

Timeline for Stock Exclusion Requirements in the Wellington Region

Regulations apply to surface water bodies greater than 1 metre wide unless otherwise stated

2019

All stock excluded from **PNRP category 1 wetlands**.
Sheep are included in this unless you have a resource consent.

All stock excluded from **PNRP category 1 rivers**.

At all times - If stock exclusion is not yet required, access of all stock to any river, lake, wetland, surface water body or coastal marine area shall not result in more than minor damage, or change in colour or clarity of water.

2022

Cattle, pigs and farmed deer excluded from **PNRP category 2 surface water bodies**. *Except for Schedule F1 rivers less than 1 metre wide.*

Dairy cows excluded from all **other rivers**. *River width is measured at the stock access location.*

2023

Cattle, pigs and deer must be excluded from all wetlands identified in the PNRP.

All dairy cattle, pigs, intensively grazed beef cattle and deer must be excluded from all lakes and rivers on any terrain.

2025

Cattle, pigs and deer on **low slope land** must be excluded from any natural wetland that is 0.05 hectares or more.

All beef cattle and deer must be excluded from all lakes and rivers on **low slope land**.

Dairy support cattle excluded from all lakes and rivers on **any terrain**.

Cattle, pigs and farmed deer excluded from **PNRP Category 2 schedule F1 rivers** less than 1 metre wide.
