125	Oppose	That Rule R121 be amended to provide for reasonable permitted activity standards, and that Method M14 be amended to provide for the establishment of a working group which can work to define reasonable and workable maintenance standards and protocols which differentiate between a drain and a river (or stream), reflect the purpose of the drain, the risk of adverse effect, and accepted efficient and effective maintenance practice.
Rule R121: Maintenance of drains - permitted activity	Masterton District Council	S367/125	Oppose	That Rule R121 be amended to provide for reasonable permitted activity standards, and that Method M14 be amended to provide for the establishment of a working group which can work to define reasonable and workable maintenance standards and protocols which differentiate between a drain and a river (or stream), reflect the purpose of the drain, the risk of adverse effect, and accepted efficient and effective maintenance practice.
Rule R121: Maintenance of drains - permitted activity	Clayton Hartnell	S379/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Lewis Herrick	S378/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	James Falloon	S376/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Mike Moran	S400/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Graeme Hugh Tulloch	S375/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Max Lutz	S348/111	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.
Rule R121: Maintenance of drains - permitted activity	Max Lutz	S348/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Max Lutz	S348/109	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Max Lutz	S348/110	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.

Rule R121: Maintenance of drains - permitted activity	Lewis Herrick	S378/87	Amend	<p>Insert a new condition; <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> and amend the following conditions; (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base , and a slatted back that permits the easy drainage of water and fish back into the drain which reduces the likelihood of pest plant material being spread through the drain, and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>)... Or any other equivalent change</p>
Rule R121: Maintenance of drains - permitted activity	Donald McCreary	S377/057	Oppose	<p>[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.</p>
Rule R121: Maintenance of drains - permitted activity	Sandra Shivas	S361/087	Amend	<p>Insert a new condition; <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> and amend the following conditions; (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base , and a slatted back that permits the easy drainage of water and fish back into the drain which reduces the likelihood of pest plant material being spread through the drain, and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>)... Or any other equivalent change</p>

Rule R121: Maintenance of drains - permitted activity	Sandra Shivas	S361/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Mike Butterick	S356/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	A J Barton	S365/014	Amend	Delete condition [(j)i)] requiring cleaning a drain one side at a time.
Rule R121: Maintenance of drains - permitted activity	A J Barton	S365/086	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Gavin Bruce	S363/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Kyle Wells	S360/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Rule R121: Maintenance of drains - permitted activity	Craig Dairy Farm Ltd	S358/012	Amend	<p>Insert a new condition; <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> and amend the following conditions; (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base, and a slatted back that permits the easy drainage of water and fish back into the drain which reduces the likelihood of pest plant material being spread through the drain, and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>)... Or any other equivalent change</p>
Rule R121: Maintenance of drains - permitted activity	Joe Hintz	S401/024	Oppose	<p>[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.</p>

Rule R121: Maintenance of drains - permitted activity	Wainuiomata Rural Community Association	S164/008	Oppose	We would like to discuss with you the proposition that instead of stipulating how the farmer must clear his man made drains, the rule should state that when it is the landowner's responsibility, whether maintaining or clearing a drain, that the land owner must ensure that any outflow into a category 2 waterways meet Greater Wellington's measures that are used as provided for in other rules and in the general conditions.
Rule R121: Maintenance of drains - permitted activity	Brian Bosch	S347/057	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Andy Phillips	S343/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Alex Kyle	S345/024	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R121: Maintenance of drains - permitted activity	Tim Mansell and Family	S351/067	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Rule R121: Maintenance of drains - permitted activity	Tim Mansell and Family	S351/068	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Rule R121: Maintenance of drains - permitted activity	Tim Mansell and Family	S351/069	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.

Rule R121: Maintenance of drains - permitted activity	Dan Riddiford	S350/036	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Rule R122: Removing vegetation - permitted activity	Wellington Electricity Lines Limited	S126/031	Support	Support Rule R122 and seek it, and particularly condition (m), is retained, unaltered.
Rule R122: Removing vegetation - permitted activity	Southern North Island Wood Council	S100/008	Amend	We want to exclude plantation forestry from Rule 122, subsection K.
Rule R122: Removing vegetation - permitted activity	Kaiwairai Dairies Limited	S119/035	Amend	Delete R122 (h) & (l) and (i) extend to two hours
Rule R122: Removing vegetation - permitted activity	Michael John Slater	S113/037	Oppose	[Condition l] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	PF Olsen Limited	S131/011	Amend	Exclude plantation forestry from Rule 122, subsection K.
Rule R122: Removing vegetation - permitted activity	Michael John Slater	S113/009	Oppose	Delete Rule R122 [condition k(i) and (ii)].
Rule R122: Removing vegetation - permitted activity	Best Farm Limited, Hunters Hill Limited and Stebbings Farmlands Limited	S149/010	Oppose	Clarify the meaning of the use of 'bed' in R122.

Rule R122: Removing vegetation - permitted activity	Warren Bryant	S151/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Waa Rata Estate	S152/082	Amend	Amend conditions (f), (g), (l) and (m). We recommend it workshopping these provisions with people who would be carrying out the activity.
Rule R122: Removing vegetation - permitted activity	Wellington Water Limited	S135/169	Amend	Amend the definition of "highly modified river or stream" to be applicable to urban stormwater networks that include large numbers of watercourses and open drains, including intake structures. As the rule is specifically about drains, it is best to use terminology that drain maintenance contractors are familiar with. (g) Specify where use of fish friendly digger buckets are necessary. (l) Remove condition.
Rule R122: Removing vegetation - permitted activity	Neville Fisher	S12/027	Oppose in part	Delete R122 (h) and reword (i) as: "All reasonable steps shall be taken to return any stranded fish back into the drain".
Rule R122: Removing vegetation - permitted activity	GBC Winstone	S66/021	Support	Retain the rule unchanged.
Rule R122: Removing vegetation - permitted activity	Minister of Conservation	S75/155	Amend	(h) any fish (except identified pest species), and koura <u>and kakahi (freshwater mussels)</u> removed from the river or lake bed during works shall be returned to the river or lake as soon as practicable, and no later than one hour after removal, and <u>(X) the activity shall not be undertaken during the migration times listed in Schedule F1a for species present in the catchment.</u>
Rule R122: Removing vegetation - permitted activity	Bernie George	S396/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.

Rule R122: Removing vegetation - permitted activity	Daniel George	S395/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Sandy Bidwell	S399/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Mike McCreary	S397/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Stewart Weatherstone	S392/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Guy Didsbury	S391/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Hayden Thurston	S390/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Jeremy Bennill	S389/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Pip Wilkinson	S387/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.

Rule R122: Removing vegetation - permitted activity	Shane and Geoff Wilkinson	S386/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Gerard Vollebregt	S388/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Andrew Thomson	S336/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Rex McKay	S322/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Pip Tocker	S331/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Tim Williams	S324/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Edward Handyside	S321/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Charlie Matthews	S320/031	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.

Rule R122: Removing vegetation - permitted activity	DW and PC McKay	S323/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Alan Westbury	S334/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Hiwi Trust	S332/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Bob Tosswill	S337/074	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Chris and Steven Price	S339/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Susannah and Mark Guscott	S317/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	John Carred	S314/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Horticulture NZ	S307/074	Amend	Amend Rule R122 by adding: Conditions a-m do not apply to the removal of vegetation or unwanted organisms for biosecurity purposes.

Rule R122: Removing vegetation - permitted activity	Fish and Game	S308/115	Oppose	Amend the rules so that the natural character of rivers, lakes, and wetlands and their beds is protected [according to list of principles in original submission p66].
Rule R122: Removing vegetation - permitted activity	Beef and Lamb NZ	S311/040	Amend	Amend as; (h) if mechanically clearing aquatic vegetation from an area of river or lake bed covered with water, the machinery must use a weed bucket with a curved flat base, and a slatted back that permits the easy drainage of water and fish back into the drain <u>which reduces the likelihood of pest plant material being spread through the river,</u> and (i) any fish (except identified <u>including all pest animal species</u>) and koura ... (j) floating debris and plant material...(as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>), and ...
Rule R122: Removing vegetation - permitted activity	Tony Dowman	S312/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Leo Vollebregt	S372/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Michael Taylor	S374/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Jamie Falloon	S373/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.

Rule R122: Removing vegetation - permitted activity	George Ritchie	S371/058	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	A T McKay	S298/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Craig and Janet Morrison	S303/025	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Rule R122: Removing vegetation - permitted activity	Carterton District Council	S301/066	Oppose in part	Delete the prescriptive list of conditions from Rules R121 and R122.
Rule R122: Removing vegetation - permitted activity	Masterton District Council	S367/126	Oppose	Delete the Rule and provide an alternative workable rule as part of the review process requested for Rule R121; or Exclude local authority activities from the need to comply with this rule, providing an alternative permitted activity rule subject to workable, reasonable, and cost efficient standards.

Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Wellington Water Limited	S135/170	Amend	Match the restrictions in this rule to those in policy P102. Change this rule to (or similar): The reclamation of the bed, or any part of the bed of a river or lake: associated with the piping of a stream (except those associated with a qualifying development within a special housing area; or associated with a growth area or development framework or strategy approved by a local authority under the Local Government Act 2002 or contained within a District Plan) or (b) Add a new rule similar to: The reclamation of the bed of a river: associated with the piping of a stream; and within a qualifying development within a special housing area; or associated with a growth area or development framework or strategy approved by a local authority under the Local Government Act 2002 or contained within a District Plan is a discretionary unrestricted activity. Amend the definition of reclamation to clarify its meaning in relation to the bed of a lake or a river. Ensure policy P102 and this rule are consistent in terms of reclamation with other provisions for temporary damming and diversion of rivers or lakes.
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Kiwi Rail Holdings Limited	S140/064	Oppose	Amend Rule 127: <u>Except for reclamation associated with infrastructure of regional significance,</u> ± The reclamation of the bed, or any part of the bed, of a river or lake:
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Hutt City Council	S84/024	Oppose	Amend Rule R127 and change the activity status from a non-complying activity to a discretionary activity.

Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Ian Bengé and Martin Bengé	S83/002	Amend	Amend Rule R127 : Reclamation of the Beds of Rivers or Lakes - non complying activity. The reclamation of the bed, or any part of the bed, of a river or lake: (a) associated with the piping of a stream, or (b) in a site identified in Schedule A1 (outstanding rivers), or (c) in a site identified in Schedule C (mana whenua) <u>except where the reclamation or drainage is associated with a growth and/or development framework or strategy approved by a local authority under the Local Government Act 2002.</u> is a non complying activity. AND 3. Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the submitter.
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Friends of Taputeranga Marine Reserve Trust	S69/006	Support	[Retain]
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	GBC Winstone	S66/022	Oppose in part	Delete (a) from Rule R127. This would allow for steam piping activities to be considered as discretionary activities under Rules R129 and R135 (accepting that diversion would be involved).
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Sophie Mormede	S68/004	Support	[Retain]
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Minister of Conservation	S75/156	Support	Retain as notified.

Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Rangitane o Wairarapa Inc	S279/207	Oppose	Amend Rule R127 to remove (b) and (c) and include these in Rule R128 as prohibited activities.
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Spencer Holmes Limited	S273/008	Oppose	R127 reclassified as a discretionary activity
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Holcim (New Zealand) Ltd	S276/024	Oppose	Delete (a) from Rule R127. This would allow for steam piping activities to be considered as discretionary activities under Rules R129 and R135 (accepting that diversion would be involved).
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Porirua City Council	S163/124	Amend	Add further categories as follows: "Reclamation ... associated with the piping of a stream within an Urban Development overlay area, in respect of which a comprehensive development plan has been approved, is a controlled activity. "Reclamation ... associated with the piping of a stream within an Urban Development overlay area, in respect of which a comprehensive development plan has not been approved, is a restricted discretionary activity."
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Royal Forest and Bird Protection Society	S353/155	Support in part	Change activity status for Rules 126 and 127 to prohibited
Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Transpower NZ Ltd	S165/066	Amend	If Rule R127 is to be retained, Add a new definition for Reclamation (in relation to Rule R127) (or similar): <u>Reclamation (in relation to Rule R127) means the piping or covering of a stream for a distance greater than required to form a reasonable crossing point is considered to be reclamation of the river bed.</u>

Rule R128: Reclamation of the bed of an outstanding lake and associated diversion - prohibited activity	NZ Transport Agency	S146/183	Oppose	Amend Rule 128 <u>Except for the reclamation associated with infrastructure of regional significance which is regulated under rule 129, t</u> -The
Rule R128: Reclamation of the bed of an outstanding lake and associated diversion - prohibited activity	Rangitane o Wairarapa Inc	S279/208	Amend	Retain the prohibition of reclamation in lakes of outstanding indigenous ecosystem value as notified, but include as prohibited activities the reclamation in rivers with outstanding indigenous ecosystem values and site with significant mana whenua values as identified in Schedules A1 and C respectively as (discussed for Rule R127).
Rule R128: Reclamation of the bed of an outstanding lake and associated diversion - prohibited activity	Royal Forest and Bird Protection Society	S353/156	Support	Retain
Rule R129: All other activities in river and lake beds - discretionary activity	Vector Gas Ltd	S145/067	Support	Retain Rule 129
Rule R129: All other activities in river and lake beds - discretionary activity	NZ Transport Agency	S146/184	Support	Retain
Rule R129: All other activities in river and lake beds - discretionary activity	Cuttriss Consultants Limited	S104/009	Amend	Insert a rule providing for erosion protection measure, rather than have them default to a catchall D activity status.

Rule R129: All other activities in river and lake beds - discretionary activity	Porirua City Council	S163/125	Amend	Add further categories as follows: "Small river crossings, culverts, small dams and small structures within an Urban Development overlay area, in respect of which a comprehensive development plan has been approved, is a controlled activity. "Small river crossings, culverts, small dams and small structures within an Urban Development overlay area, in respect of which a comprehensive development plan has not been approved, is a restricted discretionary activity."
5.5.8 Damming and diverting water	Porirua Harbour and Catchment Community Trust	S33/040	Support	[Retain section 5.5.8 rules].
5.5.8 Damming and diverting water	Royal Forest and Bird Protection Society	S353/157	Support in part	New rule providing that damming or diversion of water outstanding rivers and lakes is a non-complying activity
Rule R130: Diversion of groundwater - permitted activity	The Oil Companies	S55/058	Support	Retain Rule 130 without further modification.
Rule R130: Diversion of groundwater - permitted activity	Powerco	S29/049	Support	Retain Rule R130 without further modification.
Rule R130: Diversion of groundwater - permitted activity	Transpower NZ Ltd	S165/067	Support	Retain
Rule R131: Damming or diverting water within or from rivers - discretionary activity	Wellington Water Limited	S135/171	Amend	Replicate Rule 8 from the existing Freshwater Plan, similar to "The damming and diversion of water by a structure that was existing and lawful on the date the proposed Plan was publicly notified as a permitted activity."

Rule R131: Damming or diverting water within or from rivers - discretionary activity	Rangitane o Wairarapa Inc	S279/209	Amend	Amend the rule to ensure that rivers identified in Schedule C are afforded protection from damming and the diversion of water as a non-complying activity by including a condition in Rule R131 stating the that damming and diversion is not within a river or site identified in Schedule B or C.
