Summary of Decisions Requested: Submitter Names beginning with W

Submitter Name	Submission point number	Plan Provision	Support /oppose	Summary of decision requested
Waa Rata Estate	S152/001	Entire Plan	Amend	Add hyperlinks within the electronic document to any cross references to other parts of the Regional Plan to increase its useability for lay people.
Waa Rata Estate	S152/002	Schedule F3a: Contents of restoration management plans	Amend	Remove requirement in Schedule F3a for the restoration management plan to be approved by Council and enable other parties to endorse the plan such as suitably qualified ecologists, Queen Elizabeth Trust, Department of Conservation, Iwi authorities of the rohe (if they wish), relevant district councils, or other relevant parties.
Waa Rata Estate	S152/003	Tributary	Amend	Amend definition of tributary to "A river or stream (of any order) that flows <u>over land</u> into a lake..."
Waa Rata Estate	S152/004	Map 13a: Rivers and lakes with significant indigenous ecosystems: high macroinvertebrate community health (Schedule F1)	Amend	Make the scale of the map legible so it is clear in localised areas what provisions apply.
Waa Rata Estate	S152/005	Map 13b: Rivers and lakes with significant indigenous ecosystems: habitat for indigenous threatened/at risk fish species (Schedule F1)	Amend	Make the scale of the map legible so it is clear in localised areas what provisions apply.

Waa Rata Estate	S152/006	Map 13c: Rivers and lakes with significant indigenous ecosystems: habitat for six or more migratory indigenous fish species (Schedule F1)	Amend	Make the scale of the map legible so it is clear in localised areas what provisions apply.
Waa Rata Estate	S152/007	Map 21e: Modelled river classes - Kapiti Coast catchments (Table 3.1)	Amend	Amend the colour scheme on the map to ensure the different classes are clearly distinguishable.
Waa Rata Estate	S152/008	Map 26: Surface water community drinking water supply protection areas (incorporates Schedule M1)	Amend	Make the scale of the map legible. Make it clear that only the areas specifically mapped as 'Surface Water community drinking water supply protection areas' are subject to the associated provisions.
Waa Rata Estate	S152/009	Erosion prone land	Amend	Reinstate the slope of greater than 28 degrees for erosion prone land (for the west of the region) as per the former Area 2 definition in the Regional Soil Plan.
Waa Rata Estate	S152/010	Schedule I: Important trout fishery rivers and spawning waters	Amend	Clarify that tributaries of Waikanae River are not included.
Waa Rata Estate	S152/011	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Amend	Clarify that tributaries of Waikanae River are not included.
Waa Rata Estate	S152/012	Natural wetland	Amend	Insert 'indigenous' into definition so that it reads '...supports a natural <u>indigenous</u> ecosystem of plants and animals...' Insert in subclause (a) damp gully heads, or wetted pasture, or pasture with patches of rushes <u>or exotic species adapted to wet conditions</u>
Waa Rata Estate	S152/013	Policy P30: Natural buffers	Amend	Change "wetlands" to "natural wetlands".

Waa Rata Estate	S152/014	Policy P48: Protection of outstanding natural features and landscapes	Amend	Delete 'natural wetlands'. Delete sub clause (b)
Waa Rata Estate	S152/015	Policy P33: Protecting indigenous fish habitat	Amend	Insert 'having regard to the nature of the water body's natural processes' at the end of the first sentence.
Waa Rata Estate	S152/016	Policy P37: Values of wetlands	Amend	Delete 'and adjacent to' from policy P37. Refine the definition of 'natural wetlands' [see submission point S152/012].
Waa Rata Estate	S152/017	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Amend	Amend the title to read "Policy P49: Use and development in the coastal marine area adjacent to outstanding natural features..."
Waa Rata Estate	S152/018	Policy P40: Ecosystems and habitats with significant indigenous biodiversity values	Amend	Amend the introduction to the policy to read: "Protect, restore <u>or maintain the high quality of</u> the following ecosystems and habitats..."
Waa Rata Estate	S152/019	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Amend	After the words 'shall avoid' insert <u>or maintain the high quality of</u> these ecosystems and habitats
Waa Rata Estate	S152/020	Policy P69: Human drinking water supplies	Amend	Amend Policy P69 as follows: ' The <u>More than minor</u> adverse effects from discharges... Where <u>such</u> adverse effects cannot be avoided...'

Waa Rata Estate	S152/021	Policy P95: Discharges to land	Amend	Amend Policy P95(f) to allow for water from the waterway to re-enter the same waterway.
Waa Rata Estate	S152/022	Policy P107: The framework for taking and using water	Amend	Expressly include in the framework for taking and using water: an individual's reasonable domestic needs; or the reasonable needs of an individual's animals for drinking water.
Waa Rata Estate	S152/023	Rule K.R1: Take and use of water in the Kapiti Coast Whaitua - restricted discretionary activity	Amend	Expressly include in the framework for taking and using water: an individual's reasonable domestic needs; or the reasonable needs of an individual's animals for drinking water.
Waa Rata Estate	S152/024	Policy P114: Priorities when demand exceeds supply	Support	Retain.
Waa Rata Estate	S152/025	Health needs of people	Support	Retain.
Waa Rata Estate	S152/026	Rule R1: Outdoor burning - permitted activity	Amend	Clarify the meaning in Rule R1 of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/027	Good management practice	Amend	Insert in the definition of 'Good management practice' that such practices are only a guide.
Waa Rata Estate	S152/028	Policy P101: Management of riparian margins	Amend	Amend point (a) to read: the exclusion of livestock <u>except to enable stock crossing points....</u> Insert new subclause <u>(d) to provide for appropriate construction and maintenance of appropriate tracks or access ways</u>
Waa Rata Estate	S152/029	2.1.6 Definitions, schedules and maps	Amend	Amend definition of "livestock exclusion" to clarify that it does not include a stock crossing point.

Waa Rata Estate	S152/030	Policy P102: Reclamation or drainage of the beds of lakes and rivers	Amend	Insert new subclause (h) to read: <u>(h) to maintain existing drains, or to repair or maintain existing roads, tracks or infrastructure</u> Delete 'natural wetlands' from the policy unless the definition of 'natural wetlands' is further refined not to include wet areas that include exotic species adapted to wet conditions.
Waa Rata Estate	S152/031	Gully	Amend	Amend the definition to provide greater specificity and clarify of what 'gully' means.
Waa Rata Estate	S152/032	Stock crossing point	Amend	Insert " <u>and is not a livestock exclusion area</u> " to the first sentence of the definition. Amend the definition to read: 'The locations on each [side of the surface water body] are <u>, where practicable, directly opposite each other</u> '
Waa Rata Estate	S152/033	Earthworks	Amend	Delete 'root raking'. Insert new subclauses (e) to include:(e) constructing or maintaining fences, and(f) maintaining existing accessways or tracks
Waa Rata Estate	S152/034	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Support	Retain.
Waa Rata Estate	S152/035	Rule R2: Frost prevention devices - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/036	Rule R7: Natural gas and liquefied petroleum gas - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/037	Rule R8: Diesel or kerosene - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.

Waa Rata Estate	S152/038	Rule R9: Biogas - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/039	Rule R10: Untreated wood - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/040	Rule R11: Coal, light fuel oil, and petroleum distillates - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/041	Rule R35: Drying and heating of minerals - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/042	Rule R36: Agrichemicals - permitted activity	Amend	Clarify the meaning of 'beyond the boundary of the property' (e.g. height above boundary) or 'noxious, offensive or objectionable'. Make any necessary consequential amendments to other rules.
Waa Rata Estate	S152/043	Specified materials	Amend	Add 'greenwaste' to the exclusion list in the definition.
Waa Rata Estate	S152/044	Rule R12: Emergency power generators - permitted activity	Support	Retain.
Waa Rata Estate	S152/045	Rule R36: Agrichemicals - permitted activity	Amend	Amend R36 to ensure that pest plants are permitted to be controlled in community water supply protection areas. Define 'public amenity area' [Rule R36(n)] to ensure it does not inadvertently include private land. Amend references to 'adjacent' to specify the distance set back (e.g. 20 metres) for discharges adjoining (rather than adjacent to) a sensitive area.

Waa Rata Estate	S152/046	Sensitive area	Amend	Amend the definition to exclude private land from (c) amenity areas and public places. Delete 'and associated riparian vegetation' [from (e)] and 'natural wetlands' [from (h)].
Waa Rata Estate	S152/047	Rule R37: Agrichemicals into water - permitted activity	Amend	Amend R37 to: <ul style="list-style-type: none"> • Clarify 'discharge of agrichemicals' is to a surface water body that flows over land as part of a tributary or main water body (ie not water bodies that disappear underground and do not connect with the main river trunk). • Add an exclusion where the discharge is to water where there is no surface water body that flows over land into a tributary of the community drinking water supply protection area. • Limit notification to just the regional council and not all consent holders or all persons with potable water supply. • Be clearer about the level of intensity [of discharge permitted]. • Make clear that 'public amenity area' does not inadvertently include private land.
Waa Rata Estate	S152/048	Rule R44: Pool and spa pool water - permitted activity	Amend	Replace 'a residential property' with 'an individual property'. Clarify R44(a) relates only to sites that are specifically mapped in the Proposed Regional Plan. It does not mean discharges on to land near a possible site/habitat or near a mapped site.
Waa Rata Estate	S152/049	Rule R48: Stormwater from an individual property - permitted activity	Amend	Clarify that water travelling through culverts for the purposes of farm tracks is not stormwater. Clarify that (e)(i) relates only to sites that are specifically mapped in the Proposed Regional Plan. It does not mean discharges on to land near a possible site/habitat or near a mapped site.
Waa Rata Estate	S152/050	Rule R53: All other stormwater - discretionary activity	Amend	Clarify that water travelling through culverts for the purposes of farm tracks is not stormwater.

Waa Rata Estate	S152/051	Stormwater	Amend	Exclude water travelling through culverts for the purposes of farm tracks from definition of 'stormwater'
Waa Rata Estate	S152/052	Rule R67: Discharges inside sites of significance - non complying activity	Amend	Amend to ensure more specificity about the circumstances of the discharge (eg scale, frequency, intensity and quality of contaminants by the time it leaves the property in which it is discharged and when it arrives at the site or habitat identified in various schedules). Redraft rule to avoid use of 'may'. Clarify that (a) relates only to sites that are specifically mapped in the Proposed Regional Plan. It does not mean discharges on to land near a possible site/habitat or near a mapped site.
Waa Rata Estate	S152/053	Rule R68: All other discharges - discretionary activity	Amend	Make any consequential amendments arising from requested changes to R68 [see submission point S152/052].
Waa Rata Estate	S152/054	Rule R69: Minor contaminants - permitted activity	Support	Retain.
Waa Rata Estate	S152/055	Rule R70: Cleanfill material - permitted activity	Amend	Delete subclause (f) specifying a volume of 100m ³ . Amend (g) so that situations where the material is sourced and deposited within the same property are exempt the requirement to record cleanfill information.
Waa Rata Estate	S152/056	Rule R71: Pit latrine - permitted activity	Amend	Delete reference to 'gully'. Amend map scale [Map 26, 27a-c. See submission point S152/008] to show the 'community drinking water supply protection area' at a local level so it is clear where rules apply.
Waa Rata Estate	S152/057	Rule R72: Composting toilets - permitted activity	Support in part	Delete 'gully' from subclause R72(c).

Waa Rata Estate	S152/058	Rule R73: Greywater - permitted activity	Support	Retain.
Waa Rata Estate	S152/059	Rule R74: Existing on-site wastewater systems - permitted activity	Amend	Permit replacement of the on-site domestic wastewater treatment and discharge system if it provides the same or better quality wastewater treatment discharges.
Waa Rata Estate	S152/060	Rule R75: New or upgraded on-site wastewater systems - permitted activity	Amend	Delete 'gully' from (e)(i). Permit replacement of an existing system in a community drinking water supply protection area if it provides the appropriate level of wastewater treatment
Waa Rata Estate	S152/061	Rule R76: New or upgraded on-site wastewater systems within community drinking water supply protection areas - controlled activity	Amend	Delete 'gully'. Amend map scale to show the 'community drinking water supply protection area' [Map 26, 27a-c. See submission point S152/008] at a local level so it is clear where rules apply. Permit replacement of an existing system in a community drinking water supply protection area if it provides the appropriate level of wastewater treatment.
Waa Rata Estate	S152/062	Rule R77: Application of Aa biosolids to land - permitted activity	Amend	Clarify the meaning of AA, Ab, Ba, and Bb biosolids so lay people know what they are. Exclude wastewater from domestic on-site treatment systems from rules R77 and R78.
Waa Rata Estate	S152/063	Rule R78: Application of biosolids (Ab, Ba, or Bb) to land - restricted discretionary activity	Amend	Clarify the meaning of AA, Ab, Ba, and Bb biosolids so lay people know what they are. Exclude wastewater from domestic on-site treatment systems from rules R77 and R78.

Waa Rata Estate	S152/064	Rule R79: Discharge of treated wastewater - controlled activity	Amend	Permit discharge of treated wastewater if it meets a certain standard within the community drinking water supply protection area. Amend map scale to show the 'community drinking water supply protection area' [Map 26, 27a-c. See submission point S152/008] at a local level so it is clear where rules apply
Waa Rata Estate	S152/065	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Support in part	Insert in (a) the words: <u>every reasonable endeavour is made to ensure</u> the discharge is not onto or into a surface water body...
Waa Rata Estate	S152/066	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Amend	Clarify that subclause (d) involves the concentration of animals in a confined area at intervals of high frequency or for extended periods Exclude woolsheds. Permit the use of manure on gardens in community drinking water supply protection area.
Waa Rata Estate	S152/067	Compost	Amend	Clarify that sheep manure is a stabilised product.
Waa Rata Estate	S152/068	Rule R87: Land-based discharge of vertebrate toxic agents - permitted activity	Support	Retain.
Waa Rata Estate	S152/069	Rule R88: Aerial application of vertebrate toxic agents - controlled activity	Support	Retain.
Waa Rata Estate	S152/070	Rule R89: Farm refuse dumps - permitted activity	Amend	Permit waste materials generated onsite to be disposed of onsite.

Waa Rata Estate	S152/071	Rule R91: Offal pit - permitted activity	Amend	Delete 'gully' from R91(b). Delete subclause (c) that limits the offal pit to two soil types.
Waa Rata Estate	S152/072	Rule R92: All discharges to land within community drinking water protection areas - restricted discretionary activity	Support in part	Restricted discretionary activity status is supported.
Waa Rata Estate	S152/073	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Amend	Delete subclause (d)(v). Provide substantially longer periods to limit stock access for areas where there are long stretches of surface water bodies relative to property size and include transition methods, e.g. provision of alternative stock water supply.
Waa Rata Estate	S152/074	Rule R98: Livestock access to the beds of surface water bodies - discretionary activity	Amend	Provide a scale and intensity threshold under which livestock are permitted to access the bed of surface water bodies (for example on low intensity farms, lifestyle blocks, or residential properties).
Waa Rata Estate	S152/075	Rule R99: Earthworks- permitted activity	Amend	Exclude earthworks to construct and maintain farm tracks from the volume restriction to ensure such works are permitted.
Waa Rata Estate	S152/076	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Amend	Remove the hectare restrictions for vegetation clearance if this is already covered in district plans. If it is not already covered in all district plans then align the rule to the permitted area for forestry harvest in the Kapiti Coast District Plans (i.e. 10 hectares).
Waa Rata Estate	S152/077	Rule R102: Plantation forestry harvesting on erosion prone land - permitted activity	Amend	Permit plantation forestry harvesting without submitting a harvest plan if it is less than 10 hectares in area .

Waa Rata Estate	S152/078	Rule R103: Plantation forestry harvesting - controlled activity	Support in part	[Ensure that plantation forestry provisions are not duplicated between district and regional plans.]
Waa Rata Estate	S152/079	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Amend	Amend the subclause (j) to read 'only hand-held machinery is used in any area of significant natural wetland, or outstanding natural wetland'. Or alternatively delete the subclause (j) 'only hand-held machinery is used in any area of the wetland...'
Waa Rata Estate	S152/080	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Amend	Remove requirement for the restoration management plan to be approved by Council and allow other parties to endorse the plans such as Queen Elizabeth II Trust, Department of Conservation, Iwi authorities of the rohe (if they wish), suitably qualified Ecologists, relevant district councils, or other relevant parties.
Waa Rata Estate	S152/081	Rule R121: Maintenance of drains - permitted activity	Amend	Delete the provisions or amend them to be practical in application.
Waa Rata Estate	S152/082	Rule R122: Removing vegetation - permitted activity	Amend	Amend conditions (f), (g), (l) and (m). We recommend it workshopping these provisions with people who would be carrying out the activity.
Waa Rata Estate	S152/083	Rule R124: Entry or passage over bed (excluding livestock access) - permitted activity	Support	Retain.

Waikanae Christian Holiday Park (El Rancho)	S346/035	Objective O3: Mauri	Amend	Amend Objective O3:Mauri is sustained and <u>where possible/identified</u> enhanced <u>over time</u> , particularly the mauri of fresh and coastal waters.
Waikanae Christian Holiday Park (El Rancho)	S346/036	Objective O9: Recreational values	Amend	Amend O9: The recreational values of the coastal marine area, rivers and lakes and their margins and natural wetlands are maintained and <u>where possible/identified</u> enhanced <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/037	Objective O11: Maori customary use	Amend	Amend O11: Opportunities for Māori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and <u>where possible/identified</u> [enhanced] improved <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/038	Objective O23: Maintain or improve water quality	Amend	Amend O23 The quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained <u>and where possible/identified</u> or improved <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/039	Objective O28: Extent of wetlands	Amend	Amend O28The extent of natural wetlands is maintained or <u>where possible/identified</u> increased and their condition is restored <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/040	Objective O29: Fish passage	Amend	Amend O29Use and development provides for the passage of fish and koura, and <u>where possible/identified</u> the passage of indigenous fish and koura is restored <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/041	Objective O30: Trout	Amend	Amend O30 The habitat of trout identified in Schedule I (trout habitat) is maintained and <u>where possible/identified</u> improved [restored] <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/042	Objective O33: Significant mana whenua values	Amend	Amend O33 Sites with significant <u>The values of mana whenua</u> values sites are <u>recognised and provided for</u> [p-rotected and restored] <u>[and where possible/identified] restored over time</u>

Waikanae Christian Holiday Park (El Rancho)	S346/043	Objective O35: Significant indigenous biodiversity values	Amend	Amend O35 Ecosystems and habitats with significant indigenous biodiversity values are protected and <u>where possible/identified</u> restored <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/044	Objective O38: Special amenity landscapes	Amend	Amend O38 Identified special amenity landscape values are maintained <u>and where possible/identified</u> [or] enhanced <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/045	Policy P17: Mauri	Amend	Amend P17 The mauri of fresh and coastal waters shall be recognised as being important to Māori by...: (b) providing for activities that sustain and <u>where possible/identified</u> enhance mauri <u>over time</u> , and...
Waikanae Christian Holiday Park (El Rancho)	S346/046	Policy P38: Restoration of wetlands	Amend	Amend P38 The restoration of natural wetlands and the construction of artificial wetlands to provide habitat for indigenous flora and fauna, and to carry out the physical and ecological functions of natural wetlands, shall be encouraged <u>where possible/identified</u> , <u>over time</u> .
Waikanae Christian Holiday Park (El Rancho)	S346/047	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Amend P44 <u>The values of mana whenua sites are recognised and provided for and where possible/identified restored over time.</u> Sites with significant mana whenua values identified in Schedule C (mana whenua) shall be protected and/or restored.
Waikanae Christian Holiday Park (El Rancho)	S346/062	Rule R48: Stormwater from an individual property - permitted activity	Amend	Delete R48. If retained, submitter requests that Rule 48(a) be deleted relating to discharges in Schedule A sites. If retained in current form, submitter requests that any resource consents required under this rule be a restricted discretionary activity with discretion reserved to the effects on scheduled site.

Waikanae Christian Holiday Park (El Rancho)	S346/075	Rule R136: Take and use of water - permitted activity	Amend	Amend Rule to return to the limits set under the Operative Regional [freshwater] plan until the Whaitua process identifies which water bodies have been over allocated.
Waikanae Christian Holiday Park (El Rancho)	S346/079	Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values	Amend	Amend P42: In order to protect the ecosystems and habitats with significant indigenous biodiversity values identified in Policy P40, particular regard shall be given to managing the adverse effects of use and development in surrounding areas on physical, chemical and biological processes to: (a) maintain ecological connections within and between these habitats, or (b) provide for the enhancement of ecological connectivity between fragmented habitats through biodiversity offsets, and (c) provide adequate buffers around ecosystems and habitats with significant indigenous biodiversity values, and (d) avoid cumulative adverse effects on, and the incremental loss of the values of these ecosystems and habitats.
Waikanae Christian Holiday Park (El Rancho)	S346/080	Objective O9: Recreational values	Amend	Amend O9: The recreational values of the coastal marine area, rivers, lakes and their margins and natural wetlands are maintained and <u>where possible, enhanced, over time.</u>
Waikanae Christian Holiday Park (El Rancho)	S346/081	Objective O11: Maori customary use	Amend	Amend O11: Opportunities for Maori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and <u>where possible, improved, over time.</u>
Waikanae Christian Holiday Park (El Rancho)	S346/082	Objective O23: Maintain or improve water quality	Amend	Amend O23: The quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained, <u>or where possible, improved, over time.</u>

Waikanae Christian Holiday Park (El Rancho)	S346/083	Policy P3: Precautionary approach	Amend	Amend P3: Use and development shall be managed with a precautionary approach where there is limited information regarding the <u>risk of adverse effects the activity may have on this environment may be both high and likely to occur.</u>
Waikanae Christian Holiday Park (El Rancho)	S346/084	Objective O47: Sediment runoff	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time.</u>
Waikanae Christian Holiday Park (El Rancho)	S346/085	Policy P20: Exercise of kaitiakitanga	Amend	Amend P20: (a) managing natural and physical resources in sites with significant [manage] mana whenua values listed in Schedule C (mana whenua) in accordance with tikanga and kaupapa Maori as exercised by mana whenua, <u>where possible</u> ...
Waikanae Christian Holiday Park (El Rancho)	S346/086	Policy P35: Restoring fish passage	Amend	Amend P35: The passage of indigenous fish and koura shall be restored, <u>over time</u> , where this is appropriate for the management and protection of indigenous fish and koura populations.
Waikanae Christian Holiday Park (El Rancho)	S346/087	Policy P38: Restoration of wetlands	Amend	Amend P38: The restoration of natural wetlands and the construction of artificial wetlands to provide habitat for indigenous flora and fauna, and to carry out the physical and ecological functions of natural wetlands, shall be encouraged <u>where possible, and supported by local and regional government.</u>
Waikanae Christian Holiday Park (El Rancho)	S346/088	Objective O38: Special amenity landscapes	Oppose	Delete O38.

Waikanae Christian Holiday Park (El Rancho)	S346/089	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Amend	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes Use and development in the coastal marine area on sites adjacent to an outstanding natural feature or landscape or special amenity landscape identified in a district plan shall be managed by:...
Wainuiomata Rural Community Association	S164/001	Schedule F1: Rivers and lakes with significant indigenous ecosystems	Amend	We suggest that either: a) the streams and tributaries be named, either by the common name or the name given by the property owner; or b) the streams and tributaries of each river system be mapped separately so land owners can clearly identify which ones are on their property; or c) the table notes the property titles that the streams and tributaries are located on, again for ease of identification.
Wainuiomata Rural Community Association	S164/002	Rule R42: Minor discharges - permitted activity	Amend	We suggest that "contaminant" is defined. At present, "contaminated land" is defined as is "hazardous substances". However it is unclear whether contaminant is a separate category. We also recommend that evidence be provided as to why these particular measures (50 g/m ³ and 100g/m ³) have been chosen and suggest that a sliding scale would be more effective.
Wainuiomata Rural Community Association	S164/003	Rule R70: Cleanfill material - permitted activity	Amend	This could be clarified in the definition of clean fill material. The current definition includes clay, soil and rock. We suggest the definition specifically excludes "river gravels" to avoid confusion. We also suggest that it be made clear whether amount of clean fill material that can be discharged under this rule is an annual amount.
Wainuiomata Rural Community Association	S164/004	Rule R75: New or upgraded on-site wastewater systems - permitted activity	Support	[Not stated]

Wainuiomata Rural Community Association	S164/005	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	<p>We believe it is important to ensure that fertiliser application is done according to best practise so recommend that sub clause (a) is replaced by sub clause (b) from Rule 20 in the previous draft. [see full submission for draft of Rule R82]</p> <p>Another way to achieve the purpose that we all wish to achieve, preventing large amounts of fertiliser entering our waterways, would be to link this Rule to Rule 42.</p>
Wainuiomata Rural Community Association	S164/006	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	<p>In our previous submission, we suggested that in terms of the rules for cultivation, tilling, as well as break feeding (Rule 95- break feeding- permitted activity) "drains" that are man made are excluded from the definition of a surface water body. We still consider this would be the most effective method and would be consistent with the RMA which does not include "drains", for example, in the definition of "river".</p> <p>Another way this could be addressed would be by including the following: (g) all reasonable steps shall be taken to minimise the generation and release of sediment and the discharge of any sediment. We also suggest that a distinction be made between horticulturalists, who may till the soil more frequently, and farmers. The same clause appears in Rule R95.</p>
Wainuiomata Rural Community Association	S164/007	Rule R119: Clearing flood debris and beach recontouring - permitted activity	Amend	<p>We suggest that this be reworded "to a depth no greater than it was prior to the flood event" to allow for situations when the build-up of debris as result of a flood event is greater than metre.</p>
Wainuiomata Rural Community Association	S164/008	Rule R121: Maintenance of drains - permitted activity	Oppose	<p>We would like to discuss with you the proposition that instead of stipulating how the farmer must clear his man made drains, the rule should state that when it is the landowner's responsibility, whether maintaining or clearing a drain, that the land owner must ensure that any outflow into a category 2 waterways meet Greater Wellington's measures that are used as provided for in other rules and in the general conditions.</p>

Wainuiomata Rural Community Association	S164/009	5.4.3 Livestock exclusion	Support	We would like to thank the Council and officers for the way in which they took pains to understand the issues from our community's point of view and who came up with a solution that we can all work with.
Wairarapa Regional Irrigation Trust	S127/001	1.5.1 Statutory framework	Amend	Change reference in paragraph 5, p9, from limits to objectives.
Wairarapa Regional Irrigation Trust	S127/002	Artificial farm drainage canal	Amend	Clarify what is meant [in the note to the definition].
Wairarapa Regional Irrigation Trust	S127/003	Minimum flow or water level	Amend	Amend to clarify what the 'interim' minimum flow refers to.
Wairarapa Regional Irrigation Trust	S127/004	Surface water body	Amend	Amend to add new a [a](iv) "electricity generation".
Wairarapa Regional Irrigation Trust	S127/005	Objective O6: Health needs of people	Support	Support
Wairarapa Regional Irrigation Trust	S127/006	Objective O8: Allocation regime	Amend	Amend to add the words "in the management of water quality and" before "within"
Wairarapa Regional Irrigation Trust	S127/007	Objective O19: Natural processes	Amend	Amend objective to refer to minimisation of adverse effects on natural processes
Wairarapa Regional Irrigation Trust	S127/008	Objective O23: Maintain or improve water quality	Amend	Amend Objective to line up with the NPSFM: The <u>overall</u> quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained or improved.
Wairarapa Regional Irrigation Trust	S127/009	Objective O24: Contact recreation and Maori customary use	Amend	Amend (a) to refer to maintaining overall water quality.

Wairarapa Regional Irrigation Trust	S127/010	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Amend to clarify the level of ecological health restoration sought to be encouraged. Amend Table 3.4 to provide a measurable environmental outcome over the life of the Plan whose benefits and costs can properly be evaluated under 32 to demonstrate that the benefits exceed the costs over time. Amend to make it clear if O25(c) is intended to be aspirational only insofar as it incorporates periphyton and MCI values for rivers and streams on the Wairarapa plains, and/or substitute qualitative environmental outcomes for the numerical values currently in Table 3.4.
Wairarapa Regional Irrigation Trust	S127/011	Objective O29: Fish passage	Amend	Amend the objective to read as follows: "Use and development maintains the health of fish and koura populations where their free passage is impeded, including through restoration of fish and koura passage where barriers to such passage currently exist"
Wairarapa Regional Irrigation Trust	S127/012	Objective O31: Outstanding water bodies	Amend	Amend objective to read as follows: "Protect the significant values of outstanding water bodies"
Wairarapa Regional Irrigation Trust	S127/013	Objective O35: Significant indigenous biodiversity values	Amend	Amend objective to read as follows: "Protect the significant indigenous biodiversity values of ecosystems and habitats, where they currently exist."
Wairarapa Regional Irrigation Trust	S127/014	Objective O52: Efficient allocation	Amend	Amend 052 (e) as follows: enabling water storage outside river beds. Otherwise support.
Wairarapa Regional Irrigation Trust	S127/015	Policy P3: Precautionary approach	Amend	Amend Policy P3 to read: "A precautionary approach to management of the nature, scale and speed of use and development where there is limited information available and the potential for significant adverse effects".
Wairarapa Regional Irrigation Trust	S127/016	Policy P4: Minimising adverse effects	Amend	Amend policy: Where minimisation of adverse effects is required by policies in the Plan minimisation means reducing adverse effects of the activity to the smallest amount practicable <u>having regard to the nature and objectives of the activity</u> and shall include:...."

Wairarapa Regional Irrigation Trust	S127/017	Policy P6: Synchronised expiry and review dates	Amend	Amend to define what is meant by "integrated solution".
Wairarapa Regional Irrigation Trust	S127/018	Policy P7: Uses of land and water	Support	Support
Wairarapa Regional Irrigation Trust	S127/019	Policy P11: In-stream water storage	Amend	Amend policy as follows: In stream w <u>Water storage</u> The benefits associated with the damming and storing of water within the bed of a river are recognised when: ...
Wairarapa Regional Irrigation Trust	S127/020	Policy P31: Aquatic ecosystem health and mahinga kai	Amend	Amend Policy P31 (e) as follows: Avoid creating <u>Manage proposals that involve</u> barriers to the migration or movement of indigenous aquatic species <u>consistently with the process outlined in Policy 32</u> , and restore the connections between fragmented aquatic habitats where appropriate, and
Wairarapa Regional Irrigation Trust	S127/021	Policy P33: Protecting indigenous fish habitat	Amend	Amend the opening words of P33 as follows:The more than minor adverse effects of activities on the species known to be present in any water body identified in Schedule F1 (rivers/lakes) as habitat for indigenous fish species, and Schedule F1b (inanga spawning habitats), particularly at the relevant spawning and migration times identified in Schedule F1a (fish spawning/migration) for those species, shall be avoided <u>minimised consistently with the process to be followed in P32...</u>
Wairarapa Regional Irrigation Trust	S127/022	Policy P34: Fish passage	Amend	Amend P34 as follows: <u>Manage</u> the construction or creation of new barriers to the passage of fish and koura species shall be avoided <u>consistently with the process outlined in Policy 32.</u>
Wairarapa Regional Irrigation Trust	S127/023	Policy P39: Adverse effects on outstanding water bodies	Amend	Amend objective to read as follows:"Protect the significant values of outstanding water bodies as identified in Schedule A"

Wairarapa Regional Irrigation Trust	S127/024	Policy P40: Ecosystems and habitats with significant indigenous biodiversity values	Support	Support
Wairarapa Regional Irrigation Trust	S127/025	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Support	Support P41
Wairarapa Regional Irrigation Trust	S127/026	Policy P65: Minimising effects of nutrient discharges	Amend	Add a Note to this policy, as follows;"It is intended that nutrients ultimately entering water as a result of stock grazing are managed under landuse policies (P96) rather than this and other policies governing discharges of contaminants to land."
Wairarapa Regional Irrigation Trust	S127/027	Policy P96: Managing land use	Support	Support.
Wairarapa Regional Irrigation Trust	S127/028	Policy P105: Protecting trout habitat	Amend	Protecting trout habitat - Particular regard shall be given to the protection of trout habitat in rivers with important trout habitat identified in Schedule I (trout habitat) <u>by managing t</u> The effects of use and development in and around these rivers shall be managed to: a) maintain or improve water quality in accordance <u>consistently</u> with the objectives in Table 3.4 and Table 3.5 of Objective O25 <u>related to water quality</u> , and b) <u>to</u> minimise changes in flow regimes that would otherwise prevent trout from completing their life cycle, and c) maintain <u>to minimise any significant loss of</u> the amount of pool, run and riffle habitat, and d) maintain <u>to minimise loss of</u> fish passage for trout, and e) <u>to</u> minimise <u>significant</u> adverse effects on the beds of trout spawning waters identified in Schedule I (trout habitat).

Wairarapa Regional Irrigation Trust	S127/029	4.9 Taking, using, damming and diverting water	Amend	<p>Add a new policy to section 4.9, worded along the following lines:"Policy xxx: Take and Use of Stored WaterIn the situation where water is stored in a storage reservoir as part of a scheme for storage and supply of water pursuant to a resource consent authorising damming, diversion and/or taking of water for that purpose:</p> <p>Subsequent take and use of the stored water, including the take of water by the consent holder or any person authorised by the consent holder from any watercourse into which the stored water has been discharged shall constitute a tertiary allocation of water not subject to Policies 111-127 inclusive or to the policies in sections 7-11 inclusive of this Plan;Policies 111-112 and the policies in sections 7-11 inclusive of this Plan shall apply to takes of water other than by the consent holder or persons authorised by the consent holder on the basis of the water flows and levels that would have occurred without the operation of the water supply scheme, as assessed by Greater Wellington Regional Council."Add a new definition to section 2.2 as follows:Tertiary allocation: an amount of water stored pursuant to resource consents authorising the damming, diverting and/or taking of water and available for the consent holder or persons authorised by the consent holder to subsequently take and use.</p>
Wairarapa Regional Irrigation Trust	S127/030	Rule R.R1: Take and use of water in the Ruamahanga Whaitua - restricted discretionary activity	Amend	Amend Rule R.R1 (c)(ii) to read:(ii) <u>A minimum of 50%</u> of the river flow above the median flow remains in the river.

Wairarapa Regional Irrigation Trust	S127/031	Rule R.R3: Take and use of water that exceeds minimum flows, lake levels or core allocation - prohibited activity	Amend	<p>Amend the opening words of Rule R.R3 to read: <u>" Except in the case of take and use of stored water pursuant to Rule R.R1A the take and use of water from any river....."</u></p> <p>Add new Rule R.R1A as follows: Rule R.R1A; Take and Use of Stored Water in the Ruamāhanga Whaitua- Restricted Discretionary Activity The take and use of water from any river (including tributaries) or lake in the Ruamāhanga River catchment that has previously been stored for use as part of a water supply scheme pursuant to resource consents authorising damming, diverting and/or taking of water for that purpose is a restricted discretionary activity, provided the following conditions are met: a) The take of previously stored water shall be by the holder of the resource consents for the relevant water supply scheme; or a person authorised in writing by the holder of those resource consents and advised to Greater Wellington Regional Council. Matters for Discretion 1. The reasonable and efficient use of water, including the criteria in Schedule Q (efficient use) 2. Preventing fish from entering water intakes; 3. Measuring and reporting, including the guideline in Schedule S (measuring takes)</p>
Wairarapa Regional Irrigation Trust	S127/032	Rule R.R2: Taking and using water - discretionary activity	Amend	Amend Rule R.R2 as follows: <u>The take and use of water in the Ruamāhanga Whaitua <u>not meeting the conditions of Rule R.R1A</u> from:.....</u>
Wairarapa Regional Irrigation Trust	S127/033	Schedule G: Principles to be applied when proposing and considering mitigation and offsetting in relation to biodiversity	Amend	Amend Principle 2(a) as follows:"where the values of that area are highly vulnerable or irreplaceable, or"
Wairarapa Regional Irrigation Trust	S127/034	Schedule I: Important trout fishery rivers and spawning waters	Amend	Amend to clarify and correct

Wairarapa Regional Irrigation Trust	S127/035	Schedule R: Guideline for stepdown allocations	Amend	Amend the first paragraph as follows: "When <u>natural</u> flows are low, stepdown allocations may be included as conditions of resource consent <u>not involving take and use of previously stored water as part of a water supply scheme</u> when rivers approach minimum flows.
Wairarapa Water User's Incorporated Society	S124/001	Category A groundwater	Amend	Amend [definition of directly connected]: <u>Ground water in the bore is at the same level as the water in the river and moves up and down with the level of the river.</u>
Wairarapa Water User's Incorporated Society	S124/002	Regionally significant infrastructure	Amend	Add after treatment plants: water race networks and facilities for the irrigation of pasture and crops.
Wairarapa Water User's Incorporated Society	S124/003	Unused water	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/004	Objective O8: Allocation regime	Amend	Amend Objective O8: "the social, <u>agricultural, industrial,</u> cultural and environmental benefits of taking and using water for current uses and also for future needs are recognised and provided for within the Plan's allocation framework"
Wairarapa Water User's Incorporated Society	S124/005	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Wairarapa Water User's Incorporated Society	S124/006	Objective O52: Efficient allocation	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Wairarapa Water User's Incorporated Society	S124/007	Policy P7: Uses of land and water	Amend	Add "diffuse contaminants" to (b). Retain (h).

Wairarapa Water User's Incorporated Society	S124/008	Policy P11: In-stream water storage	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/009	Schedule P: Classifying and managing groundwater and surface water connectivity	Amend	[Amend Policy P107]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence"Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Wairarapa Water User's Incorporated Society	S124/010	Policy P107: The framework for taking and using water	Amend	[Amend]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence" Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Wairarapa Water User's Incorporated Society	S124/011	Policy P109: Lapse dates affecting water takes	Support	Support Policy P109.
Wairarapa Water User's Incorporated Society	S124/012	Policy P111: Water takes at minimum flows and water levels	Amend	<u>Category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows following a period of 10 days of continuous river levels at minimum flow.</u>
Wairarapa Water User's Incorporated Society	S124/013	Rule R135: General rule for taking, use, damming and diverting water - discretionary activity	Amend	Make Rule R135 restricted discretionary.
Wairarapa Water User's Incorporated Society	S124/014	Policy P115: Authorising takes below minimum flows and lake levels	Amend	Amend Policy P115 (d) category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows <u>following a period of 10 days of continuous river levels at minimum flow.</u> Delete (c)(i)

Wairarapa Water User's Incorporated Society	S124/015	Policy P116: Reallocating water	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/016	Policy P117: Supplementary allocation amounts at flows above the median flow	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/017	Policy P118: Reasonable and efficient use	Amend	Amend Policy P118 to read "while existing users replacing existing resource consents have a period of four years from the date of the plan being made operative <u>renewal of consent to meet the criteria.</u>
Wairarapa Water User's Incorporated Society	S124/018	Policy P119: Unused water	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/019	Policy P120: Taking water for storage	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/020	Policy P128: Transfer of resource consents	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/021	Rule R137: Farm dairy washdown and milk-cooling water - permitted activity	Amend	Amend Rule R137 clause (b) by deleting words after "property...".
Wairarapa Water User's Incorporated Society	S124/022	Rule R143: Temporary water permit transfers - controlled activity	Amend	Amend Rule R143 to be a permitted activity and not a controlled activity.

Wairarapa Water User's Incorporated Society	S124/023	Rule R144: Transferring water permits - restricted discretionary activity	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/024	Method M13: Wairarapa water races	Amend	Insert after cultural values " <u>and economic values</u> of the Wairarapa water races..."
Wairarapa Water User's Incorporated Society	S124/025	Method M18: Water use groups	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/026	Methods 19: Water management	Amend	Amend Method 19 (d) <u>quantify costs and benefits of water races and explore alternatives.</u>
Wairarapa Water User's Incorporated Society	S124/027	Method M28: Development of good management practice guidelines.	Support	Retain.
Wairarapa Water User's Incorporated Society	S124/028	Policy R.P3: Cumulative effects on river reaches of allocating water	Support	Insert after adverse effects: <u>that are measured</u> on aquatic...
Wairarapa Water User's Incorporated Society	S124/029	7 Ruamahanga Whaitua	Oppose	Do not include Figures 7.3-7.8 in the plan until categories have been verified. Change the allocation amounts in Tables 7.3-7.5 to what is currently allocated or more if spare water has been identified.
Wairarapa Water User's Incorporated Society	S124/030	Schedule P: Classifying and managing groundwater and surface water connectivity	Oppose	Needs empirical calibration by GW.

Wairarapa Water User's Incorporated Society	S124/031	Schedule Q: Reasonable and efficient use criteria	Oppose	Remove sentence "the model must reliably predict annual irrigation volume within an accuracy of 15%" Add after field validated model: <u>for Wairarapa conditions</u> In (a) add after 80%: <u>where practicable</u>
Wairarapa Water User's Incorporated Society	S124/032	Schedule R: Guideline for stepdown allocations	Amend	Add after health needs of people: <u>stock drinking water and rootstock protection</u> . [Acknowledge Table R1 is interim; consult with water users on further changes]
Wairarapa Water User's Incorporated Society	S124/033	Category A groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Wairarapa Water User's Incorporated Society	S124/034	Policy P6: Synchronised expiry and review dates	Support in part	Retain and add (c) "consents will run for a period of 25 years"
Wairarapa Water User's Incorporated Society	S124/035	5.6.3 Transferring water permits	Amend	[Make transferring water a permitted activity]
Wairarapa Water User's Incorporated Society	S124/036	Category B groundwater (not directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Wairarapa Water User's Incorporated Society	S124/037	Category B groundwater (directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Wairarapa Water User's Incorporated Society	S124/038	Category C groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>

Wairarapa Winegrowers Association	S103/001	5.1.2 Outdoor Burning	Support	Retain
Wairarapa Winegrowers Association	S103/002	Rule R36: Agrichemicals - permitted activity	Support in part	Delete Rule R36 conditions (g) to (o)
Wairarapa Winegrowers Association	S103/003	Rule R2: Frost prevention devices - permitted activity	Support	Retain
Wairarapa Winegrowers Association	S103/004	Rule R36: Agrichemicals - permitted activity	Oppose in part	Include a separate permitted activity rule with appropriate conditions for ground based and aerial applications of agrichemicals in residential areas and hand/held knapsack applications and any other consequential amendments.
Wairarapa Winegrowers Association	S103/005	Rule R85: Application of compost to land - permitted activity	Support	Retain
Wairarapa Winegrowers Association	S103/006	Rule R86: Application of compost to land - restricted discretionary activity	Support	Retain
Wairarapa Winegrowers Association	S103/007	Rule R85: Application of compost to land - permitted activity	Amend	Insert a new Rule providing for the discharge of winery wastewater system sludge to land subject to appropriate conditions as a permitted activity.

Wairarapa Winegrowers Association	S103/008	Rule R80: Discharge of treated wastewater - restricted discretionary activity	Amend	Submitter has requested three additional rules for the discharge of viticulture and horticulture liquid wastes. See submission (S103) for full details.
Wairarapa Winegrowers Association	S103/009	Rule R90: Manufacture and storage of silage and compost - permitted activity	Amend	Amend Rule 90(c) as follows: (c) stormwater <u>runoff</u> is prevented from entering into the manufacture or storage area, and Leave Rule R90(d) unchanged.
Warren Bryant	S151/001	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Warren Bryant	S151/002	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Warren Bryant	S151/003	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Warren Bryant	S151/004	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.
Warren Bryant	S151/005	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.

Warren Bryant	S151/006	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Warren Bryant	S151/007	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Warren Bryant	S151/008	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Warren Bryant	S151/009	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks
Warren Bryant	S151/010	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Warren Bryant	S151/011	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Warren Bryant	S151/012	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Warren Bryant	S151/013	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Warren Bryant	S151/014	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Warren Bryant	S151/015	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Warren Bryant	S151/016	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Warren Bryant	S151/017	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.

Warren Bryant	S151/018	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Warren Bryant	S151/019	Silage	Oppose	Change definition to specify this does not include baleage.
Warren Bryant	S151/020	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Warren Bryant	S151/021	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Warren Bryant	S151/022	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Warren Bryant	S151/023	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Warren Bryant	S151/024	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Warren Bryant	S151/025	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Warren Bryant	S151/026	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.

Warren Bryant	S151/027	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Warren Bryant	S151/028	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Warren Bryant	S151/030	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Warren Bryant	S151/031	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Warren Bryant	S151/032	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".
Warren Bryant	S151/033	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Warren Bryant	S151/034	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Warren Bryant	S151/035	Rule R115: Culverts - permitted activity	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Warren Bryant	S151/036	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Warren Bryant	S151/037	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m ³ to 100m ³ . Heavily prune the fourteen other conditions to focus on clear effects.
Warren Bryant	S151/038	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Warren Bryant	S151/039	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Warren Bryant	S151/040	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Warren Bryant	S151/041	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Warren Bryant	S151/042	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].
Warwick Stanley Wyatt	S63/001	Entire Plan	Oppose	Revise all provisions of the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, particularly in relation to areas of significant existing development.
Warwick Stanley Wyatt	S63/002	3.4 Natural character, form and function	Amend	Revise all provisions of the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, particularly in relation to areas of significant existing development.
Warwick Stanley Wyatt	S63/003	3.4 Natural character, form and function	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.

Warwick Stanley Wyatt	S63/004	4.4 Natural form and function	Amend	Include policies that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
Warwick Stanley Wyatt	S63/005	3.4 Natural character, form and function	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
Warwick Stanley Wyatt	S63/006	4.4 Natural form and function	Amend	Include policies that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
Warwick Stanley Wyatt	S63/007	5.7.6 Seawalls	Amend	Provide for appropriate coastal hazard mitigation activities (including protection) as permitted or controlled activities.
Warwick Stanley Wyatt	S63/008	5.7.6 Seawalls	Amend	Provide for coastal hazard mitigation activities (including protection) to be no greater than discretionary activities and ensure that no coastal hazard mitigation activity is non-complying or prohibited.
Warwick Stanley Wyatt	S63/009	3.4 Natural character, form and function	Amend	Revise the PNRP to clarify that, in contrast to risk management, hazard identification/risk assessment is an objective process and that any scientific or expert reports are to be scientific and objective (not policy-based or precautionary) and report not only likely estimates but also their uncertainties, to enable submitters to participate in an informed way and to enable decision-makers to make informed decisions.
Warwick Stanley Wyatt	S63/010	Entire Plan	Amend	Ensure that the provisions of the PNRP comply with the RMA 1991, NZCPS and RPS.
Warwick Stanley Wyatt	S63/011	3.4 Natural character, form and function	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.
Warwick Stanley Wyatt	S63/012	Entire Plan	Amend	The decisions sought in the submission of Coastal Ratepayers United Inc. [S93] are supported and adopted in addition to, and as they may overlap with, this submission.

Wellington Chamber of Commerce	S277/001	Entire Plan	Support	Retain the plan.
Wellington Chamber of Commerce	S277/002	Objective O12: Benefits of regionally significant infrastructure	Not stated	Recommend strengthened wording to support this [O12] objective.
Wellington Chamber of Commerce	S277/003	Objective O13: Protecting regionally significant infrastructure	Amend	[Clarify whether this limits new use and development by the current managers of regionally significant infrastructure]
Wellington Chamber of Commerce	S277/004	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Support	Retain
Wellington Chamber of Commerce	S277/005	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Support in part	[Clarify what discretion is attached to the term "generally appropriate"]
Wellington Chamber of Commerce	S277/006	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Support in part	[Clarify whether this policy limits new use and development by the current managers of regionally significant infrastructure]
Wellington Chamber of Commerce	S277/007	Policy P58: Industrial discharges	Support	Retain

Wellington Chamber of Commerce	S277/008	Policy P102: Reclamation or drainage of the beds of lakes and rivers	Support	Retain
Wellington Chamber of Commerce	S277/009	Policy P138: Structures in sites with significant values	Support in part	[Not stated]
Wellington Chamber of Commerce	S277/010	Policy P139: Seawalls	Support in part	[Not stated]
Wellington Chamber of Commerce	S277/011	Policy P142: Lambton Harbour Area	Support	Retain
Wellington Chamber of Commerce	S277/012	Policy P143: Deposition in a site of significance	Support in part	[Not stated]
Wellington Chamber of Commerce	S277/013	Policy P144: Dumping in a site with significant values	Support in part	[Not stated]
Wellington Chamber of Commerce	S277/014	Policy P147: Motor vehicles on the foreshore	Support	Retain
Wellington Chamber of Commerce	S277/015	Policy P148: Motor vehicles in sites with significant value	Support	Retain
Wellington Chamber of Commerce	S277/016	Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity	Support in part	[Not stated]

Wellington Chamber of Commerce	S277/017	Policy P144: Dumping in a site with significant values	Not stated	Submitter requests clarity of terms: "no practicable alternative" [Policy 144 (b)]
Wellington Chamber of Commerce	S277/018	Policy P143: Deposition in a site of significance	Not stated	Submitter request clarity of terms: "no practicable alternative", Policy P143(g).
Wellington Chamber of Commerce	S277/019	Policy P139: Seawalls	Not stated	Submitter would request clarity of terms: "no practicable alternative" [Policy 139 (c)]
Wellington Chamber of Commerce	S277/020	Policy P138: Structures in sites with significant values	Not stated	Submitter questions the definition of "no practicable alternative" [see Policy 138 (e)]
Wellington City Council	S286/001	4.2 Beneficial use and development	Not stated	Include a new policy (or similar) in Section 4.2 Beneficial use and development: <u>Recognise the contribution existing urban areas, identified urban growth areas and infrastructure make to the social, economic and cultural wellbeing of people and communities and provide for their ongoing use and development.</u>
Wellington City Council	S286/002	2. Interpretation	Amend	Define the location of MHWS in relation to all listed sites of significance and within the urban coastal environment.
Wellington City Council	S286/003	3.13 Coastal management	Amend	Amend the Plan to include provisions that manage and control the use of buildings and structures and changes of use in the CMA.
Wellington City Council	S286/004	Policy P29: Climate change	Amend	Amend the Plan to provide better policy integration across issues such as heritage, seawalls, infrastructure provision, and the effects of climate change.
Wellington City Council	S286/005	4.2 Beneficial use and development	Not stated	Review the use of the non-complying activity status where activities, structures and infrastructure are an expected part of the environment and in areas that have been identified by territorial authorities as urban development areas.
Wellington City Council	S286/006	4. Policies	Amend	Remove the use of 'avoid' in the policies.

Wellington City Council	S286/007	Entire Plan	Amend	Any other changes necessary to address WCC's concerns
Wellington City Council	S286/008	Policy P29: Climate change	Amend	Amend Policy 29 to provide stronger wording for the recognition of the potential for climate change to exacerbate natural hazards.
Wellington City Council	S286/009	Policy P29: Climate change	Amend	Amend the Plan to make climate change adaption and resilience an important consideration in all parts of the policy framework.
Wellington City Council	S286/010	Policy P29: Climate change	Amend	Clarify how the policy approach to seawalls and heritage structures will be considered when the primary purpose of undertaking an activity is to improve WCC's resilience to the effects of climate change. For example in some cases removing existing seawalls and relying on developing a dune system may be the best defence approach, where in others repairing or constructing new seawalls may be appropriate. The policy should be flexible and support the ability of territorial authorities to make optimal decisions based on their merits.
Wellington City Council	S286/011	3.6 Biodiversity, aquatic ecosystem health and mahinga kai	Support	Support the provisions of the Plan that recognise and protect indigenous biodiversity, subject to the specific comments and amendments sought in Sections 2 and 3 of this submission.
Wellington City Council	S286/012	Policy P8: Beneficial activities	Amend	Retain policy 8 and method 15
Wellington City Council	S286/013	Policy P73: Minimising adverse effects of stormwater discharges	Amend	Amend Policy P73 to state: The adverse effects of stormwater quantity and quality shall be minimised including by: (c) Implementing water sensitive urban design in new subdivisions and development (unless it can be demonstrated that it is not appropriate due to topography or soil type)
Wellington City Council	S286/014	Regionally significant infrastructure	Amend	Amend the definition of Regionally Significant Infrastructure to include all roads; or Ensure that the objectives and policies recognise and provide for the local roading network, in a similar way as they provide for Regionally Significant Infrastructure.

Wellington City Council	S286/015	Policy P4: Minimising adverse effects	Amend	Amend Policy 4 to state:Where minimisation of adverse effects is required by policies in this plan.....to the smallest amount <u>reasonably</u> practicable and shall include <u>giving consideration to:...</u>
Wellington City Council	S286/016	Policy P4: Minimising adverse effects	Amend	Delete matter (b)
Wellington City Council	S286/017	Policy P27: High hazard areas	Amend	Reconsider the definition of the high hazard areas so that it is based on an appropriate assessment of actual hazard; exclude small waterways which are not high risk. Clarify the circumstances in which a risk assessment is required with a resource consent application. Ensure that where a risk assessment is required the scope of any assessment is commensurate to the scale of the proposed activity.
Wellington City Council	S286/018	Policy P28: Hazard mitigation measures	Amend	Amend Policy 28 or include a new policy that recognises the benefits of hard engineering in protecting infrastructure and development.
Wellington City Council	S286/019	Policy P139: Seawalls	Amend	Amend Policy 139 to: - recognise that seawalls might be the only practical option to protect important community assets; and - explicitly reference roads. Amend the definition of 'soft engineering' to include a broader range of engineering and non-engineered options that have lesser environmental impacts. Include a policy that recognises the benefits of existing seawalls and provides for their alteration, addition, replacement (and any associated occupation of the seabed). Amend the coastal management general conditions that relate to the depth of disturbance and discharge of sediment. Insert a definition of seawall.

Wellington City Council	S286/020	Policy P102: Reclamation or drainage of the beds of lakes and rivers	Amend	Undertake an assessment of stream systems within identified growth areas (in conjunction with WCC) to identify the values and level of modification of streams. This information should then be used to inform the development of rules and policies that recognise the values of streams, and identify where and when the reclamation of stream beds may be appropriate and where it is not appropriate. [also applies to Rule 127, Policies 40, 41, and 42]
Wellington City Council	S286/021	Policy P46: Managing adverse effects on sites with significant historic heritage value	Amend	Amend Policy 46 to remove the connecting 'ands' between matters (a) to (h). Replace with semi-colons. Add additional wording to the policy that ensures all matters are given appropriate and due consideration and must be considered and assessed as part of any application, but that it may not be necessary to meet all matters for a development to be appropriate.
Wellington City Council	S286/022	Policy P47: Appropriate demolition	Amend	Amend Policy 47 to remove the and/or at the end of each matter and replace with semi-colon's and remove the 'Note' at the end of the policy as follows:"Demolition or removal of a structure with significant historic heritage value identified in Schedule E1 (heritage structures), Schedule E2 (wharves and boatsheds), Schedule E3 (navigation aids), or Schedule E5 (freshwater heritage) is inappropriate except where the structure:(a) is substantially damaged by fire or natural hazard; , -and/or(b) poses a significant risk to human safety; , -and(c) it is not reasonably practicable to repair it. Note Applications for demolition should consider any relevant matters of Policy P46"
Wellington City Council	S286/023	Schedule E1: Historic heritage structures	Amend	Remove Oriental Bay, Evans Bay seawalls and Aberdeen Quay from Schedule E1 - historic heritage structures.
Wellington City Council	S286/024	Policy P46: Managing adverse effects on sites with significant historic heritage value	Amend	Provide an additional policy that recognises the need to maintain, upgrade or improve heritage infrastructure items to be resilient and adapt to the weather related effects of climate change and sea level rise.
Wellington City Council	S286/025	Schedule F2c: Habitats for indigenous birds in the coastal marine area	Amend	Review all identified Sites of Significance to Birds along the urban and south coast portion of WCC's coastline (Wellington Harbour and south coast) in Schedule F2c, in consultation with Wellington City Council. Include the following new area of WCC's south coast in Schedule F2c:- Map A (attached) - NZ Banded Dotterel breeding site

Wellington City Council	S286/026	4.6 Sites with significant values	Amend	Include a new policy framework (or similar) for the management of Wellington Harbour and South Coast Indigenous Biodiversity Values - Birds, as follows: <u>Recognise the contribution that Wellington Harbour and south coast makes to the breeding, roosting, feeding and migration of birds. Ensure that new development, activities or structures along the urban coastline (within the coastal marine area) avoid, where possible, more than minor adverse effects on bird habitats. Ensure that new development, activities and structures are designed, constructed, and undertaken in a way that enhances bird habitat, where appropriate.</u>
Wellington City Council	S286/027	Policy P36: Effects on indigenous bird habitat	Amend	Review Policy 36 to ensure that if significant habitats are identified at a later date, it can trigger a more restrictive policy approach. Any changes to other areas of the Region or inclusion of other urban harbour areas that have similar issues.
Wellington City Council	S286/028	Schedule F1: Rivers and lakes with significant indigenous ecosystems	Amend	Clarify how the policy approach of 'protect and restore' and 'avoid, remedy, mitigate or offset' applies to piped sections of Schedule F1 streams.
Wellington City Council	S286/029	Schedule F1: Rivers and lakes with significant indigenous ecosystems	Amend	Amend the policy framework to acknowledge the difference between piped and natural streams in Schedule F1.
Wellington City Council	S286/030	4. Policies	Amend	Amend Policies 33, 40 and 41 or include new policies that address the issue of where there may be significant adverse effects as a result of essential works for the maintenance of infrastructure assets (including roads).
Wellington City Council	S286/031	Schedule F1a: Known spawning and migration times for indigenous fish species	Support	Retain

Wellington City Council	S286/032	Rule R161: New structures, additions or alterations to structures outside sites of significance - discretionary activity	Amend	Change the activity status of new structures, additions or alterations to structures in the Te Aro Pa (Site of Significance to Mana Whenua identified in Schedule C) and any other site of significance to Mana Whenua within the urban area, from non-complying activities to discretionary unrestricted activities (Rules 161 and 162).
Wellington City Council	S286/033	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Clarify how a policy framework of 'protect and restore' will work within a modified /artificial urban environment.
Wellington City Council	S286/034	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Amend the policy (or include a new policy) to recognise that some sites of significance to Mana Whenua are within a modified/artificial urban environment.
Wellington City Council	S286/035	Policy P142: Lambton Harbour Area	Amend	Amend Policy P142 to remove the 'and' between each of matters (a) to (j) and replace with semi-colons.
Wellington City Council	S286/036	Rule R36: Agrichemicals - permitted activity	Amend	Map the areas where Rule 36 applies or define the residential area to which the rule applies.
Wellington City Council	S286/037	Rule R38: Agrichemicals not permitted - discretionary activity	Amend	Agrichemical use that is not permitted should be a restricted discretionary activity.
Wellington City Council	S286/038	Erosion prone land	Amend	Map Erosion prone areas to determine the areas to which rule 100 applies; or Amend the definition to show how a slope of 20 degrees is determined.
Wellington City Council	S286/039	Property	Amend	Clarify how the air quality rules apply to areas that are not land, such as rivers.

Wellington City Council	S286/040	Reclamation	Amend	Amend the definition of reclamation to clarify its meaning in relation to the beds of lakes and rivers.
Wellington City Council	S286/041	Surface water body	Amend	Insert new definitions to clearly define the different types of water courses including:- continuous/permanent water course- Intermittent water course- Drains- Ephemeral flow path- Surface water bodiesEnsure that rules that apply to the relevant water courses are appropriate for the type of water course
Wellington City Council	S286/042	Rule R25: Abrasive blasting within an enclosed booth - permitted activity	Amend	Amend the rules to permit the blasting of lead based paint when the activity is managed to prevent the discharge of lead into the environment.
Wellington City Council	S286/043	5.2.3 Stormwater	Amend	Clarify how Rules 48-53 relate to stormwater runoff from the roading network and ensure that a resource consent for stormwater run-off is not required.
Wellington City Council	S286/044	Beach recontouring (beds of rivers)	Amend	Include a definition of 'flood debris' (that includes the wide range of materials that can build up and cause blockage during a flood)Include a definition of 'river beach' (that includes material build up around bridge piers)Amend the definition of 'beach recontouring' to include all river bed materials.
Wellington City Council	S286/045	Rule R119: Clearing flood debris and beach recontouring - permitted activity	Amend	Amend Rule 119 condition (f) to permit a reasonable amount of recontouring in the flow channel.Amend Rule 119 (g) to clarify it relates to the depth of excavation, if this is the intention.
Wellington City Council	S286/046	Zone of reasonable mixing	Amend	Amend the definition of the 'zone of reasonable mixing' (in relation to coastal water) to be certain and not require the exercise of discretion.
Wellington City Council	S286/049	Rule R117: New structures - permitted activity	Amend	Include erosion protection structures in Rule 117. Make any necessary subsequent amendments to the policies to recognise and provide for these structures

Wellington City Council	S286/050	Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Amend	Clarify whether temporary stream damming and diversion required for instream structure works (Rules 112- 118) are covered by the rules (i.e. included in 'associated' works); If the temporary damming or diversion of water is not included, make it a permitted activity subject to appropriate conditions.
Wellington City Council	S286/051	Rule R191: Disturbance associated with beach grooming - permitted activity	Amend	Clarify whether beach grooming at Island Bay is a permitted activity. If not WCC submits that beach grooming at Island Bay should be permitted. Ensure that there are no other places within Wellington City (or the Region) where condition (f) of Rule 191 conflicts with the primary part of the rule.
Wellington City Council	S286/052	Rule R196: Motor vehicles - permitted activity	Amend	Clarify the relevant rule for boat launching at Makara Estuary and ensure it is a permitted activity. Clarify whether Rule 196 applies to the coastal road around the south coast (starting at Owhiro Quarry). Ensure that the identification of the coastal road as a site of significance to Mana Whenua does not preclude the ongoing use of the road by motor vehicles. Wellington
Wellington City Council	S286/053	Rule R204: Destruction, damage or disturbance outside sites of significance - discretionary activity	Amend	Clarify that coastal protection structures such as revetments are excluded from the destruction rules.
Wellington City Council	S286/054	Method M10: Water quality investigations and remediation actions	Amend	Include actions (and timeframes) for water quality improvement in Karori stream under Method 10, acknowledging its priority status.
Wellington City Council	S286/055	Schedule G: Principles to be applied when proposing and considering mitigation and offsetting in relation to biodiversity	Amend	Amend Point 6 (or wording to similar effect) to say: Any proposal for biodiversity offsets will provide measurable positive effects on biodiversity at the site, <u>or within the catchment</u> . Consideration will be given to offsets where appropriate <u>within the ecological district if offsets are not possible within the site or catchment, which can reasonably be expected.</u> <u>The expected outcome</u> is no net loss and preferable a net gain of biodiversity. Wellington

Wellington Civic Trust	S62/001	Lambton Harbour Area	Support	[Retain] the extension as provided for in the definition and map in general terms subject to the careful management of development in the area.
Wellington Civic Trust	S62/002	Whaitua	Amend	Replace "designated area" with "specified area" or "defined area".
Wellington Civic Trust	S62/003	Objective O10: Public access	Support	Retain the specified objectives with their current wording.
Wellington Civic Trust	S62/004	Objective O19: Natural processes	Support	Retain the specified objectives with their current wording.
Wellington Civic Trust	S62/005	Objective O23: Maintain or improve water quality	Support	Retain the specified objectives with their current wording.
Wellington Civic Trust	S62/006	Objective O34: Significant historic heritage values	Support	Retain the specified objectives with their current wording.
Wellington Civic Trust	S62/007	Objective O53: Functional need in the coastal marine area	Support	Retain the specified objectives with their current wording.
Wellington Civic Trust	S62/008	Objective O56: New development in the coastal marine area	Support	Retain the specified objectives with their current wording.
Wellington Civic Trust	S62/009	Objective O57: Use and development in Lambton Harbour Area	Amend	Reword Objective O57 by adding at the end of the objective "..... and has particular regard to Objective O55 and O56".
Wellington Civic Trust	S62/010	Policy P46: Managing adverse effects on sites with significant historic heritage value	Support	Retain the policies unchanged (and expand Schedules E1/E2 as requested in a later submission).

Wellington Civic Trust	S62/011	Policy P47: Appropriate demolition	Support	Retain the policies unchanged (and expand Schedules E1/E2 as requested in a later submission).
Wellington Civic Trust	S62/012	Policy P55: Managing air amenity	Amend	[Decision unclear; see original submission for details].
Wellington Civic Trust	S62/013	Policy P58: Industrial discharges	Amend	[Decision unclear; see original submission for details].
Wellington Civic Trust	S62/014	Policy P59: Industrial point source discharges	Amend	In Policy P59, add mention of amenity as follows "... including <u>adverse effects on amenity, and</u> any noxious or dangerous effects".
Wellington Civic Trust	S62/015	Policy P60: Agrichemicals and fumigants	Amend	In Policy P60, add mention of amenity as follows "property, <u>amenity</u> , and the environment".
Wellington Civic Trust	S62/016	Policy P73: Minimising adverse effects of stormwater discharges	Support	Retain policies unchanged.
Wellington Civic Trust	S62/017	Policy P74: First-stage local authority network consents	Support	Retain policies unchanged.
Wellington Civic Trust	S62/018	Policy P75: Second-stage local authority network consents	Support	Retain policies unchanged.
Wellington Civic Trust	S62/019	Policy P76: Minimising wastewater and stormwater interactions	Support	Retain policies unchanged.

Wellington Civic Trust	S62/020	Policy P77: Assessing resource consents to discharge stormwater containing wastewater	Support	Retain policies unchanged.
Wellington Civic Trust	S62/021	Policy P78: Managing stormwater from large sites	Support	Retain policies unchanged.
Wellington Civic Trust	S62/022	Policy P79: Managing land use impacts on stormwater	Support	Retain policies unchanged.
Wellington Civic Trust	S62/023	Policy P142: Lambton Harbour Area	Amend	Include specific mention of the Wellington Waterfront Framework 2001 in Policy P142(j).
Wellington Civic Trust	S62/024	Schedule E1: Historic heritage structures	Amend	Recognise and incorporate the parts of the wharf edges and reclamation edges which are currently protected under the Regional Coastal Plan as part of the sites of historic heritage values in the Proposed Plan.
Wellington Civic Trust	S62/025	Schedule E2: Historic heritage wharves and boatsheds	Amend	Recognise and incorporate the parts of the wharf edges and reclamation edges which are currently protected under the Regional Coastal Plan as part of the sites of historic heritage values in the Proposed Plan.
Wellington Civic Trust	S62/026	Schedule F1: Rivers and lakes with significant indigenous ecosystems	Support	Retain the listing [of the Kaiwharawhara Stream and estuary] as recognition of this important area.
Wellington Civic Trust	S62/027	Schedule F4: Sites with significant indigenous biodiversity values in the coastal marine area	Support	Retain the listing [of the Kaiwharawhara Stream and estuary] as recognition of this important area.
Wellington Civic Trust	S62/028	8 Wellington Harbour and Hutt Valley Whaitua	Not stated	Make sufficient resource available for the Whaitua for it to urgently advance its important work of ensuring water quality is generally improved.

Wellington Electricity Lines Limited	S126/001	Entire Plan	Amend	While WELL is generally supportive of the Proposed NRP, submission points have been made to enhance relevant provisions in the Proposed NRP, and to enable the importance of critical distribution infrastructure across the region to be recognised. [see submission S126]
Wellington Electricity Lines Limited	S126/002	Earthworks	Amend	That the definition for Earthworks is retained; however the exemptions to the definition should be amended to read:" ... Earthworks do not include:...(d)(ii) electricity <u>structures or lines...</u> "
Wellington Electricity Lines Limited	S126/003	Erosion prone land	Amend	Amend the definition for Erosion Prone Land be applicable to slopes greater than 25 degrees.
Wellington Electricity Lines Limited	S126/004	Motor vehicle	Amend	Amend the definition of Motor Vehicle by removing the weight restriction of 3500kg.
Wellington Electricity Lines Limited	S126/005	Offset	Support	Supports the term 'Offset' being defined and seeks that is retained, unaltered.
Wellington Electricity Lines Limited	S126/006	Regionally significant infrastructure	Amend	Amend the definition for Regionally Significant Infrastructure to read: ... · the national electricity grid · <u>facilities for the generation, transmission and distribution of electricity.</u> · <u>a network (as defined in the Electricity Industry Act 2010) ...</u>
Wellington Electricity Lines Limited	S126/007	Temporary structure	Amend	Amend the definition of Temporary Structures to allow network utilities to erect and operate temporary structures for a period no more than 6 continuous months.
Wellington Electricity Lines Limited	S126/008	Upgrade	Support	Support the term 'Upgrade' being defined in the Proposed NRP and seek it is retained, unaltered.
Wellington Electricity Lines Limited	S126/009	Functional need	Support	Support the term 'Functional need' being defined in the Proposed NRP and seek it is retained, unaltered.

Wellington Electricity Lines Limited	S126/010	Vegetation clearance	Amend	Amend the definition of 'vegetation clearance' to exclude trimming and maintenance activities associated with electricity supply networks, as follows: "The clearance or destruction of woody vegetation (exotic or native) by mechanical or chemical means, including felling vegetation, spraying of vegetation by hand or aerial means, hand clearance, and the burning of vegetation. <u>Vegetation clearance for maintaining and operating safe electricity supply networks is exempt from the definition of vegetation clearance.</u> "
Wellington Electricity Lines Limited	S126/011	2.2 Definitions	Amend	Add a new definition for 'Maintenance' as follows: "Maintenance means the replacement, repair or renewal of existing infrastructure and where the effects of that utility remain the same or similar in character, intensity and scale."
Wellington Electricity Lines Limited	S126/012	Objective O12: Benefits of regionally significant infrastructure	Support in part	Support Objective O12 as currently worded. WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for O12 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.
Wellington Electricity Lines Limited	S126/013	Objective O13: Protecting regionally significant infrastructure	Amend	Amend O13 include the word 'development' as follows: "The <u>development</u> , use and ongoing operation of regionally significant infrastructure and renewable energy generation activities in the coastal marine area are protected from new incompatible use and development occurring under, over, or adjacent to the infrastructure or activity." WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for O13 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.

Wellington Electricity Lines Limited	S126/014	Policy P8: Beneficial activities	Support in part	<p>Support P8 to the extent that it covers existing electricity structures and facilities that were legally established at the time of the PNRP notification.</p> <p>WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P8 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.</p>
Wellington Electricity Lines Limited	S126/015	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Support in part	<p>Support Policy P12.</p> <p>WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P12 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.</p>
Wellington Electricity Lines Limited	S126/016	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Amend	<p>Supports P13 and requests that P13 is amended to to remove the word "generally".</p> <p>WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P13 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.</p>
Wellington Electricity Lines Limited	S126/017	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Support in part	<p>Policy P14 is supported. WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P14 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.</p>

Wellington Electricity Lines Limited	S126/018	Policy P132: Functional need and efficient use	Support	WELL support Policy P132 as currently worded.
Wellington Electricity Lines Limited	S126/019	Policy P138: Structures in sites with significant values	Support in part	Policy P138 is supported. WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P138 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.
Wellington Electricity Lines Limited	S126/020	Policy P139: Seawalls	Amend	Amend P139 to include a new provision to ensure the seawall design is undertaken in consideration/agreement with other existing infrastructure owners.
Wellington Electricity Lines Limited	S126/021	Policy P143: Deposition in a site of significance	Support in part	Policy P143 is supported.WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P143 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.
Wellington Electricity Lines Limited	S126/022	Policy P144: Dumping in a site with significant values	Support in part	Policy P144 is supported. WELL's support is contingent on the definition for Regionally Significant Infrastructure being amended in accordance with submission point #S126/006. If submission point S126/006 is not accepted, support for P144 is retracted, and an alternative definition and policy framework should added to provide for WELL's critical electricity facilities across the Wellington Region.
Wellington Electricity Lines Limited	S126/023	Policy P147: Motor vehicles on the foreshore	Support in part	Policy P147 is supported, contingent on the definitions for 'regionally significant infrastructure' and 'motor vehicle' being amended in accordance with submission points S126/006 and S126/004 respectively.

Wellington Electricity Lines Limited	S126/024	Policy P148: Motor vehicles in sites with significant value	Support in part	Policy P148 is supported, contingent on the definitions for 'regionally significant infrastructure' and 'motor vehicle' being amended in accordance with submission points S126/006 and S126/004 respectively.
Wellington Electricity Lines Limited	S126/025	Rule R12: Emergency power generators - permitted activity	Support in part	Amend Rule R12 to provide for planned maintenance activities where by temporary non-grid power is required, by amending R12 as follows:"The discharge of contaminants into air from combustion equipment not exceeding a maximum generating capacity of 300kW, but up to 2MW in ... (c) the electricity connection is not available <u>due to planned outages ...</u> "
Wellington Electricity Lines Limited	S126/026	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Amend	Amend Rule R100 as follows:"The use of land, and the discharge of stormwater into water or onto or into land where it may enter water from vegetation clearance of a contiguous area up to 2ha per property per 12 month period on erosion prone land is a permitted activity, provided the following conditions are met: ... <u>(c) The vegetation clearance is associated with electricity structure maintenance.</u> "
Wellington Electricity Lines Limited	S126/027	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Support in part	Add a new rule to account for maintenance, repair, addition or replacement of existing regionally significant infrastructure structures within natural and significant natural wetlands as a Controlled Activity. The new rule should be worded as follows: <u>Rule RXX: Activities in natural wetlands and significant natural wetlands - Controlled activity.</u> <u>Activities for the purpose of maintenance, repair, addition, alteration, or replacement (like for like) of an existing structure, that are not permitted by rules R104 and R105, are controlled activities provided the following condition is met:</u> <u>(a) The activities relate to existing structures that are components of regionally significant infrastructure;</u> <u>(b) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2</u>

Wellington Electricity Lines Limited	S126/028	Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Support	Support Rule R112 and seek it is retained, unaltered.
Wellington Electricity Lines Limited	S126/029	Rule R117: New structures - permitted activity	Support	Support Rule R117 and seek it is retained, unaltered.
Wellington Electricity Lines Limited	S126/030	Rule R118: Removing or demolishing structures - permitted activity	Support	Support Rule R118 and seek it is retained, unaltered.
Wellington Electricity Lines Limited	S126/031	Rule R122: Removing vegetation - permitted activity	Support	Support Rule R122 and seek it, and particularly condition (m), is retained, unaltered.
Wellington Electricity Lines Limited	S126/032	Rule R149: Maintenance or repair of structures - permitted activity	Support	Support Rule R149 and seek it is retained, unaltered.
Wellington Electricity Lines Limited	S126/033	Rule R150: Minor additions or alterations to structures - permitted activity	Amend	Amend Rule R150 to enable structures to be relocated within a 5m radius of its existing position as a permitted activity in the coastal marine environment, as follows:"...(j) the minor addition or alteration <u>shall be within a 5m radius of the original structure</u> , shall add no more than 5m in horizontal projection and 1m in vertical projection to the structure as it existed on the date of public notification of the Proposed Natural Resources Plan (31.07.2015) in the coastal marine area, and ..."
Wellington Electricity Lines Limited	S126/034	Rule R182: Occupation of space by a structure owned by a network utility operator - permitted activity	Amend	Amend Rule R182 to include the word 'facility', as follows:"Occupation of space by a structure <u>or facility</u> owned by a network utility operator - permitted activity" [this change is to rule title, may also require amendment of rule text]

Wellington Electricity Lines Limited	S126/035	Rule R197: Motor vehicles for certain purposes - permitted activity	Support in part	Rule 197 is supported, contingent on the definition for 'motor vehicle' being amended in accordance with submission point S126/004.
Wellington Fish and Game Association (Wairarapa)	S52/001	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Amend	[Retain] the proposal to fence the inlet stream [to Kourarau Dam]. Ensure the [Kourarau Dam] perimeter remains free from the fencing requirement as this would significantly restrict the ability to flyfish from the shore and restrict the ability to use the boathouse.
Wellington Fish and Game Association (Wairarapa)	S52/002	Schedule C: Sites with significant mana whenua values	Amend	[See submission point S52/001 regarding Rule R97].
Wellington International Airport Limited	S282/001	Entire Plan	Amend	a. That the amendments (or similar in order to address WIAL's submission points) outlined in pg-4-6 of submission and in Annexure A are accepted; b. Such further, consequential or other relief as is appropriate or desirable in order to take account of the concerns expressed in this submission.
Wellington International Airport Limited	S282/002	Earthworks	Support in part	Amend the definition at sub-clause (e) "Earthworks" as follows: ...(e) repair or maintenance of existing <u>airfields</u> , roads and tracks, and and...
Wellington International Airport Limited	S282/003	Operational requirement	Support	Retain
Wellington International Airport Limited	S282/004	Regionally significant infrastructure	Support	Retain

Wellington International Airport Limited	S282/005	3. Objectives	Amend	New Objective O# (amend numbering as necessary) - Development of regionally significant infrastructure Provide for and enable the development and growth of regionally significant infrastructure.
Wellington International Airport Limited	S282/006	Objective O9: Recreational values	Support in part	Amend Objective O9 as follows: The recreational values <u>opportunities</u> of the coastal marine area, rivers and lakes and their margin and, natural wetlands are maintained and <u>where appropriate</u> enhanced.
Wellington International Airport Limited	S282/007	Objective O10: Public access	Support in part	Amend Objective O10 as follows: Public access to and along the coastal marine area and rivers and lakes is maintained and enhanced, <u>except where it is appropriate and necessary to impose a restriction</u>
Wellington International Airport Limited	S282/008	Objective O12: Benefits of regionally significant infrastructure	Support in part	Amend Objective O12 as follows: The social, economic, cultural and environmental benefits of regionally significant infrastructure and renewable energy generation activities are recognised <u>and provided for</u> .
Wellington International Airport Limited	S282/009	Objective O13: Protecting regionally significant infrastructure	Support in part	Amend Objective O13 as follows: The use and ongoing operation of regionally significant infrastructure and renewable energy generation activities in the coastal marine area are protected from new incompatible use and development occurring under, over, or adjacent <u>in close proximity</u> to the infrastructure or activity.
Wellington International Airport Limited	S282/010	Objective O17: Natural character	Oppose	Delete O17
Wellington International Airport Limited	S282/011	Objective O19: Natural processes	Oppose in part	Delete Objective O19 entirely or amend as follows: The interference from <u>Any adverse effects of use and development on natural processes is are avoided, remedied or mitigated</u> minimised .

Wellington International Airport Limited	S282/012	Objective O20: Risk from natural hazards	Support	Retain
Wellington International Airport Limited	S282/013	Objective O21: High hazard areas	Support in part	Amend Objective O21 as follows: <u>Inappropriate use and development in high hazard areas is avoided, and where avoidance is impracticable or for reasons of functional need or operational requirements, the effects of use and development in high hazard areas should be remedied or mitigated.</u>
Wellington International Airport Limited	S282/014	Objective O22: Hard engineering	Support in part	Amend Objective O22 as follows: Hard engineering mitigation and protection methods are only used as a last practicable option <u>to protect against natural hazards.</u>
Wellington International Airport Limited	S282/015	Objective O31: Outstanding water bodies	Support in part	Amend Objective O31 as follows: Outstanding water bodies and their significant values <u>identified in Schedule A to this Plan</u> are protected <u>from inappropriate use and development.</u>
Wellington International Airport Limited	S282/016	Objective O35: Significant indigenous biodiversity values	Amend	Amend Objective O35 as follows: <u>Adverse effects on E ecosystems and habitats with significant indigenous biodiversity values identified in a method to this Plan are protected and restored avoided, remedied or mitigated.</u>
Wellington International Airport Limited	S282/017	Objective O36: Significant geological features	Amend	Amend Objective O36 as follows: Significant geological features in the coastal marine area <u>identified in Schedule J to this plan</u> are protected <u>from inappropriate use and development.</u>

Wellington International Airport Limited	S282/018	Objective O37: Significant surf breaks	Oppose	Delete O37
Wellington International Airport Limited	S282/019	Objective O44: Land use impacts on soil and water	Amend	Amend Objective O44 as follows: The adverse effects on soil and water from land use activities are minimised <u>avoided, remedied or mitigated.</u>
Wellington International Airport Limited	S282/020	Objective O47: Sediment runoff	Oppose	Delete O47
Wellington International Airport Limited	S282/021	Objective O49: Wastewater discharges to land	Amend	Amend Objective O49 as follows: Discharges of wastewater to land are promoted over discharges to fresh water and coastal water <u>where practicable.</u>
Wellington International Airport Limited	S282/022	Objective O53: Functional need in the coastal marine area	Support	Retain
Wellington International Airport Limited	S282/023	Objective O54: Use and development in the coastal marine area	Support	Retain
Wellington International Airport Limited	S282/024	Objective O55: Public open space	Support	Retain
Wellington International Airport Limited	S282/025	Objective O56: New development in the coastal marine area	Amend	Amend Objective O56 as follows: New development in the coastal marine area is of a scale, density and design that is compatible with its location in the coastal environment <u>whilst recognising functional needs or operational requirements of such development.</u>

Wellington International Airport Limited	S282/026	Objective O58: Noise and underwater noise	Support	Retain
Wellington International Airport Limited	S282/027	Objective O59: Passage of vessels and aircraft	Support	Retain
Wellington International Airport Limited	S282/028	Policy P4: Minimising adverse effects	Oppose	Delete Policy
Wellington International Airport Limited	S282/029	Policy P9: Public access to and along the coastal marine area and the beds of lakes and rivers	Support	Retain
Wellington International Airport Limited	S282/030	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Amend	Amend Policy P13 as follows: The use, <u>development</u> , operation, maintenance, and upgrade of existing regionally significant infrastructure and renewable energy generation activities are beneficial and generally appropriate.
Wellington International Airport Limited	S282/031	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Amend	Amend Policy P14 as follows: Policy P14: Incompatible activities adjacent <u>in close proximity</u> to regionally significant infrastructure and renewable electricity generation activities Regionally significant infrastructure and renewable energy generation activities shall be protected from new incompatible use and development occurring under, over or adjacent <u>in close proximity</u> to it, by locating and designing any new use and development to avoid, remedy or mitigate any reverse sensitivity effects.

Wellington International Airport Limited	S282/032	Policy P24: Outstanding natural character	Amend	<p>Amend Policy P24 as follows: Areas of outstanding natural character in the coastal marine area <u>identified in a schedule to this Plan</u> will be preserved by: a) avoiding adverse effects of activities on natural character in areas of the coastal marine area with outstanding natural character, and b) requiring use and development to be of a type, scale and intensity that will maintain the natural character values of the area, and c) requiring built elements to be subservient to the dominance of the characteristics and qualities that make up the natural character values of the area, and d) maintaining the high levels of naturalness of these areas, and. e) avoiding the adverse effects of activities, including those located outside the area, that individually or cumulatively detract from the natural character values of the outstanding natural character area.</p>
Wellington International Airport Limited	S282/033	Policy P25: Natural character	Oppose	<p>Amend Policy P25 as follows:</p> <p>Use and development shall avoid significant adverse effects on <u>outstanding</u> natural character in the coastal marine area (including high natural character in the coastal marine area) and in the beds of lakes and rivers <u>identified in a method to this Plan</u>, and avoid, remedy or mitigate other adverse effects of activities, taking into account:</p> <p>....</p> <p>ii) considering the extent to which functional needs, <u>operational requirements</u> or existing use limits location and development options, <u>and</u></p> <p>iii) <u>considering the benefits associated with the use, operation, maintenance, upgrade and growth of existing regionally significant infrastructure and renewable energy generation activities.</u></p>
Wellington International Airport Limited	S282/034	Policy P26: Natural processes	Amend	<p>Amend Policy P26 as follows: Use and development will be managed to minimise <u>avoid, remedy or mitigate</u> adverse effects on the integrity and functioning of natural processes.</p>

Wellington International Airport Limited	S282/035	Policy P27: High hazard areas	Amend	<p>Amend Policy P27 as follows:</p> <p>Inappropriate use and development, including hazard mitigation methods, in high hazard areas shall be avoided, remedied or mitigated except where:</p> <p>...b) <u>mitigation or remediation measures can appropriately manage the risk to the development and/or residual risk after hazard mitigation measures, assessed using a risk-based approach, is low,</u> and</p> <p>c) the development does not cause or exacerbate natural hazards in other areas, and</p> <p>d) interference with <u>adverse effects on</u> natural processes (coastal, fluvial and lacustrine processes) is minimised <u>are avoided, remedied or mitigated,</u> and...</p>
Wellington International Airport Limited	S282/036	Policy P28: Hazard mitigation measures	Amend	<p>Amend Policy P28 as follows:</p> <p>Hard <u>hazard</u> engineering mitigation and protection methods shall be avoided except:</p> <p>a. where it is necessary to protect existing development from unacceptable risk, assessed using the risk-based approach; and</p> <p>b. <u>the development demonstrates a functional need or operational requirement to locate in a particular location; and,</u></p> <p>i. the works either form part of a hazard management strategy; or</p> <p>ii. the any <u>any</u> environmental effects <u>that</u> are considered to be no more than minor <u>are remedied or mitigated.</u></p>

Wellington International Airport Limited	S282/037	Policy P31: Aquatic ecosystem health and mahinga kai	Amend	<p>Amend Policy P31 as follows: Aquatic ecosystem health and mahinga kai shall be maintained <u>and, where appropriate,</u> or restored by managing the effects of use and development on physical, chemical and biological processes to: a) minimise <u>avoid, remedy or mitigate</u> adverse effects on natural flow characteristics and hydrodynamic processes, and the natural pattern and range of water level fluctuations in rivers, lakes and natural wetlands, and b) minimise <u>avoid, remedy or mitigate</u> adverse effects on aquatic habitat diversity and quality, including the form, frequency and pattern of pools, runs, and riffles in rivers, and the natural form of rivers, lakes, natural wetlands and coastal habitats, and c) minimise <u>avoid, remedy or mitigate</u> adverse effects on habitats that are important to the life cycle and survival of aquatic species, and d) minimise <u>avoid, remedy or mitigate</u> adverse effects at times which will most affect the breeding, spawning, and dispersal or migration of aquatic species, and e) <u>avoid</u> creating barriers to the migration or movement of indigenous aquatic species, and restore the connections between fragmented aquatic habitats where appropriate, and f) minimise <u>avoid, remedy or mitigate</u> adverse effects on riparian habitats and restore them where practicable, and g) <u>avoid</u> the introduction, and restrict the spread, of aquatic pest plants and animals.</p>
Wellington International Airport Limited	S282/038	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Amend	<p>Amend Policy P32 as follows: Significant adverse effects on aquatic ecosystem health and mahinga kai shall be managed by: a) Avoiding significant adverse effects, and b) Where significant adverse effects cannot be avoided, remedying them, and c) Where significant adverse effects cannot be remedied, mitigating them, and d) Where <u>significant</u> residual adverse effects remain, <u>considering</u> the use of biodiversity offsets. Proposals for mitigation and biodiversity offsetting will be assessed against the principles listed in Schedule G (biodiversity offsetting).</p>
Wellington International Airport Limited	S282/039	Policy P36: Effects on indigenous bird habitat	Amend	<p>Amend Policy P36 as follows: The adverse effects of use and development on the habitats of indigenous birds <u>identified in Schedule F2</u> in the coastal marine area, wetlands and beds of lakes and rivers and their margins for breeding, roosting, feeding, and migration shall be minimised <u>avoided, remedied or mitigated.</u></p>

Wellington International Airport Limited	S282/040	Policy P40: Ecosystems and habitats with significant indigenous biodiversity values	Amend	<p>Refer to WIAL's submission point on Schedule F2C below and amend policy P40 as follows: Protect and restore the following ecosystems and habitats with significant indigenous biodiversity values <u>except where protection or restoration would be inappropriate having regard to the functional needs, operational requirements and locational constraints of regionally significant infrastructure:</u></p> <ul style="list-style-type: none"> a) the rivers and lakes with significant indigenous ecosystems identified in Schedule F1 (rivers/lakes), and b) the habitats for indigenous birds identified in Schedule F2 (bird habitats), and c) significant natural wetlands, including the significant natural wetlands identified in Schedule F3 (significant wetlands), and d) the ecosystems and habitat-types with significant indigenous biodiversity values in the coastal marine area identified in Schedule F4 (coastal sites) and Schedule F5 (coastal habitats).
Wellington International Airport Limited	S282/041	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Amend	<p>Amend Policy P41 as follows: ... in the first instance activities, other than activities carried out in accordance with a restoration management plan, shall, <u>where practicable</u>, avoid these ecosystems and habitats. If the ecosystem or habitat cannot be avoided, the adverse effects of activities shall be managed by:</p> <ul style="list-style-type: none"> a) avoiding more than minor <u>significant</u> adverse effects, and b) where more than minor <u>significant</u> adverse effects cannot be avoided, remedying them, and c) where more than minor <u>significant</u> adverse effects cannot be remedied, mitigating them <u>to the extent that is practicable</u>, and d) where <u>significant</u> residual adverse effects remain it is appropriate to consider <u>considering</u> the use of biodiversity offsets. <p>Proposals for mitigation and biodiversity offset <u>ting</u> s ...</p>

Wellington International Airport Limited	S282/042	Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values	Amend	Delete Policy P42 or amend as follows: In order to To protect the ecosystems and habitats with significant indigenous biodiversity values identified in Policy P40, particular regard shall be given to managing the adverse effects of use and development in surrounding areas on physical, chemical and biological processes to: ...d) avoid cumulative adverse effects on, and the incremental loss of, the values of these ecosystems and habitats.
Wellington International Airport Limited	S282/043	Policy P48: Protection of outstanding natural features and landscapes	Amend	Amend Policy P48 as follows: The natural features and landscapes (including seascapes) of the coastal marine area, rivers, lakes and their margins and natural wetlands shall be protected from inappropriate use and development by: 1) avoiding adverse effects of activities on outstanding natural features and landscapes <u>identified in a schedule to this Plan</u> , and 2) avoiding significant adverse effects and avoiding, remedying or mitigating either the adverse effects of activities on natural features and landscapes.
Wellington International Airport Limited	S282/044	Policy P51: Significant surf breaks	Oppose	Delete policy
Wellington International Airport Limited	S282/045	Policy P78: Managing stormwater from large sites	Amend	Amend policy to confirm that improvement is only necessary where there is wastewater discharge issue, rather than applying to high-performing and low-performing sites equally.
Wellington International Airport Limited	S282/046	Policy P132: Functional need and efficient use	Amend	Amend Policy P132 as follows: ... and in respect of (a), (b) and (c): d) ensure that the <u>only extent of the use provides for the efficient operation of infrastructure</u> the minimum area necessary , and e) be made available for public or multiple use <u>unless a restriction on public access is</u> where appropriate, and

Wellington International Airport Limited	S282/047	Policy P133: Recreational values	Oppose	Delete policy
Wellington International Airport Limited	S282/048	Policy P134: Public open space values and visual amenity	Amend	Amend Policy P134 as follows: The adverse effects of new use and development on public open space and visual amenity viewed within, to and from the coastal marine area shall be minimised <u>avoided, remedied or mitigated</u> by:(a) having particular regard to any relevant provisions contained in any bordering territorial authorities' proposed and/or operative district plan, and(b) managing use and development to be of a scale, location, density and design which is compatible with the natural character, natural features and landscapes, and <u>amenity values of the coastal environment and the functional needs, operational requirements and locational constraints of regionally significant infrastructure</u> , and(c) taking account of the future need for public open space in the coastal marine area.
Wellington International Airport Limited	S282/049	Policy P135: Safe passage	Support	Retain
Wellington International Airport Limited	S282/050	Policy P137: Airport height restriction areas	Support	Retain
Wellington International Airport Limited	S282/051	Policy P139: Seawalls	Amend	Amend Policy P139 as follows: The construction of a new seawall is inappropriate except where the seawall is required to protect: ...b) <u>new or additional development of</u> , regionally significant infrastructure...

Wellington International Airport Limited	S282/052	Policy P145: Reclamation, drainage and destruction	Amend	Amend Policy P145 sub-clause (b) as follows: b) there are no other <u>practicable or reasonable</u> locations outside the coastal marine area for the activity associated with the reclamation, drainage or destruction, and c) there are no <u>practicable or reasonable</u> alternative methods of providing for the associated activity.
Wellington International Airport Limited	S282/053	Policy P148: Motor vehicles in sites with significant value	Support	Retain
Wellington International Airport Limited	S282/054	Policy P150: Noise and lighting	Amend	Amend 5.7.2 to recognise relevant New Zealand Standards for aircraft noise.
Wellington International Airport Limited	S282/055	Policy P151: Underwater noise	Support	Retain
Wellington International Airport Limited	S282/056	Rule R52: Stormwater from large sites - restricted discretionary activity	Amend	Delete sub clause 3 of R52
Wellington International Airport Limited	S282/057	Rule R56: Discharges from contaminated land - discretionary activity	Amend	Amend Rule R56 as follows: The use the <u>of land to assess the concentration of hazardous substances</u> , and <u>or the</u> discharge of contaminants onto or into land from contaminated land where the discharge may enter water that is not permitted by Rule R54 or Rule R55 is a discretionary activity.
Wellington International Airport Limited	S282/058	Rule R149: Maintenance or repair of structures - permitted activity	Support	Retain

Wellington International Airport Limited	S282/059	Rule R151: Additions or alterations to structures - controlled activity	Amend	Amend Rule R151 as follows: Matters of control ...5. Effects on a site or habitat identified in Schedule C (mana whenua), Schedule F2c (birds-coastal), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), Schedule J (geological features)- or Schedule K (surf breaks).
Wellington International Airport Limited	S282/060	Rule R157: New or replacement structures for scientific or education purposes - controlled activity	Amend	Amend Rule R157 as follows: Matters of control ...5. Effects on a site or habitat identified in Schedule C (mana whenua), Schedule F2c (birds-coastal), Schedule F4 (coastal sites), <u>or</u> Schedule F5 (coastal habitats) - or Schedule K (surf breaks). ...
Wellington International Airport Limited	S282/061	Rule R158: Structures in airport height restriction areas or navigation protection areas for airport/navigation purposes or navigation protection areas - discretionary activity	Amend	Amend Rule R158 as follows: ...b) within a <u>n</u> airport height restriction area shown on Map 50 or Map 51...
Wellington International Airport Limited	S282/062	Rule R159: Structures in airport height restriction areas or navigation protection areas - prohibited activity	Amend	Retain
Wellington International Airport Limited	S282/063	5.7.6 Seawalls	Support	Insert a new rule within section 5.7.6 of the Proposed Plan for replacement or maintenance of seawalls as a permitted activity [See original submission p36-37 for suggested wording].

Wellington International Airport Limited	S282/064	Rule R165: Additions or alterations to existing seawalls - controlled activity	Amend	Amend Rule R165 as follows: Rule R165: The A <u>additions to, or replacement or alteration-s to</u> of existing seawalls - controlled activity The <u>replacement of, or addition or alteration to, an existing seawall...</u> <u>... That is not permitted by Rule R(insert corresponding new rule number), is a controlled activity...</u> Matters of control ...4. Effects on a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), Schedule J (geological features) or Schedule K (surf breaks)...
Wellington International Airport Limited	S282/065	Rule R166: Seawalls outside sites of significance - discretionary activity	Amend	Rule R166: Seawalls outside sites of significance - discretionary activity A new seawall...that is not a <u>permitted activity under Rule R(Insert new rule number), or a controlled activity under Rule R165</u> is a discretionary activity.
Wellington International Airport Limited	S282/066	Rule R167: Seawalls inside sites of significance - non-complying activity	Amend	Rule R167: Seawalls inside sites of significance - non-complying activity A new seawall...that is not a <u>permitted activity under Rule R(Insert new rule number), a controlled activity under Rule R165 or a discretionary activity under Rule R166,</u> is a non-complying activity.
Wellington International Airport Limited	S282/067	Rule R184: Occupation of space - discretionary activity	Oppose	Delete R184
Wellington International Airport Limited	S282/068	Rule R186: General surface water and foreshore activities - restricted discretionary	Oppose in part	Amend Rule R186 as follows: Matters for discretion ...7. Effects on a site or habitat identified in or using Schedule C (mana whenua), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), <u>or</u> Schedule J (geological features) or Schedule K (surf breaks)

Wellington International Airport Limited	S282/069	Rule R192: Beach recontouring for coastal restoration purposes - controlled activity	Amend	Amend Rule R192 as follows: Matters of control ...6. Effects on sites and habitats identified in or using Schedule C (mana whenua), Schedule F2c (birds-coastal), Schedule F4 (coastal sites), Schedule F5 (coastal habitats) or Schedule J (geological features)-and Schedule K (surf breaks)
Wellington International Airport Limited	S282/070	Rule R194: Disturbance or damage - discretionary activity	Oppose	Delete R194
Wellington International Airport Limited	S282/071	Rule R197: Motor vehicles for certain purposes - permitted activity	Amend	Rule R197: Motor vehicles for certain purposes - permitted activity The disturbance of the foreshore or seabed from motor vehicles in the coastal marine area, for the following purposes: ...d) the <u>development</u> , maintenance, upgrade and operation of regionally significant infrastructure is a permitted activity, provided the following conditions are met: e) the vehicle <u>s</u> shall take the most direct route...
Wellington International Airport Limited	S282/072	Rule R200: Dredging for flood protection purposes or erosion mitigation - controlled activity	Amend	Amend Rule R200 as follows: Matters of control ...6. Effects on sites or habitats identified in Schedule F2c (bird-coastal), or Schedule F2a (birds-rivers)- or Schedule K (surf breaks)
Wellington International Airport Limited	S282/073	Rule R202: Maintenance dredging outside a Commercial Port Area or navigation protection areas - controlled activity	Amend	Amend Rule R202 as follows: Matters of control ...5. Effects on sites and habitats identified in Schedule C (mana whenua), Schedule F2c (birds-coastal), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), <u>or</u> Schedule J (geological features) or Schedule K (surf breaks) ...

Wellington International Airport Limited	S282/074	Rule R204: Destruction, damage or disturbance outside sites of significance - discretionary activity	Oppose	WIAL seeks that the relationships between Rules R165, R166, R194, R204, R208, R210 and R216 be reviewed to ensure that unnecessary duplication of control is avoided and that an all-inclusive non-complying activity status is not applied to activities that are otherwise provided for by the Proposed Plan.
Wellington International Airport Limited	S282/075	Rule R207: Deposition for beach renourishment - controlled activity	Oppose in part	Amend Rule R207 as follows: Matters of control ...5. Effects on sites or habitats identified in Schedule C (mana whenua), Schedule F2c (birds-coastal), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), or Schedule J (geological features) and Schedule K (surf breaks) ...
Wellington International Airport Limited	S282/076	Rule R208: Deposition outside sites of significance - discretionary activity	Oppose	WIAL seeks that the relationships between Rules R165, R166, R194, R204, R208, R210 and R216 be reviewed to ensure that unnecessary duplication of control is avoided and that an all-inclusive non-complying activity status is not applied to activities that are otherwise provided for by the Proposed Plan.
Wellington International Airport Limited	S282/077	Rule R210: Dumping of waste or other matter outside sites of significance - discretionary activity	Oppose	WIAL seeks that the relationships between Rules R165, R166, R194, R204, R208, R210 and R216 be reviewed to ensure that unnecessary duplication of control is avoided and that an all-inclusive non-complying activity status is not applied to activities that are otherwise provided for by the Proposed Plan.
Wellington International Airport Limited	S282/078	Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity	Support	Retain

Wellington International Airport Limited	S282/079	Rule R216: Destruction - non-complying activity	Oppose in part	Delete Rule R216 or amend R216 to ensure that it does not conflict with or duplicate other rules that provide for destruction as a permitted, controlled, restricted discretionary or discretionary activity. A suitable amendment may be as follows: The destruction of the foreshore or seabed in the coastal marine area including any associated:a) disturbance of the foreshore or seabed, andb) deposition in, on or under the foreshore or seabed, andc) discharge of contaminants, andd) diversion of open coastal water <u>not otherwise provided for by this Plan, is a non-complying discretionary activity.</u>
Wellington International Airport Limited	S282/080	Schedule F2c: Habitats for indigenous birds in the coastal marine area	Amend	Remove the Wellington International Airport environs, including the adjoining coastal marine area from Schedule F2c and Map 18 of the Proposed Plan.
Wellington International Airport Limited	S282/081	Schedule K: Significant surf breaks	Oppose in part	Delete Schedule K and Map 24 and associated Proposed Plan Objectives, Policies and Rules to give effect to the relief sought.
Wellington International Airport Limited	S282/082	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Amend	Amend: The benefits of regionally significant infrastructure and renewable energy generation activities are recognised <u>and provided for</u> by having regard to:...
Wellington Recreational Marine Fishers Association	S32/001	Schedule P: Classifying and managing groundwater and surface water connectivity	Amend	Obtain a greater knowledge [of climate change effects] as these low pressure systems will cause an increase in salt water inclusion into the base of the Hutt Ground Water aquifer. It will require a far better policy [than Policy P121] and a management plan that displays a wider knowledge than what has been presented. There is not enough detail as air pressure is already impacting on ground water supplies in other parts of the country.

Wellington Recreational Marine Fishers Association	S32/002	Policy P121: Preventing salt water intrusion	Amend	Obtain a greater knowledge [of climate change effects] as these low pressure systems will cause an increase in salt water inclusion into the base of the Hutt Ground Water aquifer. It will require a far better policy [than Policy P121] and a management plan that displays a wider knowledge than what has been presented. There is not enough detail as air pressure is already impacting on ground water supplies in other parts of the country.
Wellington Recreational Marine Fishers Association	S32/003	Schedule O: Plantation forestry harvest plan	Amend	Include the NZ National Policy Statement on Plantation Forests guidelines in the section "requirements for a plantation forestry harvest plan".
Wellington Recreational Marine Fishers Association	S32/004	Schedule N: Stormwater management strategy	Amend	Rewrite section [Schedule N] to give it meaning and delete cop out phrases such as "identify other relevant objectives for which the stormwater will be managed" [as well as] the words "describe how" and "identify options" [and] the words "maintain or improve receiving water quality". The receiving water has not been defined as a stream, river or the sea. The comment says "minimise the adverse effects of wastewater interaction with stormwater" yet this has been happening all over Wellington, Porirua and the Hutt Valley for years. Schedule N lacks the tools to get councils to sort themselves out.
Wellington Recreational Marine Fishers Association	S32/005	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Amend	Make an accurate map as this map [Map 27b] is inadequate. The Waiwhetu area has a separate ground water supply and Somes Island also has a bore for its water supply but these are not included.
Wellington Recreational Marine Fishers Association	S32/006	Schedule K: Significant surf breaks	Amend	Add Makara Point break to the map [Map 24].
Wellington Recreational Marine Fishers Association	S32/007	Map 24: Significant surf breaks (Schedule K)	Amend	Add Makara Point break to the map [Map 24].

Wellington Recreational Marine Fishers Association	S32/008	Schedule I: Important trout fishery rivers and spawning waters	Amend	Delete the Catch Pool stream as a trout spawning stream [from Schedule I] and add the Makara Stream [into Schedule I].
Wellington Recreational Marine Fishers Association	S32/009	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Amend	Delete the Catch Pool stream as a trout spawning stream [from Schedule I] and add the Makara Stream [to Schedule I]. [See submission point S32/008].
Wellington Recreational Marine Fishers Association	S32/010	Schedule F2c: Habitats for indigenous birds in the coastal marine area	Amend	[Identify indigenous birds in the area from Makara to Lyall Bay] as not sure if it is technically correct to describe this area has no indigenous birds in a WRC Natural Plan. There is an obvious lack of research here that needs to be corrected.
Wellington Recreational Marine Fishers Association	S32/011	Map 18: Habitats for indigenous birds in the coastal marine area (Schedule F2c)	Amend	[Identify indigenous birds in the area from Makara to Lyall Bay]. Not sure if it is technically correct to describe this area has no indigenous birds in a WRC Natural Plan. There is an obvious lack of research here that needs to be corrected. [See submission point S32/010].
Wellington Recreational Marine Fishers Association	S32/012	Schedule F2b: Habitats for indigenous birds in lakes	Amend	Include the English names [of Lakes Kohangapiripiri and Kohangatera] [Pencarrow and Fitzroy].
Wellington Recreational Marine Fishers Association	S32/013	Map 17: Habitats for indigenous birds in lakes (Schedule F2b)	Amend	Include the English names [of lakes Kohangapiripiri and Kohangatera] [Pencarrow and Fitzroy].
Wellington Recreational Marine Fishers Association	S32/014	Map 15: Lakes with significant aquatic plant communities (Schedule F1c)	Amend	Include the English names [of lakes Kohangapiripiri and Kohangatera] [Pencarrow and Fitzroy] on Map 15.

Wellington Recreational Marine Fishers Association	S32/015	Map 1: Outstanding water bodies (Schedule A1, A2, A3)	Amend	Include the English names [of lakes Kohangapiripiri and Kohangatera] [Pencarrow and Fitzroy] on Map 1.
Wellington Recreational Marine Fishers Association	S32/016	Schedule U: Trigger levels for river and stream mouth cutting	Amend	[Amend Schedule U] and create a new mouth cutting regime for Makara Stream that acknowledges the role of the north-westerly weather patterns which will push shingle back into the river mouth. The present management plan is inadequate. [Cease WRC placing logs] on the beach that prevents boat owners from accessing the sea, which is in breach of its own rules. This poorly worded schedule must not remain in its present form.
Wellington Recreational Marine Fishers Association	S32/017	Rule R193: River and stream mouth cutting - permitted activity	Amend	[See submission point S32/016 e.g. amend Schedule U (trigger levels for mouth cutting)]
Wellington Recreational Marine Fishers Association	S32/018	Schedule J: Significant geological features in the coastal marine area	Amend	Record that the Wellington Harbour in [Schedule J and Map 30] has a number of submarine freshwater springs from off Petone Beach to alongside Somes Island, into Evans Bay and around the Falcon Shoals.
Wellington Recreational Marine Fishers Association	S32/019	8.1 Policies	Amend	Record that the Wellington Harbour has a number of submarine freshwater springs from off Petone Beach to alongside Somes Island, into Evans Bay and around the Falcon Shoals. Include a management plan in Policies 8.1 that prevents any further artesian water loss in Wellington Harbour caused by ignorance of the water loss already escaping into the Harbour waters. [Refer to original submission for further details].

Wellington Recreational Marine Fishers Association	S32/020	8.2 Rules	Amend	Record that the Wellington Harbour has a number of submarine freshwater springs from off Petone Beach to alongside Somes Island, into Evans Bay and around the Falcon Shoals. All Rules in this section are inadequate and fail to describe the importance of this water supply to Wellington's water supply. Figure 8.2 and tables 8.2 and 8.3 have serious errors and are totally incorrect.
Wellington Recreational Marine Fishers Association	S32/027	Map 30: Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson)	Amend	Record that the Wellington Harbour has a number of submarine freshwater springs from off Petone Beach to alongside Somes Island, into Evans Bay and around the Falcon Shoals.[See submission point S32/18].
Wellington Recreational Marine Fishers Association	S32/028	Map 6: Sites of significance to Taranaki Whanui ki Te Upoko o Te Ika o Maui (Schedule C4)	Amend	Make the spelling of Lake Kohangapiripiri consistent. Is it Konhangapiripiri or Kohangapiripiri Lake? Include the English names of these lakes namely Pencarrow and Fitzroy which they have been called since the beginning of the twentieth century.
Wellington Recreational Marine Fishers Association	S32/029	Map 15: Lakes with significant aquatic plant communities (Schedule F1c)	Amend	Make the spelling of Lake Kohangapiripiri consistent. Is it Konhangapiripiri or Kohangapiripiri Lake? Include the English names of these lakes namely Pencarrow and Fitzroy which they have been called since the beginning of the twentieth century.
Wellington Recreational Marine Fishers Association	S32/030	Map 17: Habitats for indigenous birds in lakes (Schedule F2b)	Amend	Make the spelling of Lake Kohangapiripiri consistent. Is it Konhangapiripiri or Kohangapiripiri Lake? Include the English names of these lakes namely Pencarrow and Fitzroy which they have been called since the beginning of the twentieth century.
Wellington Recreational Marine Fishers Association	S32/031	Map 8: Historic heritage structures (Schedule E1)	Amend	Include [the barracks and the heavy gun battery above the hills south of Makara] in Schedule E 1 and Map 8. It qualifies as a "significant historic heritage site" along side the Pukerua Bay Machine Gun Posts, the Mana Esplanade Machine Gun Posts, The Worsler Bay tank Obstacles.
Wellington Recreational Marine Fishers Association	S32/032	Map 8: Historic heritage structures (Schedule E1)	Amend	Include [the concrete look-out post and barracks overlooking Moa Point] in Schedule E 1 and Map 8 - this site that overlooks the entrance to Wellington Harbour. It qualifies as a "significant historic heritage site" alongside the Pukerua Bay Machine Gun Posts, the Mana Esplanade Machine Gun Posts, The Worsler Bay Tank Obstacles.

Wellington Recreational Marine Fishers Association	S32/033	Map 8: Historic heritage structures (Schedule E1)	Amend	Correct Map 8 to include Fort Balance and the history of the site. While it is no longer visible, there was once a wharf that went from Ward Island to Eastbourne as another section of the anti submarine system.
Wellington Recreational Marine Fishers Association	S32/034	Map 10: Historic heritage navigation aids (Schedule E3)	Amend	Correct Map 10 [add light house at Ohau Point].
Wellington Recreational Marine Fishers Association	S32/035	Map 10: Historic heritage navigation aids (Schedule E3)	Amend	Include in Map 10 the upper Light House at Pencarrow Head.
Wellington Recreational Marine Fishers Association	S32/036	Map 8: Historic heritage structures (Schedule E1)	Amend	Include the Wrights Hill Fortress in Schedule E1 and Map 8 with a similar description that I have just copied off the internet [See original submission for details and submission point S32/057].
Wellington Recreational Marine Fishers Association	S32/037	Rule R61: Existing wastewater - discretionary activity	Amend	Recognise in the Plan that discharge of endocrine chemical to land or sea is a major issue and address it in a standalone rule. At present there is no requirement to measure or set an acceptable level of endocrine chemical being discharged from council waste water pipes.
Wellington Recreational Marine Fishers Association	S32/038	Rule R62: New wastewater to fresh water - non-complying activity	Amend	Recognise in the Plan that discharge of endocrine chemical to land or sea is a major issue and address it in a standalone rule. [See submission point S32/037].

Wellington Recreational Marine Fishers Association	S32/039	Schedule F5: Habitats with significant indigenous biodiversity values in the coastal marine area	Amend	Replace the word saltmarsh with the "intertidal zone". Acquire the marine and inter tidal knowledge to describe the values of the "intertidal zone" to both freshwater and marine species. There are far too many errors in the description "General descriptor". Rewrite this to a far higher standard to prove the WRC knows something about the "intertidal zone". What has been written is a school room description of the intertidal zone, which is not good enough for the Natural Resources Plan for the Wellington Region.
Wellington Recreational Marine Fishers Association	S32/040	Schedule F5: Habitats with significant indigenous biodiversity values in the coastal marine area	Amend	Correct spawning times [for inanga] to 1st Jan to 31 May. We have a huge fluctuation of water temperatures over the summer months and we have already proved inanga spawn in the early summer months. They may spawn in August up north when the water temperature would suit them but not here as the water would be too cold.
Wellington Recreational Marine Fishers Association	S32/041	5.7.2 Coastal management general conditions	Amend	Correct spawning times [for inanga] to 1st Jan to 31 May. We have a huge fluctuation of water temperatures over the summer months and we have already proved inanga spawn in the early summer months. They may spawn in August up north when the water temperature would suit them but not here as the water would be too cold.
Wellington Recreational Marine Fishers Association	S32/042	Schedule F4: Sites with significant indigenous biodiversity values in the coastal marine area	Amend	Include the Moera Estuary and the Shandon Estuary in the PNRP. [See detailed reasons in original submission]. Prepare a special management plan for the listed Waikanae Estuary as DOC aerial spray weed killer over the whole estuary every year in some misguided belief that chemicals only settle on weeds.

Wellington Recreational Marine Fishers Association	S32/043	Schedule F3a: Contents of restoration management plans	Amend	Insert a new section "Environmental factors to consider" in Schedule F3a. This will list a range of requirements from sea level through all tide ranges, major river flow channels, the effects of air pressure that can raise or lower sea levels past projected heights. The list will also set out to include projected sea levels based on climate change predictions. The list will also include rain fall patterns over the last ten years for that area. Schedule should provide a great deal more information than what is on display in F3a.
Wellington Recreational Marine Fishers Association	S32/044	Schedule F1a: Known spawning and migration times for indigenous fish species	Amend	Include yellow eyed mullet and spawning habitat and times. Include grey mullet spawning times and the habitat they use.
Wellington Recreational Marine Fishers Association	S32/045	Schedule E1: Historic heritage structures	Amend	Include [the barracks and the heavy gun battery above the hills south of Makara] in Schedule E 1 and Map 8. It qualifies as a "significant historic heritage site" alongside the Pukerua Bay Machine Gun Posts, the Mana Esplanade Machine Gun Posts, The Worsler Bay tank Obstacles.
Wellington Recreational Marine Fishers Association	S32/046	Schedule E1: Historic heritage structures	Amend	Include [the concrete look out post and barracks over looking Moa Point] in Schedule E1 and Map 8 this site that overlooks the entrance to Wellington Harbour. It qualifies as a "significant historic heritage site" along site the Pukerua Bay Machine Gun Posts, the Mana Esplanade Machine Gun Posts, The Worsler Bay tank Obstacles.
Wellington Recreational Marine Fishers Association	S32/047	Schedule E1: Historic heritage structures	Amend	Correct Schedule E1, Map 8 and Schedule E2 to include Fort Balance and the history of the site. While it is no longer visible there was once a wharf that went from Ward Island to Eastbourne as another section of the anti submarine system.

Wellington Recreational Marine Fishers Association	S32/048	Schedule E2: Historic heritage wharves and boatsheds	Amend	Correct Schedule E2 to include Fort Balance and the history of the site. While it is no longer visible there was once a wharf that went from Ward Island to Eastbourne as another section of the anti submarine system.
Wellington Recreational Marine Fishers Association	S32/049	Schedule E3: Historic heritage navigation aids	Amend	Correct Schedule E3 and Map 10 to add [the Light House at Ohau Point].
Wellington Recreational Marine Fishers Association	S32/050	Schedule E2: Historic heritage wharves and boatsheds	Amend	Include in Schedule E2 "Historic heritage wharves and boat sheds" the wharves at Oteranga Bay.
Wellington Recreational Marine Fishers Association	S32/051	Schedule E2: Historic heritage wharves and boatsheds	Amend	Include Burnham Wharf in Schedule E2.
Wellington Recreational Marine Fishers Association	S32/052	Schedule E3: Historic heritage navigation aids	Amend	Include in Schedule E3 and Map 10 Historic Navigation Aids the upper Light House at Pencarrow Head.
Wellington Recreational Marine Fishers Association	S32/053	Schedule F4: Sites with significant indigenous biodiversity values in the coastal marine area	Amend	[Include the Kohangapiripiri and Kohangatera Lakes estuaries]. Include the importance of these estuaries to the fish that traditionally would have used the waters in these lakes. Include a time line when the waters into and out of the lakes is going to be restored to what they were thirty five years ago.
Wellington Recreational Marine Fishers Association	S32/054	Schedule A1: Rivers with outstanding indigenous ecosystem values	Amend	Include the Makara Stream in Schedule A1 in recognition of its unique ecosystems.
Wellington Recreational Marine Fishers Association	S32/055	Schedule A3: Wetlands with outstanding indigenous biodiversity values	Amend	Conform to the requirements of the NZCPS and delete all references to saltmarsh [in Schedule A3] and rename these zones intertidal zones.

Wellington Recreational Marine Fishers Association	S32/056	Schedule F2: Habitats for indigenous birds	Amend	Introduce an extra section to Schedule F2 that names the [54 different marine species found in Wellington Harbour that weigh over 500 grams].
Wellington Recreational Marine Fishers Association	S32/057	Schedule E1: Historic heritage structures	Amend	Include the Wrights Hill Fortress in schedule E1 and Map 8 with a similar description that I have just copied off the internet [see original submission for details].
Wellington Recreational Marine Fishers Association	S32/058	Rule R42: Minor discharges - permitted activity	Amend	Change the term "zone of reasonable mixing" to "agreed sampling method" [where it appears throughout the Plan]. Describing that freshwater and seawater mix is not true as they do not readily mix. [See original submission for detailed description of difficulties associated with the term "zone of reasonable mixing" and wastewater samples].
Wellington Recreational Marine Fishers Association	S32/059	Zone of reasonable mixing	Amend	Change the term "zone of reasonable mixing" to "agreed sampling method" [where it appears throughout the Plan]. Describing that freshwater and seawater mix is not true as they do not readily mix. [See original submission for detailed description of difficulties associated with the term "zone of reasonable mixing" and wastewater samples].
Wellington Recreational Marine Fishers Association	S32/060	Method M16: Contaminated land	Amend	[The WRC should comply with Method M16 and restore the park in Grenada North up Jamaica Drive and into Caribbean Rd to a useable state]. The WRC has for years failed to comply with Method M16. Either the provision has two meanings either that the WRC will work with councils (WCC) to remedy the discharge or if it is too hard to repair the WRC will devolve all responsibility and write up meaningless provisions in the Natural Resources Plan. Which of course is unacceptable.
Wellington Recreational Marine Fishers Association	S32/061	Schedule E1: Historic heritage structures	Amend	Include in Schedule E1 the reason why there is a large concrete base both sides of the Seton Nossiter Park.

Wellington Recreational Marine Fishers Association	S32/062	Map 8: Historic heritage structures (Schedule E1)	Amend	Include in Map 8 the reason why there is a large concrete base both sides of the Seton Nossiter Park.
Wellington Recreational Marine Fishers Association	S32/063	Method M4: Sea level rise	Amend	Rewrite Method M4 to reflect what is happening now not in "at least every ten years" time and to describe how WRC will develop a plan to enable storm surges to be predicted with a twenty-four hour warning. [See original submission for details on using air pressure rather than tidal data for predictions].
Wellington Recreational Marine Fishers Association	S32/064	Rule R200: Dredging for flood protection purposes or erosion mitigation - controlled activity	Amend	Find another method to dispose of the mud from the sand extraction process plant at the end of the Hutt River. It is unacceptable for the WRC to be knowingly in breach of [Rule 200].
Wellington Recreational Marine Fishers Association	S32/065	5.7.2 Coastal management general conditions	Amend	Reword [Note to 5.7.2(h)] to encourage stream banks to be protected with native plants. Include the words "native intertidal plants" so that WRC staff stop ripping out native intertidal plants. Stop this stream mismanagement by the WRC. The wording must make it clear native flax, raupo and toetoe are to be planted at the bottom of the stream banks to protect them.
Wellington Recreational Marine Fishers Association	S32/066	4.8 Discharges to land and water	Amend	Recognise in the Plan that discharge of endocrine chemical to land or sea is a major issue and address it in a standalone rule. [See submission point S32/037].
Wellington Volunteer Coastguard	S178/001	Rule R181: New swing moorings outside Mooring Areas - non complying activity	Amend	The Public Notification requirement is removed from the rule.

Wellington Water Limited	S135/001	2.1.3 Rules	Amend	Include the legally binding nature of objectives and policies. Include a sentence about the presumption of sections 14 & 15 RMA. Include provisions of any NES. In describing non-complying status, refer to the necessary legal tests, to clarify what "generally appropriate" means. Clarify the legal status of bundling of rules, particularly in relation to the ability to change one component of a complex multi-faceted activity, without having to seek a whole new suite of consents. Include definitions for dam, weir and aquiclude.
Wellington Water Limited	S135/002	Active bed (rivers and streams)	Amend	Change the definition to be consistent with the RMA.
Wellington Water Limited	S135/003	Aquatic ecosystem health	Amend	Re-define to not refer to a variable.
Wellington Water Limited	S135/004	Aquifer	Amend	Re-define what an aquifer is, not what it can be used for. Create new definition of "Aquaclude" in reference to rules R146 and R147.
Wellington Water Limited	S135/005	Biodiversity offset	Amend	Reconsider the definition in the legal context of the RMA and case law.
Wellington Water Limited	S135/006	Biosolids	Amend	Delete second half of the sentence.
Wellington Water Limited	S135/007	Bore	Amend	Include controls on piles and other structures that penetrate into or through an aquiclude. Add a new definition of "Aquiclude is a geological formation or stratum that confines water in an adjacent aquifer" or to like effect.
Wellington Water Limited	S135/008	Category A groundwater	Amend	Confirm that groundwater entering a stormwater pipe is not "taking water".
Wellington Water Limited	S135/009	Catchment based flood and erosion risk management activities	Amend	Include the relationship of these activities to stormwater management to remove any uncertainty about what is included or excluded.

Wellington Water Limited	S135/010	Coastal restoration plan	Amend	Clarify what is meant by "natural state" and recognise that most of the urban Wellington region coastline has been extensively developed.
Wellington Water Limited	S135/011	Cultural impact assessment	Amend	Remove reference to Treaty claims.
Wellington Water Limited	S135/012	Drain	Amend	Delete "only during rainfall events" and amend to indicate a drain may convey water at times other than rainfall. Define "natural watercourse" and recognise that they are part of a stormwater network in an urban context.
Wellington Water Limited	S135/013	Existing discharge	Amend	"Change to ""...means a discharge from an existing wastewater network which may or may not be already authorised by an existing consent" or to like effect. Alternatively, add definition for existing wet weather overflows. Add "In the context of a wastewater network means a discharge already authorised by resource consent at the time of application for a new resource consent relating to the same activity and may include historic wet weather overflow locations that have not previously been specifically authorised by resource consent." Alternatively, add definition for existing wet weather overflows. Add "In the context of a wastewater network means a discharge already authorised by resource consent at the time of application for a new resource consent relating to the same activity and may include historic wet weather overflow locations that have not previously been specifically authorised by resource consent."
Wellington Water Limited	S135/014	Efficient allocation	Amend	Define "economic efficiency", "technical efficiency" and "allocative efficiency"
Wellington Water Limited	S135/015	Ephemeral flow path	Amend	(a) Amend "does not have an active bed" to be consistent with other definitions. (c) Amend to "only conveys water during, and immediately following a significant rainfall (> than x mm per hour) or similar effect.
Wellington Water Limited	S135/016	Good management practice	Amend	Redefine to make the definition more certain and be clear about the limits of it applicability.
Wellington Water Limited	S135/017	Hard engineering	Amend	Add "or infrastructure" after "to prevent erosion of the land".

Wellington Water Limited	S135/018	Health needs of people	Support	Support
Wellington Water Limited	S135/019	High hazard areas (also known as areas at high risk from natural hazards)	Amend	Reconsider the definition of high hazard areas so that it is based on an appropriate assessment of actual hazard.
Wellington Water Limited	S135/020	Highly modified river or stream	Amend	Amend the definition to be applicable to urban stormwater networks that include large numbers of watercourses and open drains, including intake structures. The definition needs to work with relevant rules to allow clearance of debris to prevent flooding to be a permitted activity.
Wellington Water Limited	S135/021	Low energy receiving environments	Amend	Separate freshwater from coastal, and clarify when this term may be used.
Wellington Water Limited	S135/022	Minimum flow or water level	Amend	Redefine so the definition is not circular.
Wellington Water Limited	S135/023	New discharge	Amend	Change to "In the context of ... wastewater network means a new or proposed new structure which may discharge into freshwater or marine coastal area under reasonably foreseeable conditions" or to like effect.
Wellington Water Limited	S135/024	Pumped drainage scheme	Amend	Clarify if this refers to stormwater and wastewater.
Wellington Water Limited	S135/025	Reclamation	Amend	Amend the definition of reclamation to clarify its meaning in relation to the bed of a lake or a river. Ensure policies (P102) and rules (R127) in terms of reclamation are consistent with other provisions for temporary damming and diversion of rivers or lakes.
Wellington Water Limited	S135/026	Regionally significant infrastructure	Amend	Replace the sixth bullet point with "the local authority water supply network, water treatment plants and intake works" or similar.

Wellington Water Limited	S135/027	Stormwater	Amend	Broaden the definition to include water that has infiltrated and percolated through soil to a drain and includes groundwater (or to like effect). Or use the Regional Water Standards definition of "Rain water that does not percolate into the groundwater or evaporate, but flow via overland flow, interflow, channels or pipes into a defined channel, open watercourse or a constructed infiltration facility."
Wellington Water Limited	S135/028	Stormwater network	Amend	Include to the effect of " including open watercourses where they function and are managed as part of the local authority stormwater network. " Remove "kerbs" from the definition.
Wellington Water Limited	S135/029	Stormwater management strategy	Amend	Change the name to Stormwater management plan. Remove references to land use planning.
Wellington Water Limited	S135/030	Unused water	Amend	Change the definition to specifically exclude community drinking water suppliers. Alternatively, provide a separate definition for a community drinking water supply to the effect of requiring justification of unused water by way of a risk management framework.
Wellington Water Limited	S135/031	Upgrade	Amend	Change "current standards" to "community decided levels of service" or to like effect. Change the definition so that infrastructure can accommodate growth.
Wellington Water Limited	S135/032	Vegetation clearance	Amend	Include hand clearance in the definition.
Wellington Water Limited	S135/033	Wastewater	Amend	Exclude "but excluding stormwater".
Wellington Water Limited	S135/034	Wastewater network	Amend	Redefine to the effect of " A community reticulated wastewater system, a network of devices designed to accept and transport wastewater from properties to a treatment plant and discharge wastewater, including but not limited to devices, pipes and pump stations."
Wellington Water Limited	S135/035	Zone of reasonable mixing	Amend	Change the definition to be effects based. Provide a policy to define the zone with certainty. Define and use the term "assimilative capacity". Provide a reasonable mixing zone definition for discharges into the coastal marine area.

Wellington Water Limited	S135/036	Objective O5: Fresh and coastal water	Amend	Amend to include qualifiers as to when and where this objective applies and whether it applies when natural perturbations such as flooding, are supposed to be suitable for swimming.
Wellington Water Limited	S135/037	Objective O6: Health needs of people	Support	Add new Objective: Sufficient water is available to meet the communities' need to fight fires (or similar).
Wellington Water Limited	S135/038	Objective O8: Allocation regime	Support	Support
Wellington Water Limited	S135/039	Objective O12: Benefits of regionally significant infrastructure	Amend	Add to the end "...are recognised and protected."
Wellington Water Limited	S135/040	Objective O13: Protecting regionally significant infrastructure	Amend	Amend to protect significant three waters infrastructure against reverse sensitivity in all environments, not just the coastal marine area.
Wellington Water Limited	S135/041	Objective O20: Risk from natural hazards	Amend	Clarify what "acceptable" means in this context.
Wellington Water Limited	S135/042	Objective O22: Hard engineering	Amend	Clarify that hard engineering may be required to protect regionally significant infrastructure when it is the most cost effective measure.
Wellington Water Limited	S135/043	Objective O24: Contact recreation and Maori customary use	Amend	Clarify that shellfish gathering is not appropriate within vicinity of stormwater or wastewater outfalls due to risk of pathogens from urban area contaminants.
Wellington Water Limited	S135/044	Objective O29: Fish passage	Amend	Qualify by allowing an exception for regionally significant infrastructure or if required by the functional need of infrastructure. Clarification of when restoration of fish passage is appropriate.

Wellington Water Limited	S135/045	Objective O48: Stormwater networks	Amend	Specify what these adverse effects are, particularly to those of stormwater quantity. Refer to those aspects that the stormwater network managers are able to control (which does not include land use).
Wellington Water Limited	S135/046	Objective O49: Wastewater discharges to land	Amend	Redesign the objective to recognise the existing wastewater disposal infrastructure from existing facilities in the four metropolitan cities in the region. It needs to align with the objective of recognising and protecting (consistent with the RPS objective) regionally significant infrastructure and the existing community investment. It needs to refer to the assimilative capacity of the receiving environment, recognising that land disposal has its own limitations.
Wellington Water Limited	S135/047	Objective O50: Wastewater discharges to fresh water	Amend	Apply to coastal water, add "where appropriate" to recognise the mixing available.
Wellington Water Limited	S135/048	Objective O52: Efficient allocation	Amend	Delete "and maximised" from the initial sentence. In (a) clarify what "efficient" means. Clarify the meaning of good management practice in the context of (b). Suggest (c) be reworded as "increasing to the extent that is reasonably practicable the reuse and recycling of water and recovery of contaminants" or something similar.
Wellington Water Limited	S135/049	Policy P1: Ki uta ki tai and integrated catchment management	Amend	Refer to notions of affordability for communities, and the willingness to balance environmental quality standards with the cost of paying for improvements to achieve them.
Wellington Water Limited	S135/050	Policy P3: Precautionary approach	Amend	Make this policy consistent with the New Zealand Coastal Policy Statement Policy 3. Make it refer to significant adverse effects (not just adverse), and refer to the effects that are little known, not the knowledge base of the receiving environment. State how such activities will be treated in a policy sense, so that this goes beyond a definition to being able to give effect to an objective.

Wellington Water Limited	S135/051	Policy P4: Minimising adverse effects	Amend	"Amend to recognise the lack of choice of location for existing infrastructure and the sunk investment. Refer to efficiency and cost-effectiveness of infrastructure rather than ""good management practice"". Amend to the effect of "Where minimisation of adverse effects is required by policies in this plan ... to the smallest amount reasonably (or cost effectively) practicable and shall include giving consideration to:" Provide more specific wording for clause (b) 'locating the activity away from' . "
Wellington Water Limited	S135/052	Policy P5: Review of existing consents	Amend	Include all relevant obligations under section 128(1) RMA, including the purpose of the review.
Wellington Water Limited	S135/053	Policy P6: Synchronised expiry and review dates	Amend	Clarify whether the Whaitua catchments include the coastal marine area. Clarify what happens to the expiry date of existing consents that do not match with the other consents in the catchment. Clarify the circumstances where "may impede" is relevant.
Wellington Water Limited	S135/054	Policy P7: Uses of land and water	Amend	Include reference to the social and economic benefits of providing stormwater systems to protect against flooding.
Wellington Water Limited	S135/055	Policy P8: Beneficial activities	Amend	Add public water supply, protection of the community and property from flooding by stormwater networks and protection of public health by maintaining and operating a wastewater network and disposal system to the list of beneficial activities. Remove "generally appropriate" from (c). Include "operation of" existing structures in (h). Include "or infrastructure" between "monitoring resource use" and "or the state of the environment" in (j).
Wellington Water Limited	S135/056	Policy P10: Contact recreation and Maori customary use	Amend	Remove (a) or (b) or clarify the relationship to each other.

Wellington Water Limited	S135/057	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Amend	Replace "by having regard to" with "and protected" to the end of the sentence (or to like effect). Add new benefits of the provision of the health needs of people with a potable water supply, the protection of people and property from flooding and the protection of public health by the provision of a wastewater service.
Wellington Water Limited	S135/058	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Amend	Replace "are generally appropriate" with "are protected" or similar. See consequential amendments to rules R114 and R116 [submission points s135/163 and s135/164].
Wellington Water Limited	S135/059	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Support	Support
Wellington Water Limited	S135/060	Policy P15: Flood protection activities	Amend	Replace "are generally appropriate" with "are protected" or similar. Clarify that stormwater management and river flood protection infrastructure are included, for the avoidance of doubt.
Wellington Water Limited	S135/061	Policy P16: New flood protection and erosion control	Amend	Add " <u>and provided for</u> " or similar.

Wellington Water Limited	S135/062	Policy P27: High hazard areas	Amend	<p>Include protection of regionally significant infrastructure in high hazard areas in the list. Use plain English terms for "fluvial and lacustrine processes" in (e). Delete exception (b). Reconsider the definition of high hazard areas so that it is based on an appropriate assessment of actual hazard. Clarify in what circumstances a risk assessment is required with a consent application, and what that should comprise, ensuring the assessment is only required in appropriate situations and is commensurate to the scale of the activity.</p>
Wellington Water Limited	S135/063	Policy P63: Improving water quality for contact recreation and Maori customary use	Amend	<p>Recognise and provide for stormwater discharges as regionally significant infrastructure, recognising the widespread long-term benefits to people and property, recognising that the discharges cannot be stopped, that the network is long-term providing and the policy should provide an expectation for the longest term consents and its effects are capable of being well characterised. In (a), clarify whether the intent should be "identified by using Method M27". Clarify whether the prominence given to stormwater inputs in (b) is justified. Schedule N stormwater management strategies should be amended to a risk based approach based on existing asset management practices and confine itself to matters the network operator has control over.</p>
Wellington Water Limited	S135/064	Policy P28: Hazard mitigation measures	Amend	<p>Include "and regionally significant infrastructure" after "to protect existing development". Do not require a hazard management strategy for regionally significant infrastructure. The wording should be widened to exempt hard engineering measures that contribute to protection of the environment or public assets, and mitigation of adverse effects. Clarify in what circumstances a risk assessment is required with a consent application, and what that should comprise, ensuring the assessment is only required in appropriate situations and is commensurate to the scale of the activity.</p>
Wellington Water Limited	S135/065	Policy P29: Climate change	Amend	<p>Replace "best" in (d) with who's estimate it will be or where it might be documented, for consistency and avoiding doubt.</p>

Wellington Water Limited	S135/066	Policy P31: Aquatic ecosystem health and mahinga kai	Amend	Suggest substitute "enhanced" for "restored" in the first line. Remove "managing the effects of use and development on physical, chemical and biological processes to". Remove "indigenous" from (e).
Wellington Water Limited	S135/067	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Amend	Provide definition or guidance on what comprises "Significant adverse effects". Suggest rephrasing (d) to something like "offsetting of any significant residual adverse effects may be considered as part of mitigation in accordance with schedule G for the coastal marine area". Identify the objective and policy framework for applying "no net loss" via schedule G. Remove biodiversity offsets for regionally significant infrastructure. Provide an exclusion for the operation, maintenance and upgrade of existing regionally significant infrastructure.
Wellington Water Limited	S135/068	Policy P33: Protecting indigenous fish habitat	Amend	In the first paragraph, replace "avoided" with "reduced to a practical minimum" or like effect. Include a practical time element into (c). Either delete "particularly" in the first sentence of the policy or include "relevant migration times" in (c). Revise the language in a way that protects indigenous fish habitat from significant adverse effects (rather than any adverse effect) and to recognise that effects cannot always be avoided completely and nor is it always necessary or appropriate to do so.
Wellington Water Limited	S135/069	Policy P34: Fish passage	Amend	State conditions when fish passage may be interrupted for the purposes of constructing, maintaining, operating or protecting regionally significant infrastructure. Recognise that some waterbodies may not represent significant new fish habitat.
Wellington Water Limited	S135/070	Policy P35: Restoring fish passage	Amend	Add "to the extent practicable". Clarify "where appropriate". Clarify why (or if) this applies to non-indigenous species.
Wellington Water Limited	S135/071	Policy P39: Adverse effects on outstanding water bodies	Amend	Replace "shall be avoided" with "shall not be more than minor" or to like effect, or such other changes as will ensure that this policy does not override the recognition and protection of regionally significant three waters infrastructure, as required by the RPS.

Wellington Water Limited	S135/072	Policy P40: Ecosystems and habitats with significant indigenous biodiversity values	Amend	Provide for the identification of piped sections of urban streams and provide for the ongoing maintenance, operation and upgrade of what is regionally significant infrastructure. The policy framework needs to recognise the difference between piped and natural streams within Schedule F1.
Wellington Water Limited	S135/073	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Amend	Provide for the identification of piped sections of urban streams and provide for the ongoing maintenance, operation and upgrade of what is regionally significant infrastructure. The policy framework needs to recognise the difference between piped and natural streams within Schedule F1.
Wellington Water Limited	S135/074	Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values	Amend	Provide definition or guidance on what comprises "Significant adverse effects". Suggest rephrasing (d) to something like "offsetting of any significant residual adverse effects may be considered as part of mitigation in accordance with schedule G for the coastal marine area". Identify the objective and policy framework for applying "no net loss" via schedule G. Remove biodiversity offsets for regionally significant infrastructure. Provide an exclusion (or to like effect) for the operation, maintenance and upgrade of existing three waters regionally significant infrastructure.
Wellington Water Limited	S135/075	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Replace "restored" with "enhanced" or "improved"
Wellington Water Limited	S135/076	Policy P46: Managing adverse effects on sites with significant historic heritage value	Amend	Phrase the policy in the active sense so that it is clear whether an active obligation on someone (owner?) to fix previous damage or deterioration of historic heritage is intended. If so, state where this obligation comes from.
Wellington Water Limited	S135/077	Policy P52: Managing ambient air quality	Amend	Clarify whether discharges to air from wastewater and potable water treatment plants fit into this policy, and provide an exclusion for them if they are caught by this policy.

Wellington Water Limited	S135/078	Policy P58: Industrial discharges	Amend	Clarify whether discharges to air from wastewater and potable water treatment plants fit into this policy, and provide an exclusion for them if they are caught by this policy, or, provide a policy specifically for such discharges. Remove reference to good management practice, unless a particular practice guide is referenced.
Wellington Water Limited	S135/079	Policy P59: Industrial point source discharges	Amend	Clarify whether discharges to air from waste water and potable water treatment plants fit into this policy. Provide a policy specifically for such discharges. Remove reference to good management practice, unless a particular practice guide is referenced.
Wellington Water Limited	S135/080	Policy P62: Promoting discharges to land	Amend	Suggest that qualifiers are added that include consideration of the assimilative capacity of the soil, potential erosion and odour effects, reverse sensitivity effects, inability to use such land for agricultural production for market sensitivity reasons, and provide for rules to allow for practical discharges of effluent.
Wellington Water Limited	S135/081	Policy P64: Mixing waters	Amend	Replace "catchments" with "whaitua" or similar.
Wellington Water Limited	S135/082	Policy P67: Minimising effects of discharges	Amend	Consider the applicability of this policy and the necessary constraints to it. Change (a) to the effect of increasing efficiencies or seeking out latest technologies to reduce contaminant production. In (d), instead of using "where appropriate", refer to doing so within the constraints of the assimilative capacity of the soil, erosion effects and reverse sensitivity effects (or to like effect).
Wellington Water Limited	S135/083	Policy P68: Inappropriate discharges to water	Amend	Amendment and clarification. (a) Change "extreme weather related overflows" to "heavy rainfall events" consistent with policy P76. Specify if (c) includes discharges from wastewater or potable water treatment plants.
Wellington Water Limited	S135/084	Policy P69: Human drinking water supplies	Amend	Amend (e) to read "treatment, operation and maintenance" or to similar effect.

Wellington Water Limited	S135/085	Policy P70: Managing point source discharges for aquatic ecosystem health and mahinga kai	Amend	Change (a)(i) to clarify this applies to new consents for existing consented activity when the existing consents expire. Remove reference to "good management practice" or specify the intent or limits or recognised procedures. Clarify that offsetting is part of mitigation and not an additional step to "avoid, remedy or mitigate" in section 5 RMA. Clarify when offset residual effects will be considered.
Wellington Water Limited	S135/086	Policy P71: Quality of discharges	Amend	Constrain the circumstances to be consistent with schedule 3 RMA, that is, "apply after reasonable mixing of any contaminant or water with the receiving water and disregarding the effect of any natural perturbations that may affect the water body".
Wellington Water Limited	S135/087	Policy P72: Zone of reasonable mixing	Amend	Delete Policy P72.
Wellington Water Limited	S135/088	Policy P73: Minimising adverse effects of stormwater discharges	Amend	Remove the term good management practice or clarify how it relates to normal current engineering practice or asset management systems. Remove references to techniques that are subject to decisions made under other legislation, such as the Local Government Act (bylaws) and techniques that can only happen through a district plan change. Acknowledge that non-regulatory methods are likely to be the most effective way of implementing this policy rather than rules. Amend (c) to Implementing water sensitive urban design in new subdivisions and development (where topography and soil type allow) (or like effect).
Wellington Water Limited	S135/089	Policy P74: First-stage local authority network consents	Amend	The policy should focus on the effects of the discharges and not on managing the network. Amend the policy so that it is written with explicit "matters of assessment", rather than a prescription of asset management activities. The stormwater network should be recognised and protected as regionally significant infrastructure where stormwater flow cannot be stopped. Obtain information on how the network is managed from existing documentation such as asset management plans etc. Specify monitoring that directly attributes to the discharge and is certain. (C) is business as usual for managing a network and does not add anything.

Wellington Water Limited	S135/090	Policy P75: Second-stage local authority network consents	Amend	Make an expectation for long term consents. Re-write the policy so that it does not read like a rule, so that the list is of matters of assessment rather than solutions. (a) the Waitua limits could be imposed onto an existing long term consent by review clause and an enabling policy in the plan. (b) should be re-written so that stormwater is one of many influences on receiving water quality and plans contribute but are not only responsible for meeting those Waitua established objectives. (d) Remove "good management practice". Delete this sub-section pending economic analysis of the impacts of land based treatment of stormwater for all new stormwater networks. (e) remove and place in relevant wastewater policy. (f) re-word to make it clear that network managers only control what is in the network.
Wellington Water Limited	S135/091	Policy P76: Minimising wastewater and stormwater interactions	Amend	Change the title to clarify the intent of "interactions". (a) delete as it is impracticable and contrary to public health objectives. It belongs in the previous policy on stormwater. As an alternative change to "reduce" or similar. (b) "from the existing sewerage system" becomes unnecessary. The word "reduce" is preferred rather than eliminate, but we need to be cautious not to overstate the ability to reduce inflow and infiltration. (c) retain term "heavy rainfall".
Wellington Water Limited	S135/092	Policy P78: Managing stormwater from large sites	Amend	Clarify how this policy relates to provisions about local authority stormwater networks. In accordance with recommended policy construction (Quality Planning website) change the policy to be a list of matters of environmental assessment. Clarify the use of "good management practice" or remove the term.
Wellington Water Limited	S135/093	Policy P79: Managing land use impacts on stormwater	Amend	Clarify whether a district plan change is intended in order to achieve this policy. Clarify that this policy is to be achieved by non-regulatory collaborative methods. (b) refer to not increasing risk rather than causing a risk. Clarify the intention and detail of "retaining as far as practicable, pre-development hydrographs and overland flow paths".

Wellington Water Limited	S135/094	Policy P80: Replacing wastewater discharge consents	Amend	Delete and reword to say how consent applications will be treated and provide a relevant list of matters of assessment. Also recognise and protect regionally significant infrastructure by explicitly recognising the existing community investment and allow for previous studies on land disposal options for wastewater discharge to be submitted for new consents, even if they are required to be updated. It could recognise that funds for a consent process would otherwise be allocated to physical improvements to the system and discharge water quality. It could describe how the financial costs of such consent processes could be minimised, whilst still allowing for public participation.
Wellington Water Limited	S135/095	Policy P81: Minimising and improving wastewater discharges	Amend	Provide for existing discharges to coastal water. Replace "shall be minimised" with "to achieve the water quality outcomes in this Plan". If progressive improvement or reduction is retained, state the baseline to be measured. Distinguish between discharges to freshwater and coastal water based on the difference in effects on the environment and the assimilative capacity. Apply a separate approach for each city and recognise the differences in scale and effects.
Wellington Water Limited	S135/096	Policy P82: Mana whenua values and wastewater discharges	Amend	Clarify the intent of this policy to recognise which agency manages what aspects, to clarify the values and interests, and to clarify the matters of assessment.
Wellington Water Limited	S135/097	Policy P83: Avoiding new wastewater discharges to fresh water	Amend	Amend definitions of existing and new wastewater network discharges. Change "avoid" to allow for a discretionary activity status for such discharges from regionally significant infrastructure whose purpose is to protect public health.
Wellington Water Limited	S135/098	Policy P85: Biosolids and treated wastewater to land	Amend	Provide sufficient policy support and assessment criteria to support rules R77 to R80. Consider also referring to "Best management practices for applying biosolids to forestry plantations in New Zealand" GN Magesan, Hailong Wang, Peter Climton, February 2010 NZ Forest Research Institute Ltd.
Wellington Water Limited	S135/100	Policy P97: Managing sediment discharges	Amend	Remove "good management practice" or be more specific, for example, refer to published guidelines. Remove reference to offsetting.

Wellington Water Limited	S135/101	Policy P102: Reclamation or drainage of the beds of lakes and rivers	Amend	Extend (c) to include growth areas identified in a District Plan or structure plan approved by the local authority. Ensure that the definition of "upgrade" in (d) means that infrastructure is brought up to "community decided levels of service" not "current standards" so that infrastructure can accommodate growth. Introduce a new policy to the effect of: Manage the reclamation or drainage of the beds of rivers associated with: (a) a qualifying development within a special housing area; or (b) associated with a growth or development framework or strategy approved by a local authority under the Local Government Act 2002 or contained within a District Plan to remedy, mitigate or offset adverse effects on instream values. Amend the definition of reclamation to clarify its meaning in relation to the bed of a lake or a river. Ensure this policy and rule R127 in terms of reclamation are consistent with other provisions for temporary damming and diversion of rivers or lakes.
Wellington Water Limited	S135/102	Policy P103: Management of gravel extraction	Amend	Clarify whether the intention is to address removal of gravel from the river.
Wellington Water Limited	S135/103	Policy P105: Protecting trout habitat	Amend	Clarify what the use and development is of. Amend (d) to read "maintain fish passage for trout where practical and appropriate, and"
Wellington Water Limited	S135/104	Policy P106: Management of plants in the beds of lakes and rivers	Amend	Clarify that this policy does not apply to the Macaskill water storage lakes or artificial constructed lakes.
Wellington Water Limited	S135/105	Policy P107: The framework for taking and using water	Support	Support
Wellington Water Limited	S135/106	Policy P108: Integrating groundwater and surface water	Support	Support
Wellington Water Limited	S135/107	Policy P109: Lapse dates affecting water takes	Amend	Clarify if a growth forecasting change would meet the "scale or complexity" criteria in the context of building new bulk water supply capacity.

Wellington Water Limited	S135/108	Policy P111: Water takes at minimum flows and water levels	Support	Add root stock protection.
Wellington Water Limited	S135/109	Policy P112: Priorities in drought and serious water shortage	Amend	Replace "human health" with "health needs of people". Put the purposes that water takes shall be limited to in order of priority, with health needs of people first, followed by fire-fighting, stock drinking water and protection of root stock before other uses.
Wellington Water Limited	S135/110	Policy P113: Core allocation for rivers	Amend	Add: "Unless scientific information indicates that abstraction at other rates is appropriate" or similar. See also comments under chapter 8 Wellington Harbour and Hutt Valley Whaitua. The priority of allocation for normal, non-drought or shortage circumstances, should reflect the priorities in policy P114, being health needs of people, fire fighting, stock drinking water, rootstock.
Wellington Water Limited	S135/111	Policy P114: Priorities when demand exceeds supply	Amend	Amend (c) to read fire fighting. Add (d) root stock protection.
Wellington Water Limited	S135/112	Policy P115: Authorising takes below minimum flows and lake levels	Amend	In (b), clarify the meaning that water may be used by industry for a period of 7 years from the date of notification of the Plan. Add after (e): "or where authorised by an existing Resource Consent".
Wellington Water Limited	S135/113	Policy P116: Reallocating water	Support	Support
Wellington Water Limited	S135/114	Policy P118: Reasonable and efficient use	Amend	Rephrase (b) to clarify what "maximising" means in relation to designing systems and how that relates to operations to maintain a level of efficiency. Suggest add (e) "Risk management and redundancy policies adopted by the operators of regionally significant water supply infrastructure as provided for in Schedule Q (efficient use)."

Wellington Water Limited	S135/115	Policy P119: Unused water	Amend	Change definition to exclude community drinking water suppliers. Clarify whether policy applies to community water suppliers. Alternatively, for the purposes of community water supply, remove the four year period to show how unused water will be used. Extend (b) to read as follows: "b) satisfying the reasonable and efficient criteria identified in Schedule Q (efficient use), including risk management and redundancy provisions for essential services" or to like effect. Alternatively, insert a new point c) instead of amending point b) as follows (or to like effect) c) a risk based justification for retaining any unused allocation for the purpose of achieving system reliability for a group drinking water supply or community drinking water supply. Include a risk management strategy identifying the level of redundancy needed and assess the level of risk with and without the requested redundancy. Delete "...or the abstraction rate is changed..."
Wellington Water Limited	S135/116	Policy P120: Taking water for storage	Amend	Remove the term "is appropriate" and re-word to be certain, such as, "Water may be taken for storage outside a river bed at flows above the median flow provided Policy P117 is satisfied".
Wellington Water Limited	S135/117	Policy P121: Preventing salt water intrusion	Amend	Change to read: "(b) maintaining water levels at 2m above Wellington vertical datum 1953..." or to similar effect.
Wellington Water Limited	S135/118	Policy P122: Flow variability	Amend	[Not stated: Abstraction for river water takes for public water supply typically shuts down only during fresh events because of poor water quality.]
Wellington Water Limited	S135/119	Policy P123: Direct, cumulative adverse effects	Support	Support
Wellington Water Limited	S135/120	Policy P124: Surface water intakes	Support	Support
Wellington Water Limited	S135/121	Policy P125: Taking of groundwater	Amend	Change name of policy to "Taking of groundwater or disturbance of geology", or similar. Change wording to have the effect of: "The taking groundwater or undertaking of any activity that disturbs the ground shall not result in cross-contamination between aquifers or water-bearing layers that results in, or may result in, adverse effects on water quality." Alternatively create a new policy with similar intent.

Wellington Water Limited	S135/122	Policy P126: Site dewatering	Support	Support
Wellington Water Limited	S135/123	Policy P127: Backflow of contaminants	Amend	Include no backflow of contaminants from bores used to supply water for industrial processes or similar effect.
Wellington Water Limited	S135/124	Policy P128: Transfer of resource consents	Support	Support
Wellington Water Limited	S135/125	Policy P129: Minimum flows and water levels	Support	Support
Wellington Water Limited	S135/126	Policy P130: Bores	Amend	Add a new section to the effect of "The taking of groundwater shall not allow the interconnection of groundwater between aquifers and shall not result in cross-contamination" and requiring double casing of bores when implementing NZS 4411:2001.
Wellington Water Limited	S135/127	Policy P131: Bores no longer required	Amend	Clarify whether the policy is referring to the need to use a safe method of decommissioning an unused bore or whether it obliges owners or occupiers of unused bores to decommission them. All abandoned bores shall be decommissioned in a safe manner that does not compromise the aquifer and has minimal environmental effects. Insert a new Method that provides for collecting information about where the bores are and what condition they are in.
Wellington Water Limited	S135/128	Policy P136: Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson)	Support	Support
Wellington Water Limited	S135/129	Policy P138: Structures in sites with significant values	Support	Support (d)
Wellington Water Limited	S135/130	Policy P143: Deposition in a site of significance	Support	Support (e) and (f)

Wellington Water Limited	S135/131	Policy P147: Motor vehicles on the foreshore	Support	Support (d)
Wellington Water Limited	S135/132	Policy P148: Motor vehicles in sites with significant value	Support	Retain.
Wellington Water Limited	S135/133	Policy P149: Protection of the Titahi Bay fossil forest	Support	Retain.
Wellington Water Limited	S135/134	Rule R8: Diesel or kerosene - permitted activity	Support	Support
Wellington Water Limited	S135/135	Rule R12: Emergency power generators - permitted activity	Amend	Change "Emergency power generators" to "standby power generators".
Wellington Water Limited	S135/136	Rule R33: Mobile source emissions - permitted activity	Support	Support
Wellington Water Limited	S135/137	Rule R34: Gas, water and wastewater - permitted activity	Amend	Insert "processes" after "wastewater" in the title of the rule.
Wellington Water Limited	S135/138	Rule R42: Minor discharges - permitted activity	Amend	Provide a special category of permitted activity for regionally significant infrastructure, or have consents trigger to controlled activity status.
Wellington Water Limited	S135/139	Rule R43: Water to water - permitted activity	Support	Support

Wellington Water Limited	S135/140	Rule R45: Potable water - permitted activity	Support	Support
Wellington Water Limited	S135/141	Rule R46: Dye or salt tracer - permitted activity	Amend	Suggest (d) is amended to notification of GWRC Pollution Response Unit by phone or email prior to the testing.
Wellington Water Limited	S135/142	Rule R48: Stormwater from an individual property - permitted activity	Amend	Clarify how the rules relate to stormwater runoff from the local authority road network that goes into the local authority stormwater network.
Wellington Water Limited	S135/143	Rule R50: Stormwater from a local authority network at plan notification - controlled activity	Amend	Clarify what sort of acute effects are envisaged in matters of control "2". Clarify how the rules relate to stormwater runoff from the road network that goes into the stormwater network.
Wellington Water Limited	S135/144	Rule R51: Stormwater from a local authority network two years after public notification - restricted discretionary activity	Oppose	Allow for maximum term with review clause to implement the Whaitua outcomes. Make it controlled status. Justify why 2 years from notification of the plan. Clarify how the rules relate to stormwater runoff from the road network that goes into the stormwater network.
Wellington Water Limited	S135/145	Rule R52: Stormwater from large sites - restricted discretionary activity	Amend	Clarify how this rule relates to local authority stormwater network rules.
Wellington Water Limited	S135/146	Rule R53: All other stormwater - discretionary activity	Amend	Clarify the situations this rule is likely to apply to.
Wellington Water Limited	S135/147	Rule R61: Existing wastewater - discretionary activity	Amend	Re-draft the rules to distinguish between the nature of environmental effects between different scale of effects of continuous high volume wastewater treatment plants and occasional (wet weather) temporary discharges from pump station constructed overflows that have a minor and temporary effect only.

Wellington Water Limited	S135/148	5.2.6 Wastewater	Amend	Include a new rule that allows for new discharges of wastewater to coastal water. Amend definitions of existing and new wastewater network discharges in the Interpretation section [see submission points S135/13 and 25].
Wellington Water Limited	S135/149	Rule R71: Pit latrine - permitted activity	Support	No change sought.
Wellington Water Limited	S135/150	Rule R75: New or upgraded on-site wastewater systems - permitted activity	Amend	No change sought.
Wellington Water Limited	S135/151	Rule R76: New or upgraded on-site wastewater systems within community drinking water supply protection areas - controlled activity	Support	No change sought.
Wellington Water Limited	S135/152	Rule R77: Application of Aa biosolids to land - permitted activity	Amend	Refer to the Ministry for the Environment "Guidelines for the application of biosolids to land in New Zealand".
Wellington Water Limited	S135/153	Rule R78: Application of biosolids (Ab, Ba, or Bb) to land - restricted discretionary activity	Support	Retain
Wellington Water Limited	S135/154	Rule R79: Discharge of treated wastewater - controlled activity	Support	Retain

Wellington Water Limited	S135/155	Rule R80: Discharge of treated wastewater - restricted discretionary activity	Support	Retain
Wellington Water Limited	S135/156	Rule R81: Drinking water treatment plant supernatant waste - controlled activity	Support	Support
Wellington Water Limited	S135/157	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Support	Retain (e)(iii) to protect community drinking water supply areas.
Wellington Water Limited	S135/158	Rule R89: Farm refuse dumps - permitted activity	Support	Retain condition (d)(iii) to protect community drinking water supply areas.
Wellington Water Limited	S135/159	Rule R92: All discharges to land within community drinking water protection areas - restricted discretionary activity	Amend	Change name to "Rule R92". Clarify whether this rule includes the application of agrichemicals, pesticides, poison baits, etc
Wellington Water Limited	S135/160	5.5.4 Beds of lakes and rivers general conditions	Amend	No change to general conditions a, b, c, l, j. (d) Change to allow for short term stormwater networks maintenance activities to be permitted. (e) & (f) Specify exclusion for storm debris clearance work in the stormwater network. Condition (k) - extend the condition to include removal of flood debris against the stormwater intake structure and immediately upstream of it.

Wellington Water Limited	S135/161	Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Amend	Do not use % descriptor or clarify its use. Increase the projection dimensions to allow for reasonable protection by rip-rap. Allow for preventative maintenance procedures such as the use of gabion baskets. Include 'damming of water' in the list of associated activities that are permitted. Allow for temporary damming for conducting maintenance and operational work on infrastructure.
Wellington Water Limited	S135/162	Rule R113: Diversion of flood water by existing structures - permitted activity	Amend	Do not use % descriptor or clarify its use. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Wellington Water Limited	S135/163	Rule R114: River crossing structures - permitted activity	Amend	Allow for "The damming and diversion of water by a structure that was existing and lawful on the date of notification of this Plan as a Permitted Activity" or similar. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Wellington Water Limited	S135/164	Rule R116: Establishing a small dam and existing dams - permitted activity	Amend	Allow for "The damming and diversion of water by a structure that was existing and lawful on the date of notification of this Plan as a Permitted Activity" or similar. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions).
Wellington Water Limited	S135/165	Rule R117: New structures - permitted activity	Amend	Change to specifically provide for in-stream erosion protection structures and debris arrestors. In condition (f), add an exclusion for maintenance, operation and upgrade of three waters regionally significant infrastructure. For (h) and (j), refine and justify the threshold measures. Reconsider how the dimensions are described and if they are necessary. Reconsider and refine the wording of condition (K) to indicate how the water quality could be better or ascertained.

Wellington Water Limited	S135/166	Rule R119: Clearing flood debris and beach recontouring - permitted activity	Amend	"Change (d) to include preserving the flood protection function of the stormwater structure to enable pro-active maintenance. Include a definition for "flood debris" that covers the wide range of materials that can build up and cause blockage during a flood. Include a definition for "river beach" that includes material build up around culverts and bridge piers. Amend the definition for "beach recontouring" to include all river bed materials. Amend condition (f) to permit a reasonable amount of recontouring in the flowing channel. Clarify condition (g) that it relates to the depth of excavation, if this is the intention, and increase this cutoff to 1.5 metres. Clarify that temporary stream damming and diversion required for in-stream structure works are included in all relevant rules for structures in a river bed, or provide for temporary damming and diversion as a permitted activity (subject to reasonable conditions). "
Wellington Water Limited	S135/167	Rule R120: Minor sand and gravel extraction - permitted activity	Amend	Retain.
Wellington Water Limited	S135/168	Rule R121: Maintenance of drains - permitted activity	Amend	Amend the definition of "highly modified river or stream" to be applicable to urban stormwater networks that include large numbers of watercourses and open drains, including intake structures. As the rule is specifically about drains, it is best to use terminology that drain maintenance contractors are familiar with. (f) Clarify the intention and meaning of "original grade or cross section" and re-word to make it reflect practical work operations. (g) Specify where use of fish friendly digger buckets are necessary. (j) Remove condition. (k) Remove condition.
Wellington Water Limited	S135/169	Rule R122: Removing vegetation - permitted activity	Amend	Amend the definition of "highly modified river or stream" to be applicable to urban stormwater networks that include large numbers of watercourses and open drains, including intake structures. As the rule is specifically about drains, it is best to use terminology that drain maintenance contractors are familiar with. (g) Specify where use of fish friendly digger buckets are necessary. (l) Remove condition.

Wellington Water Limited	S135/170	Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Amend	<p>Match the restrictions in this rule to those in policy P102.</p> <p>Change this rule to (or similar): The reclamation of the bed, or any part of the bed of a river or lake: associated with the piping of a stream (except those associated with a qualifying development within a special housing area; or associated with a growth area or development framework or strategy approved by a local authority under the Local Government Act 2002 or contained within a District Plan) or</p> <p>(b) Add a new rule similar to: The reclamation of the bed of a river: associated with the piping of a stream; and within a qualifying development within a special housing area; or associated with a growth area or development framework or strategy approved by a local authority under the Local Government Act 2002 or contained within a District Plan is a discretionary unrestricted activity.</p> <p>Amend the definition of reclamation to clarify its meaning in relation to the bed of a lake or a river.</p> <p>Ensure policy P102 and this rule are consistent in terms of reclamation with other provisions for temporary damming and diversion of rivers or lakes.</p>
Wellington Water Limited	S135/171	Rule R131: Damming or diverting water within or from rivers - discretionary activity	Amend	Replicate Rule 8 from the existing Freshwater Plan, similar to "The damming and diversion of water by a structure that was existing and lawful on the date the proposed Plan was publicly notified as a permitted activity."
Wellington Water Limited	S135/172	Rule R139: Pumping test - permitted activity	Support	Support
Wellington Water Limited	S135/173	Rule R140: Dewatering - permitted activity	Amend	Create a special category of permitted activity for regionally significant infrastructure, or have consents trigger to controlled activity status. Amend (a) so that the work does not exceed 6 months.
Wellington Water Limited	S135/174	Rule R141: Take and use of water not permitted - controlled activity	Amend	Amend if (b) is an error, otherwise clarify intended maximum rates.

Wellington Water Limited	S135/175	Rule R142: All other take and use - discretionary activity	Support	Support
Wellington Water Limited	S135/176	Rule R143: Temporary water permit transfers - controlled activity	Support	Support
Wellington Water Limited	S135/177	Rule R144: Transferring water permits - restricted discretionary activity	Support	Support
Wellington Water Limited	S135/178	Rule R145: Transferring water permits - discretionary activity	Support	Support
Wellington Water Limited	S135/179	Rule R146: Geotechnical investigation bores - permitted activity	Amend	Add (e) "the integrity of any artesian aquifer capping layer is protected" or similar. Amend Map 27b to include the entire Hutt Valley from Taita to the Petone foreshore. Also exclude geotechnical investigation bores in the wellington harbour (Map 30) from being a permitted activity. Include in rule R146 the condition that the bore is not located within the Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson) shown on Map 30. Include new definition of Aquiclude similar to "Aquiclude is a geological formation or stratum that confines water in an adjacent aquifer" in the Interpretation chapter.
Wellington Water Limited	S135/180	Rule R148: Drilling, construction or alteration of any bore - discretionary activity	Amend	Require consent for any work that has the potential to disturb the Waiwhetu aquiclude, which considers potential damage to the aquiclude resulting in aquifer leakage and/or contamination.

Wellington Water Limited	S135/181	Rule R147: Drilling, construction or alteration of any bore - controlled activity	Amend	Add new condition "the integrity of any artesian aquifer capping layer is protected" or similar. Require double casing of bores that penetrate the Waiwhetu aquiclude in accordance with NZS 4411:2001 Environmental Standard for Drilling of Soil and Rock. Amend Map 27b to include the entire Hutt Valley from Taita to the Petone foreshore. Exclude geotechnical investigation bores in the Wellington harbour (Map 30) from being a permitted activity. Insert new point (c) similar to Rule R146 (a) to protect the community drinking water supply area.
Wellington Water Limited	S135/182	5.7.2 Coastal management general conditions	Amend	Clarify the applicability of these general conditions to the functioning and benefits of stormwater flap gates and three waters regionally significant infrastructure generally. Clarify condition (m) applies to stormwater outfalls or what type of structures are included.
Wellington Water Limited	S135/183	Rule R150: Minor additions or alterations to structures - permitted activity	Amend	Amend condition (k) to allow for minimum excavation required for suitable bedding of the stormwater pipe, or to like effect.
Wellington Water Limited	S135/184	Rule R182: Occupation of space by a structure owned by a network utility operator - permitted activity	Support	Support
Wellington Water Limited	S135/185	Rule R189: Clearance of stormwater pipes - permitted activity	Support	Support
Wellington Water Limited	S135/186	Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity	Support	Support

Wellington Water Limited	S135/187	Method M4: Sea level rise	Amend	Change "International Panel of Climate Change" to read "Intergovernmental Panel on Climate Change"
Wellington Water Limited	S135/188	Method M11: Assessment and reporting of Wellington Regional Council works, operations and services for integrated catchment management	Amend	Clarify whether this provision applies to GWRC water supply operations, now managed by Wellington Water, and if so, what activities would have to be reported on.
Wellington Water Limited	S135/189	Method M14: Maintenance of drains	Support	Retain.
Wellington Water Limited	S135/190	Method M15: Regional stormwater working group	Support	Retain.
Wellington Water Limited	S135/191	Method M17: Reduce waste and use water and energy efficiently	Support	Retain.
Wellington Water Limited	S135/192	Method M18: Water use groups	Support	Support
Wellington Water Limited	S135/193	Methods 19: Water management	Support	Retain.
Wellington Water Limited	S135/194	Method M21: Fish passage	Support	Support
Wellington Water Limited	S135/195	Method M27: Improving water quality in priority water bodies	Support	Retain.

Wellington Water Limited	S135/196	Method M28: Development of good management practice guidelines.	Support	Support
Wellington Water Limited	S135/197	Rule WH.R1: Take and use of water in the Wellington Harbour and Hutt Valley Whaitua - restricted discretionary activity	Amend	Table 8.1 Replace "Russ Bridge recorder" with "Truss Bridge recorder". Table 8.1 The minimum flow below the Kaitoke water supply intake should be able to be reduced to 400 L/s for special circumstances. In Table 8.2 increase the allocation amount for each of the Wainuiomata and the Orongorongo Rivers to 460 L/s each.
Wellington Water Limited	S135/198	Rule WH.R2: Taking and using water in the Wellington Harbour and Hutt Valley Whaitua - discretionary activity	Support	Support
Wellington Water Limited	S135/199	Rule WH.R3: Take and use of water from outstanding rivers and lakes -non-complying activity	Support	Support
Wellington Water Limited	S135/200	Rule WH.R4: Take and use of water that exceeds minimum flows, lake levels or core allocation - prohibited activity	Amend	Insert new footnote or text to Table 8.2 to give the effect of "For some parts of some rivers current allocations may exceed the default values shown in Table 8.2. This apparent over-allocation does not necessarily mean that the river ecological values or any other values are compromised or under threat. Rather, it indicates that the reach is likely to be fully allocated and that the effects of any applications for new consents or consent renewals should be carefully evaluated." Increase the allocation amounts to match Wellington Water current consents. In Figure 8.2. change the depth of Category A to 10m depth instead of 15m.

Wellington Water Limited	S135/201	Policy WH.P1: Minimum flows and water levels in the Wellington Harbour and Hutt Valley Whaitua	Support	Support
Wellington Water Limited	S135/202	Policy WH.P2: Core allocation in the Wellington Harbour and Hutt Valley Whaitua	Amend	Correct the allocation amounts in Table 8.2 to 460 litres/sec for the Wainuiomata River and also for the Orongorongo River.
Wellington Water Limited	S135/203	Schedule A: Outstanding water bodies	Amend	Change Kaitoke dam to Kaitoke weir.
Wellington Water Limited	S135/204	Schedule F: Ecosystems and habitats with significant indigenous biodiversity values	Amend	Schedule F1: Change criteria to be consistent with and give effect to those in Policy 23 of the Regional Policy Statement. Change reference coordinates to NZTM datum. Schedule F1a: See comments under P33: "In the fifth line replace "avoided" with "reduced to a practical minimum". Include a practical time element into (c)." Rearrange fish names in alphabetical order. Identify those waterbodies that have piped sections and provide for the normal maintenance, operation and upgrade of that regionally significant infrastructure.
Wellington Water Limited	S135/205	Schedule I: Important trout fishery rivers and spawning waters	Amend	Delete Plateau Stream
Wellington Water Limited	S135/206	Schedule M: Community drinking water supply abstraction points	Amend	Add coordinates to Schedule M1. Include Little Huia Creek in schedule M1.
Wellington Water Limited	S135/207	Schedule M: Community drinking water supply abstraction points	Amend	Add coordinates to Schedule M2. Confirm or correct the WRC Well numbers.

Wellington Water Limited	S135/208	Schedule N: Stormwater management strategy	Amend	Schedule N should be restructured to take a risk management approach that aligns with the asset management systems used to manage the stormwater networks. Wellington Water is in the process of developing such an alternative schedule and we are keen to work with GWRC to finalise it. The schedule should exclude elements of asset management and focus on providing limits and outcomes to be met. It should only include elements that network managers have in their control.
Wellington Water Limited	S135/209	Schedule Q: Reasonable and efficient use criteria	Amend	Clarify the purpose and use for information sought via (a). Make the approach to sector information to be taken by the applicant to demonstrating reasonable demand for a group or community less prescriptive, by removing reference to specific sectors. End Group or community water supplies (a) at "...the sectors in the group or community that will use the water." Delete the words following that "and the relative amounts that will be provided to each sector. Sectors in the community using water include:" and all the following 6 bullet points.
Wellington Water Limited	S135/210	Map 1: Outstanding water bodies (Schedule A1, A2, A3)	Amend	Change downstream extent of the Hutt River OWB to a point 20m upstream of the Kaitoke Weir.
Wellington Water Limited	S135/211	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Amend	Extend the Lower Hutt Groundwater Protection zone to cover the Hutt Catchment upstream of the infiltration zone. Delete Hutt Park Wells and insert Gear Island Wells. Extend the groundwater supply protection area to include all the valley floor to the foreshore of Wellington Harbour.
Wellington Water Limited	S135/212	Entire Plan	Amend	The objectives, policies, rules and methods are re-drafted to more adequately recognise the benefits of three waters regionally significant infrastructure and protect its establishment, operation, maintenance and upgrade.
Wellington Water Limited	S135/213	Regionally significant infrastructure	Amend	Clarity is provided on whether regionally significant infrastructure also includes the discharges inherent in the three waters systems. It would be beneficial if the discharge itself was considered part of the three waters regionally significant infrastructure.

Wellington Water Limited	S135/214	Objective O12: Benefits of regionally significant infrastructure	Amend	Provision for and protection of the stormwater network and associated watercourses and wastewater networks is afforded throughout the plan in a similar manner that has been provided for the potable water supply
Wellington Water Limited	S135/215	Entire Plan	Amend	A section 32A analysis (required with the decisions on this proposed plan) that gives effect to the requirements for a cost-benefit analysis with consideration of efficiency and effectiveness be provided.
Wellington Water Limited	S135/216	Entire Plan	Amend	Re-balance to reduce the amount of regulation and increase the use of 'Other Methods' to enable more collaboration and sharing of risks between GWRC and councils, applicants and the community.
Wellington Water Limited	S135/217	5. Rules	Amend	The permitted rules are reviewed to ensure they are clear and certain, do not invoke inappropriately subjective evaluations and comply with case law.
Wellington Water Limited	S135/218	Objective O12: Benefits of regionally significant infrastructure	Amend	The proposed plan distinguishes and recognises the benefits of the urban environment and infrastructure, and in particular reflects the urban context and its benefits in the determination of activity status.
Wellington Water Limited	S135/219	Objective O12: Benefits of regionally significant infrastructure	Amend	The proposed plan contain provisions that recognise and provide for the long lives of regionally significant infrastructure and consider the use of review conditions and other mechanisms, such as adaptive management and review provisions, to encourage continuous improvement.
Wellington Water Limited	S135/220	Objective O49: Wastewater discharges to land	Amend	Provision is made for re-consenting of existing coastal discharges from the wastewater treatment plants in the four metropolitan cities area, without new investigations of land-disposal alternatives. Alternatively, explicit provision be made for previous land disposal studies to be acceptable for this purpose.
Wellington Water Limited	S135/221	3.13 Coastal management	Amend	The proposed plan include an objective that acknowledges sunk community investment and commitment to the existing treated wastewater discharges to the coast from the cities of the Wellington metropolitan area.

Wellington Water Limited	S135/222	Objective O49: Wastewater discharges to land	Amend	The public health benefits of constructed bypass wastewater discharges in high rainfall events be recognised and provided for in the proposed plan
Wellington Water Limited	S135/223	Rule R51: Stormwater from a local authority network two years after public notification - restricted discretionary activity	Amend	Second stage resource consents for discharges from stormwater networks under rule R51 are accorded controlled activity status, with an expectation of a term of 35 years with a review clause to implement the outcomes of specific whaitua processes.
Wellington Water Limited	S135/224	Objective O48: Stormwater networks	Amend	Schedule N 'Stormwater management strategy' focus on the effects of the discharge rather than on managing the asset, and restrict itself to matters within the network manager's control.
Wellington Water Limited	S135/225	Schedule N: Stormwater management strategy	Amend	Schedule N: 'Stormwater management strategy' be amended to reflect a risk based management approach consistent with the way the networks are managed and funded
Wellington Water Limited	S135/226	5.5.4 Beds of lakes and rivers general conditions	Amend	The majority of network-related maintenance activities in the beds of streams and rivers be permitted activities with conditions appropriate to the temporary nature of works and scale of environmental effects.
Wellington Water Limited	S135/227	Schedule Q: Reasonable and efficient use criteria	Amend	A new sub-section in Schedule Q: Reasonable and efficient water use criteria be included to recognise and provide for the supplying of essential services, a risk management strategy that may incorporate the management of multiple sources and elements of redundancy in order that the service provided maintains a high degree of reliability and resilience", and that consequential modifications to policies P118 and P119 be made.
Wellington Water Limited	S135/228	Schedule Q: Reasonable and efficient use criteria	Amend	Schedule Q is amended to remove reference to "maximising" water efficiency.

Wellington Water Limited	S135/229	Policy WH.P2: Core allocation in the Wellington Harbour and Hutt Valley Whaitua	Amend	Tables 8.2 and 8.3 water allocations of policy WH.P2 and rule WH.R1 be amended to reflect the water takes already granted by existing resource consents.
Wellington Water Limited	S135/230	Entire Plan	Amend	Provisions be inserted in the proposed plan to address the different scale and nature of effects of differing activities and discharges into freshwater and in coastal water environments.
Wellington Water Limited	S135/231	Objective O12: Benefits of regionally significant infrastructure	Amend	The proposed plan recognises and provides for the benefits of regionally significant infrastructure when considering the scale of their adverse effects.
Wellington Water Limited	S135/232	Policy P77: Assessing resource consents to discharge stormwater containing wastewater	Amend	Re-write to state list of matters of assessment, not asset management actions. Delete reference to policy P76 and delete (c0
Wendy Barry	S34/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Support	Keep this rule in the final plan, but ensure there is adequate consultation and communication with the local community. It will create a big backlash if people feel like it has come out of the blue.
Wendy Leary	S245/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Willem Stolte	S423/001	Category A groundwater	Amend	Amend [definition of directly connected]: <u>Ground water in the bore is at the same level as the water in the river and moves up and down with the level of the river.</u>
Willem Stolte	S423/002	Regionally significant infrastructure	Amend	Add after treatment plants: water race networks and facilities for the irrigation of pasture and crops.
Willem Stolte	S423/003	Unused water	Support	Retain.

Willem Stolte	S423/004	Objective O8: Allocation regime	Amend	Amend Objective O8: "the social, <u>agricultural, industrial</u> , cultural and environmental benefits of taking and using water for current uses and also for future needs are recognised and provided for within the Plan's allocation framework"
Willem Stolte	S423/005	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Willem Stolte	S423/006	Objective O52: Efficient allocation	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Willem Stolte	S423/007	Policy P7: Uses of land and water	Amend	Add "diffuse contaminants" to (b). Retain (h).
Willem Stolte	S423/008	Policy P11: In-stream water storage	Support	Retain.
Willem Stolte	S423/009	Schedule P: Classifying and managing groundwater and surface water connectivity	Amend	[Amend Policy P107]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence"Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Willem Stolte	S423/010	Policy P107: The framework for taking and using water	Amend	[Amend]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence" Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Willem Stolte	S423/011	Policy P109: Lapse dates affecting water takes	Support	Support Policy P109.

Willem Stolte	S423/012	Policy P111: Water takes at minimum flows and water levels	Amend	<u>Category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows following a period of 10 days of continuous river levels at minimum flow.</u>
Willem Stolte	S423/013	Rule R135: General rule for taking, use, damming and diverting water - discretionary activity	Amend	Make Rule R135 restricted discretionary.
Willem Stolte	S423/014	Policy P115: Authorising takes below minimum flows and lake levels	Amend	Amend Policy P115 (d) category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows <u>following a period of 10 days of continuous river levels at minimum flow.</u> Delete (c)(i)
Willem Stolte	S423/015	Policy P116: Reallocating water	Support	Retain.
Willem Stolte	S423/016	Policy P117: Supplementary allocation amounts at flows above the median flow	Support	Retain.
Willem Stolte	S423/017	Policy P118: Reasonable and efficient use	Amend	Amend Policy P118 to read "while existing users replacing existing resource consents have a period of four years from the date of the plan being made operative <u>renewal of consent to meet the criteria.</u>
Willem Stolte	S423/018	Policy P119: Unused water	Support	Retain.
Willem Stolte	S423/019	Policy P120: Taking water for storage	Support	Retain.
Willem Stolte	S423/020	Policy P128: Transfer of resource consents	Support	Retain.

Willem Stolte	S423/021	Rule R137: Farm dairy washdown and milk-cooling water - permitted activity	Amend	Amend Rule R137 clause (b) by deleting words after "property...".
Willem Stolte	S423/022	Rule R143: Temporary water permit transfers - controlled activity	Amend	Amend Rule R143 to be a permitted activity and not a controlled activity.
Willem Stolte	S423/023	Rule R144: Transferring water permits - restricted discretionary activity	Support	Retain.
Willem Stolte	S423/024	Method M13: Wairarapa water races	Amend	Insert after cultural values " <u>and economic values</u> of the Wairarapa water races..."
Willem Stolte	S423/025	Method M18: Water use groups	Support	Retain.
Willem Stolte	S423/026	Methods 19: Water management	Amend	Amend Method 19 (d) <u>quantify costs and benefits of water races and explore alternatives.</u>
Willem Stolte	S423/027	Method M28: Development of good management practice guidelines.	Support	Retain.
Willem Stolte	S423/028	Policy R.P3: Cumulative effects on river reaches of allocating water	Support	Insert after adverse effects: <u>that are measured</u> on aquatic...
Willem Stolte	S423/029	7 Ruamahanga Whaitua	Oppose	Do not include Figures 7.3-7.8 in the plan until categories have been verified. Change the allocation amounts in Tables 7.3-7.5 to what is currently allocated or more if spare water has been identified.

Willem Stolte	S423/030	Schedule P: Classifying and managing groundwater and surface water connectivity	Oppose	Needs empirical calibration by GW.
Willem Stolte	S423/031	Schedule Q: Reasonable and efficient use criteria	Oppose	Remove sentence "the model must reliably predict annual irrigation volume within an accuracy of 15%"Add after field validated model: <u>for Wairarapa conditions</u> In (a) add after 80%: <u>where practicable</u>
Willem Stolte	S423/032	Schedule R: Guideline for stepdown allocations	Amend	Add after health needs of people: <u>stock drinking water and rootstock protection.</u> [Acknowledge Table R1 is interim; consult with water users on further changes]
Willem Stolte	S423/033	Category A groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Willem Stolte	S423/034	Policy P6: Synchronised expiry and review dates	Support in part	Retain and add (c) "consents will run for a period of 25 years"
Willem Stolte	S423/035	5.6.3 Transferring water permits	Amend	[Make transferring water a permitted activity]
Willem Stolte	S423/036	Category B groundwater (not directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Willem Stolte	S423/037	Category B groundwater (directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Willem Stolte	S423/038	Category C groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>

William Craig Stewart Booth and Eleanor Joan Booth	S405/001	Rule R196: Motor vehicles - permitted activity	Amend	Amend the wording of Rule R196 (b), as follows: <u>'the activity is not within a site or habitat identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F2c (birds-coastal), Schedule F5 (coastal habitats) or Schedule J (geological features), unless a Resource Consent Application is approved as a 'Restricted Discretionary Activity'.</u>
William Craig Stewart Booth and Eleanor Joan Booth	S405/002	Rule R198: Motor vehicles inside sites of significance - non complying activity	Amend	Amend Rule R198 to allow the use of motor vehicles on the foreshore as a restricted discretionary activity, as per the status quo.
Willy and Sally Bosch	S380/001	Category A groundwater	Amend	Amend [definition of directly connected]: <u>Ground water in the bore is at the same level as the water in the river and moves up and down with the level of the river.</u>
Willy and Sally Bosch	S380/002	Regionally significant infrastructure	Amend	Add after treatment plants: water race networks and facilities for the irrigation of pasture and crops.
Willy and Sally Bosch	S380/003	Unused water	Support	Retain.
Willy and Sally Bosch	S380/004	Objective O8: Allocation regime	Amend	Amend Objective O8: "the social, <u>agricultural, industrial,</u> cultural and environmental benefits of taking and using water for current uses and also for future needs are recognised and provided for within the Plan's allocation framework"
Willy and Sally Bosch	S380/005	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Willy and Sally Bosch	S380/006	Objective O52: Efficient allocation	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Willy and Sally Bosch	S380/007	Policy P7: Uses of land and water	Amend	Add "diffuse contaminants" to (b). Retain (h).

Willy and Sally Bosch	S380/008	Policy P11: In-stream water storage	Support	Retain.
Willy and Sally Bosch	S380/009	Schedule P: Classifying and managing groundwater and surface water connectivity	Amend	[Amend Policy P107]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence"Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Willy and Sally Bosch	S380/010	Policy P107: The framework for taking and using water	Amend	[Amend]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence" Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Willy and Sally Bosch	S380/011	Policy P109: Lapse dates affecting water takes	Support	Support Policy P109.
Willy and Sally Bosch	S380/012	Policy P111: Water takes at minimum flows and water levels	Amend	<u>Category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows following a period of 10 days of continuous river levels at minimum flow.</u>
Willy and Sally Bosch	S380/013	Rule R135: General rule for taking, use, damming and diverting water - discretionary activity	Amend	Make Rule R135 restricted discretionary.
Willy and Sally Bosch	S380/014	Policy P115: Authorising takes below minimum flows and lake levels	Amend	Amend Policy P115 (d) category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows <u>following a period of 10 days of continuous river levels at minimum flow.</u> Delete (c)(i)
Willy and Sally Bosch	S380/015	Policy P116: Reallocating water	Support	Retain.

Willy and Sally Bosch	S380/016	Policy P117: Supplementary allocation amounts at flows above the median flow	Support	Retain.
Willy and Sally Bosch	S380/017	Policy P118: Reasonable and efficient use	Amend	Amend Policy P118 to read "while existing users replacing existing resource consents have a period of four years from the date of the plan being made operative <u>renewal of consent to meet the criteria.</u> "
Willy and Sally Bosch	S380/018	Policy P119: Unused water	Support	Retain.
Willy and Sally Bosch	S380/019	Policy P120: Taking water for storage	Support	Retain.
Willy and Sally Bosch	S380/020	Policy P128: Transfer of resource consents	Support	Retain.
Willy and Sally Bosch	S380/021	Rule R137: Farm dairy washdown and milk-cooling water - permitted activity	Amend	Amend Rule R137 clause (b) by deleting words after "property..."
Willy and Sally Bosch	S380/022	Rule R143: Temporary water permit transfers - controlled activity	Amend	Amend Rule R143 to be a permitted activity and not a controlled activity.
Willy and Sally Bosch	S380/023	Rule R144: Transferring water permits - restricted discretionary activity	Support	Retain.
Willy and Sally Bosch	S380/024	Method M13: Wairarapa water races	Amend	Insert after cultural values " <u>and economic values</u> of the Wairarapa water races..."

Willy and Sally Bosch	S380/025	Method M18: Water use groups	Support	Retain.
Willy and Sally Bosch	S380/026	Methods 19: Water management	Amend	Amend Method 19 (d) <u>quantify costs and benefits of water races and explore alternatives.</u>
Willy and Sally Bosch	S380/027	Method M28: Development of good management practice guidelines.	Support	Retain.
Willy and Sally Bosch	S380/028	Policy R.P3: Cumulative effects on river reaches of allocating water	Support	Insert after adverse effects: <u>that are measured</u> on aquatic...
Willy and Sally Bosch	S380/029	7 Ruamahanga Whaitua	Oppose	Do not include Figures 7.3-7.8 in the plan until categories have been verified. Change the allocation amounts in Tables 7.3-7.5 to what is currently allocated or more if spare water has been identified.
Willy and Sally Bosch	S380/030	Schedule P: Classifying and managing groundwater and surface water connectivity	Oppose	Needs empirical calibration by GW.
Willy and Sally Bosch	S380/031	Schedule Q: Reasonable and efficient use criteria	Oppose	Remove sentence "the model must reliably predict annual irrigation volume within an accuracy of 15%"Add after field validated model: <u>for Wairarapa conditions</u> In (a) add after 80%: <u>where practicable</u>
Willy and Sally Bosch	S380/032	Schedule R: Guideline for stepdown allocations	Amend	Add after health needs of people: <u>stock drinking water and rootstock protection.</u> [Acknowledge Table R1 is interim; consult with water users on further changes]
Willy and Sally Bosch	S380/033	Category A groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>

Willy and Sally Bosch	S380/034	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Willy and Sally Bosch	S380/035	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Willy and Sally Bosch	S380/036	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.
Willy and Sally Bosch	S380/037	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Willy and Sally Bosch	S380/038	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Willy and Sally Bosch	S380/039	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Willy and Sally Bosch	S380/040	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Willy and Sally Bosch	S380/041	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks

Willy and Sally Bosch	S380/042	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Willy and Sally Bosch	S380/043	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Willy and Sally Bosch	S380/044	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Willy and Sally Bosch	S380/045	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Willy and Sally Bosch	S380/046	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held

Willy and Sally Bosch	S380/047	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Willy and Sally Bosch	S380/048	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Willy and Sally Bosch	S380/049	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Willy and Sally Bosch	S380/050	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Willy and Sally Bosch	S380/051	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Willy and Sally Bosch	S380/052	Silage	Oppose	Change definition to specify this does not include baleage.

Willy and Sally Bosch	S380/053	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Willy and Sally Bosch	S380/054	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Willy and Sally Bosch	S380/055	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Willy and Sally Bosch	S380/056	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Willy and Sally Bosch	S380/057	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Willy and Sally Bosch	S380/058	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition l] Provide direction to landowners about the type of waterways on their land.
Willy and Sally Bosch	S380/059	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Willy and Sally Bosch	S380/060	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Willy and Sally Bosch	S380/061	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Willy and Sally Bosch	S380/063	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.

Willy and Sally Bosch	S380/064	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Willy and Sally Bosch	S380/065	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".
Willy and Sally Bosch	S380/066	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Willy and Sally Bosch	S380/067	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Willy and Sally Bosch	S380/068	Rule R115: Culverts - permitted activity	Oppose	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Willy and Sally Bosch	S380/069	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Willy and Sally Bosch	S380/070	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m3 to 100m3. Heavily prune the fourteen other conditions to focus on clear effects.
Willy and Sally Bosch	S380/071	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.

Willy and Sally Bosch	S380/072	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Willy and Sally Bosch	S380/073	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Willy and Sally Bosch	S380/074	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Willy and Sally Bosch	S380/075	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].
Willy and Sally Bosch	S380/076	Policy P6: Synchronised expiry and review dates	Support in part	Retain and add (c) "consents will run for a period of 25 years"
Willy and Sally Bosch	S380/077	5.6.3 Transferring water permits	Amend	[Make transferring water a permitted activity]
Willy and Sally Bosch	S380/078	Category B groundwater (not directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Willy and Sally Bosch	S380/079	Category B groundwater (directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Willy and Sally Bosch	S380/080	Category C groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Woodridge Homes Limited	S105/001	5.1 Air quality rules	Oppose	Add a permitted rule for air discharges from cleanfills

Woodridge Homes Limited	S105/002	Rule R42: Minor discharges - permitted activity	Support	For Rule R42, retain 100g/m3 limit, adding wording to rule R42 to clarify that stormwater discharges are covered by Rule R48.
Woodridge Homes Limited	S105/003	Rule R48: Stormwater from an individual property - permitted activity	Oppose	The workability of these rules (R48, R50 and R51) and their implications for developers and District Councils needs to be further considered and explained.
Woodridge Homes Limited	S105/004	Rule R55: Discharges from contaminated land - permitted activity	Oppose	For Rule R55 consider a less restricted standard for discharges of stormwater from contaminated sites.
Woodridge Homes Limited	S105/005	Rule R115: Culverts - permitted activity	Oppose	Define culvert. In Rule R115 delete 20m length and replace with the wording ' <u>the formed culvert crossing shall be no wider/longer than necessary for the crossing</u> '
Woodridge Homes Limited	S105/006	Rule R119: Clearing flood debris and beach recontouring - permitted activity	Oppose	In Rule R119 either delete or amend to allow removal of this material down to the natural bed level.
Woodridge Homes Limited	S105/007	Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Amend	Reconsider and clarify the wording of R 112 to make the extension of cables ducts and pipes a permitted activity. This could include deleting the words "excluding any cable, pipe or duct" from permitted activity condition (g). Alternatively the wording could be amended to read "excluding any <u>overhead</u> cable, pipe or duct" to better align it with R28 of the RFP.
Woodridge Homes Limited	S105/008	Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Oppose	Add a new rule which makes the reclamation of streams for the development of urban land and in particular development in greenfield areas a discretionary activity.

Woodridge Homes Limited	S105/009	Policy P102: Reclamation or drainage of the beds of lakes and rivers	Oppose	Amend and apply Policy P102 to all areas identified for urban development under a District Plan.
Woodridge Homes Limited	S105/010	2.1.6 Definitions, schedules and maps	Amend	Provide a definition of culvert, reclamation and pipe in the interpretation section.
